Bellis Men Attacked By Cougars Sanguinary Battle, Horse Killed

First Meeting of New Council M. D. of Laurier No. 543

An almost unbelievable story comes from our duty accredited correspondent from Bellis, and it must be true from "Honest John" Rogers. No one in the settlement north of Bellis dares go about alone and fully armed with shot guns and knives. Bears, timber wolves and deer have been known for years to roam about, in this trackless waste, but to encounter force man-eating lions in bloodcurdling and to be actually attacked by two of them was news.

Councillor Steve Demchuk of St. Paul says he was in this wild and desolate country four years ago to catch wild horses. There are as ferocious as the average and blood-thirsty wolves, bears and cougars that inhabit this unbroken wilderness. The whole region for hundreds of square miles is swampy bogs and quagmires, very thick woods and deadfalls. There are no trails and it is rarely traversed by man. Why two men would venture into these timbered fastnesses with the same as deep as it is this winter Councillor Demchuk does not understand.

A few years ago T. F. O'Connor, then teaching at Vinn, told of timber wolves having attacked settlers of the neighborhood. The story was published in and paid for by the New York Times.

Let "Honest John" Rogers tell the story: "Two men from Bellis, Geo. Pabron and Fred Kodak, went about 20 miles north of Bellis (a village on the Oliver, Paul railway) to find some fence posts. They stop at a deserted hunters' camp over night. On their return their horses belly-deep in the snow for about five miles from the hunters' shack they were encountered by what they believed were two large timber wolves that jumped quickly out of a large hole in a side hill where it is claimed moonbeams made such notorious mountain dew years ago.

Timber wolves would've been strong the horses but they've been kicked too many times by the vicious animals that roam these regions. "Horrors, they were not timber wolves but deadly American cougars, mums or panther known as the most vicious and fearless wild beasts. Lip-deep the front cougar leaped to the neck of the front horse and threw both man and beast down. Fred Kodak's horse bolted and Pabron was left fighting for his life and was saved by one of the panthers taking after Kodak's horse. Kodak shot the first cougar in the legs with his 30.30 as it was springing onto Pabron. This enraged it and as it jumped onto Pabron he snuck his trusty hunter's knife into the ferocious animal. Kodak finished it by using his gun and clubbed it into insensibility.

"Both men left to find the other men but found that the other cougar had so badly mangled it had died to death and that it was quietly sucking its lifeblood.

"When the cougar saw the men approaching it ran into the bush. They could not shoot it as the rifle had been broken in killing the first cougar. Both men led the surviving horse to an empty rancher's shack, headed to the nearest town and Pabron's drawers and left it there to die. The tented, cold and dying hunters arrived home late at night and tired, but their wives could not prevent their brave husbands from telling the story of their stirring adventures with two good rifles and ammunition to go over the top of the great big bad cougar."

Whatever luck and experience they have will be told in the Journal.

PROCEEDINGS OF CARD PARTY 5100

Sunday night a most successful card party was held at the Parish Hall. The money was given under the auspices of the Ladies of St. Anne and there were 52 tables of players for bridge, 500 and whist. After the cards two one act plays and a short programme of singing was well received by an appreciative audience.

Those taking part in the 1st play, "La Matinee d'une Emille" were: Mrs. and Mrs. D. Leroux and Mrs. T. Leonard and in the 2nd play "L'Heure de la Liberté" Mrs. Beaumont, Mrs. LaChapelle and Mr. Thornton took part. Dr. and Mrs. Saborin sang two duets and each two solos.

Among the prize winners for the cards were: Ladies 1st, Mrs. D. Bougie, 2nd, Mrs. E. Lafrance, 3rd Mrs. Victor Lafrance, 4th Mrs. Pulkabek, 5th Mrs. E. Beaumont; Men's 1st, Leo Brunselle, 2nd, Victor Lafrance, 3rd, E. LaChapelle, 4th H. Plante. The all wood comforter donated by Mrs. Emile Lafrance was won by Isidore Fontaine.

A 20 lb bag of sugar was won by Mrs. Cheneval and a 10 lb bag of sugar was won by S. Tetrault. Both were donated by all the ladies of the society as entry prizes.

SPECIAL TO THE ST. PAUL JOURNAL

1933 World Bridge Olympic

You are invited to participate in the world's great bridge classic—the annual World Bridge Olympic. It will be held Monday, May 1, 1933, at 8:00 p.m. and will be open to all bridge players throughout the world. The St. Paul unit of the contest will be held at the K.C. club. The aim of the National Bridge Association is to have a World Bridge Olympic game in every community in the United States and Canada. Entries have already been received from thirty six different countries and 100,000 Contract Bridge players are expected to compete in this thrilling contest.

The World Bridge Olympic is the greatest competition in history. It is a contest for Contract Bridge players—beginners, average players and experts alike. Experienced players competing in Olympic games hold in recognized bridge clubs, Contract Bridge societies playing in the World Bridge Olympic as a social affair, in country clubs, hotels and other public institutions and small groups of congenial friends gathered together in a room.

Olympic of four tables, at a private home will simultaneously play the same that find 10 Olympic teams the bridge players in Johannesburg, South Africa, continental bridge players in the capitals of Europe and the American Army Officers in Tientsin, China.

We feel sure that all contract bridge players will want to compete in this epoch-making event. The World Bridge Olympic promises both enjoyment and instruction. It is a creative test of skill and a marvelous lesson in Contract Bridge for beginners or experienced.

On conclusion of this Olympic a complete analysis of the bidding and end play of all 16 hands will be sent to each participant. The entry fee this year is only \$1.00 per player.

These decisions of entering this contest please communicate with the local game societies.

SUGAR BEETS FOR ST. PAUL

At the Chamber of Commerce meeting last night Ed. Mailoux brought up the question of growing sugar beets in this area. Dick Lake, Sask., is going into the industry. More information as to the suitability of this soil and climate is being obtained by the secretary from various sources.

Mr. St. Onge, Sr., knows considerable about the growing of sugar beets, and he will be asked to address the Chamber at its next meeting.

A sugar refinery plant will be established at Duck Lake, and why should we not build a small refinery here now that sugar has advanced and snap our fingers at the big refiners? Everybody is interested in the project.

Auto Owners Pay Huge Tax.

Want Gasoline Tax Removed

The Alberta Motor Association is seeking the removal of the six cent gas tax to be imposed on users of gasoline this summer. Numerous letters have been sent to the Hon. J. E. Brownlee by Chas. H. Grant, chairman of the Association.

Farmers will not be using tractors this summer as farming operations will be carried on by hand. So the farmer who uses his car for pleasure should pay as much as all others. It is very well known that most of the gasoline used two or three years ago was for pay job riding—not for business as is done by the commercial traveler.

We know of a party of four last summer who went to the Peace River country just to visit friends that carried a ten gallon tank of oil in an auto to have to buy it in the way they have been doing. We know of another party who took a 46 gallon tank of gasoline that had been furnished by a townsmen to break up his land and went on a hunt in Medicine Hat. He got a better fire than he was to fill his tank on the return trip and then carried the gas tank. Pretty good breaking of land isn't it? Some of this kind of auto can go a long distance on the other fellow's gas.

The gasoline tax gave the government revenue of \$1,501,000 and more (income tax) of about \$1,474,000 a total of nearly \$3,000,000. Whereas tax on real and personal property amounted tax, corporate tax, for tax, partnership, railway, succession duty and miscellaneous taxes amount to \$2,746,000.

BELLIS HUNTERS KILL ANOTHER COUGAR

As reported in last week's Journal, Fahren and Kadak pursued their last cougar yesterday, and the manning Cougar had killed one of their horses and had been in the area for some time. They found that they had been driving with two fresh horses when they had left the other killed horse the day before. After they had returned to the area, they found that they had been driving with two fresh horses when they had left the other killed horse the day before.

They went to where the dead horse lay but in their hurry and excitement they forgot their ammunition, but that did not stop them from raking to the attack, and they soon dispatched the Cougar. They skinned both animals and have their pelts on exhibition at Bellis.

Our St. Paul readers have shown more than passing interest in the Bellis Cougar story published in our columns last week. The only explanation advanced, it would seem, is that "Cougars" in the Canadian are in the same category as "Pink Elephants" in the Anglo-Saxon.

PRIMROSE NEWS

at St. Paul, Alberta

Whom, Dobbie! Let a stop here for a bit of gossip.

You sir, we're thinking deeply, that is what I'm doing. I'm thinking in a well. We wonder who he can be thinking about?

The U.F.A. will stand up to its position with a meeting and big social evening for young and old on Tuesday, April 11.

Mrs. Cinnamon is visiting her many friends here. She is staying in the hotel here for the past week.

The weather man and his various tricks is exciting activity among the savant gang. Legs are not being shown at Saranack's where they will be saved after seeing.

Miss Edna Ferguson is visiting friends at Frog Lake. She will visit the Hensberg play and dance sponsored by Greenleaf.

The stock is showing favour to the bulls. The market is strong. Wychinsky on Tuesday, April 11, with a boy. Mr. Wychinsky was a smile from ear to ear.

Redistribution of Athabasca Constituency

The South part of the federal constituency of Athabasca will be given to Vegreville in order to take away and neutralize the greatly increased population of Athabasca.

Needless to say, very little time was wasted for a new federal ground to be located. Just as it was wonderful what kind of seed was used, and as it was wonderful what kind of seed was used, and as it was wonderful what kind of seed was used.

WHEREAS the Provisions of British Columbia, Saskatchewan and Manitoba, as well as the North West Territories have declared an Oym: based on Beaver;

WHEREAS BEAVER in the north country are reported to be in sufficient numbers to justify the opening of the season in Alberta;

THEREFORE, upon the recommendation of the Honorable the Minister of Agriculture, the Executive Council advises that the Beaver season be and is hereby declared open in that part of the Province north of Township 40 from March 15th to April 30th, both dates inclusive, under the following regulations:—

1. Male residents sixteen years of age or over may take ten beaver only.

2. Beaver trappers must hold Resident Trappers License.

3. All Beaver pelts must be marketed out before the 31st of May.

Japs and Chinese Don't Mix

The Chinese blend with all other races, but the Japanese think that they are a superior race and will never marry Chinese.

Marriage of Chinese men with Japanese women produce men who are superior to the Japs. The girls are as lovely as tropical flowers and the boys are handsome and very clever.

The Japanese seldom marry with any other race, but Chinese marry Portuguese. Portuguese marry Italian, but the Japs prefer to walk alone.

premier his appreciation. Olga Sarachuk dreamed she was eating Hamlet cheese. When Lili, her best partner, woke up due to a blast of cold air, she found Olga gasping for breath with half a hamlet's worth in her mouth and the rest wound round her neck.

A party was enjoyed at the home of Mr. and Mrs. Henry's last Friday night. On Saturday the gang had a bonfire on Jerry McFarlane for a party, which was another success.

Giddy Dobbie! Of the scene till next time.

Lake Eliza News

It is very seldom that news from Lake Eliza is being inserted in the Journal due to the lack of a reporter.

Henry has been polishing and putting up the building. The toll of washing bells is heard in the land. I wonder if they are heard or if they come over the radio.

Myron (organizing a municipal hospital) Lake Eliza and Lee Belleville will join it in one.

Katie Hollett of Lake Eliza school left for the teachers' conference at Edmonton. I bet somebody is someone working her.

Realty states its no use working on the farms as the papers are getting so dense that it's difficult to close them off. They are more obsolete than the Capitalists. Therefore he plans a trip to the C.P. on the C.P. Observation 10 Car.

Wm. Berntsen is tired of studying politics and economics therefore he is substituting it with True Story magazines in order to acquire some theory which he plans to transform into practice. He will attend the fall of wedding bells in the air. Ten led his no instruction or will attend the fall of wedding bells in the air.

Billis Zalsky had a farm given him by his grandfather, where they will attend the fall of wedding bells in the air. Ten led his no instruction or will attend the fall of wedding bells in the air.

E. Beaudin returned from Vancouver Friday evening. While here Mr. Beaudin was an Allen Cup match between the Saskatoon Quakers and Montreal, N. B. Hawks.

Mr. and Mrs. D. Mollist and family, formerly of St. Paul and who have been living at Horky Mountain House this winter, are returning to the States and will make their home there.

One issued with keen interest Wednesday in William Aberhart's exposition of the Douglas System as a curative for the economic ills that now afflict Alberta. That those ills are real and pressing can not these days be disputed, and the position which more than half the audience signed, wisely asked the present editor representative of the people to be so forth in the future.

However, the Douglas System is being carefully examined everywhere as a promising basis of economic health, that be present for action to insure that it may be given a fair trial.

That's fair enough. But one realized with disappointment that even Mr. Aberhart's three hour speech, the question as to whether the Douglas System was a desirable solution still remained unanswered. One's appetite was quick to listen to, but it leaves one hungry for facts later, and the speaker's explanation of the system was so sketchy that the story of Pat, Mike and the barrel of beer probably stood out clearer in recollection than the details of the benefits of the Douglas System.

Dear Sir:
In your Bulletin 115-17 you are asking whether the above should be recognized as an agency. If not, why not?
The Minister represents of the C.W.A.M.A. requires the person of the agency to be one of good business character etc. and that the agency shall have resources of at least \$10,000 or bonds for that amount.
Why all these barriers and restrictions to the Grain & Milling Ad Service or any other advertising service is quite beyond my comprehension?
All these "Regulations" quoted by you in Bulletin No. 417 are not required, are useless, are impossible of performance, are a hindrance to the public and are a waste of money.

Dear Sir:
In your Bulletin 115-17 you are asking whether the above should be recognized as an agency. If not, why not?
The Minister represents of the C.W.A.M.A. requires the person of the agency to be one of good business character etc. and that the agency shall have resources of at least \$10,000 or bonds for that amount.
Why all these barriers and restrictions to the Grain & Milling Ad Service or any other advertising service is quite beyond my comprehension?
All these "Regulations" quoted by you in Bulletin No. 417 are not required, are useless, are impossible of performance, are a hindrance to the public and are a waste of money.
The Grain & Milling Ad Service is a place where the advertiser can place his advertisement in the most effective manner. It is a place where the advertiser can get the most effective results. It is a place where the advertiser can get the most effective results. It is a place where the advertiser can get the most effective results.

YOUNGSTERS need energy. They need strength. And Kellogg's PEP Bran Flakes are their food.

They love the famous flavor of Kellogg's PEP Bran Flakes with sugared cream of wheat. This enough bran to be mildly laxative.

Enjoy PEP often. Buy a package today from your grocer. Always fresh! Made by Kellogg in London, Ontario.

Waffles

(By Barbara B. Brooks)

Perhaps plain waffles do not appeal to you as something new or different. In that case, let's do something to the batter or make something in the iron that is not a waffle batter at all. We shall start with a labor-saving luncheon or supper menu.

Break cereal waffles with butter, syrup if desired, custard, tomatoes, French dressing, hot or cold beverage.

There is a real secret about the waffle recipe. It is just a carefully measured mixture. You can make almost any bread recipe you like provided it is a rather thin batter. Add a little milk or water to this if necessary. This recipe was pronounced just right by all who tried it. We liked it especially because it is almost a meal in itself. Both the bacon and bread add flavor and nourishment. No other meat is needed and the bread supplies the fiber to balance the meal in this respect.

Enjoy PEP often. Buy a package today from your grocer. Always fresh! Made by Kellogg in London, Ontario.

Coupling Crushes Red Rider's Fate

With only a few miles of his rushing career left, Motor Valiant, 25, of Franchère, near Bonnyville, had part of his right foot badly crushed between a coupling of two freight cars late Friday at Thérien on the east-bound train of the Canadian National railways to Glenora. He was carried to St. Paul hospital by R. F. Kellogg of Bonnyville.

About a year ago, while working on a farm he was run over by a tractor and received severe body injuries which kept him in the hospital for months. He came from Poland a few years ago to homestead in Franchère district and is married.

NINTH YEAR ST. PAUL, ALBERTA, CANADA, WEDNESDAY, SEPTEMBER 13, 1933 No. 3

Depart du Rev. Pere Lavallee

La semaine dernière le 21 août, le Reverend Pere J. A. Lavallee faisait à St. Paul son adieu, pour se rendre à Athabasca l'année où il exercera de nouveau le ministère. Arrivé à St. Paul depuis un an le Rev. Pere Lavallee a soutenu avec un succès chez les jeunes.

Ceux qui l'ont vu partir avec un immense regret, ont vu qu'il voulait se réunir une dernière fois autour de lui.

C'est sur les bords enchantés du Lac St. Vincent que les jeunes acolytes de St. Paul ont voulu lui donner une dernière marque d'affection.

Dimanche le 20 courant après la messe matinale, quelques automobiles bondées de jeunes disciples du Seigneur, les représentants de cercles acolytes d'Edmonton, ayant parmi eux celui qui devait partir se rendait à l'endroit appelé "Père St. Paul" pour y prendre l'écarter.

C'est un moment d'émotion que le bruit qui produit les courants et fourchettes frappant l'assemblée.

Mais le diocèse s'achève et la messe est dite. C'est que l'on sait que plus l'heure avance, plus le moment approche où on devra se séparer de celui qui est parti.

Quelques minutes après le dîner c'est bien le moment de l'adieu.

Tennis Club Closes Season With Banquet

Last Monday night the K.C. club was the scene of a very enjoyable banquet served in honor of the Ashmont visitors who took part in our tournament and carried away the lion's share of the day's winnings. A banquet was also awarded credit in seven subjects in Grade 5, making eighteen subjects taken. The boy was only able to put on seven months of the school year, starting on December 1st which makes the achievement that much more creditable. This boy has been in Canada only three years coming from Belfast Ireland with his parents who are now living at St. Bridget.

We think that the teacher, Miss Dunne, is deserving of part of the credit of this boy's success. It may also be mentioned that the boy's older brother, now enrolled at Queen's University, B. Sc. in the year of sixteen years. They are usually boys to be proud of.

Much credit is due Miss McNeill, Mrs. J. H. Lagasse and Mrs. J. Brunelle for the way the banquet was organized, which success was due largely to their untiring efforts.

No Better In Alberta

Jack Maguire, 18 years of age of St. Mary, Alberta is to be congratulated on his wonderful achievement in the recent departmental examinations, grade 5, when he passed in nine subjects out of eleven taken; and was also awarded credit in seven subjects in Grade 5, making eighteen subjects taken. The boy was only able to put on seven months of the school year, starting on December 1st which makes the achievement that much more creditable. This boy has been in Canada only three years coming from Belfast Ireland with his parents who are now living at St. Bridget.

Chamber of Commerce

We stopped the Secretary of the Chamber of Commerce on the street on Monday morning and told him he would give us a report of their meeting which we supposed was held last Thursday evening. "Well, I would have been pleased to do it," he said, but there was no meeting; only one other number had appeared in the paper. "Yes, there was a lot of business that could have been brought forward for getting the government grant to fix up our main street; and perhaps recommended other things to the council that might be done to the benefit of our town. The next meeting will be the first week in October. Last of the members get out, and have something on their minds for the good of our district."

The Exodus Again

A very large number of boys and girls left yesterday for Edmonton and elsewhere to attend schools, convents and religious training elsewhere. The high school here which is attended by large numbers from all over northwestern Alberta still has untimely been closed in the crops of the natives here, that they will get a better educational training elsewhere. It is to be regretted that the natives will not be able to attend their own schools, but they will get a better educational training elsewhere. It is to be regretted that the natives will not be able to attend their own schools, but they will get a better educational training elsewhere.

Security and Protection

Grain growers, the length and breadth of Alberta should keep in mind that a vast measure of protection and security in the safe handling of their grain now is obtained through the building up of a trustworthy system on a strictly grain controlled, co-operative basis. Having this in mind the best course to follow is to:

Visits Home

Henry Gault after spending two weeks with his folks at home returned to Elm Flin where he has been employed in the town of Northern Manitoba since the past six years. He is only 23 and is operating a district of 1000 for the past 2 years at about 200 a day of his day's work steadily. He is the second best paid engineer on the Elm Flin company's mine. For so young a man he is well advanced rarely to be found.

Mrs. T. Lessard with her two sons, John and Laurier, visited Lethbridge, Sask. and attended the ceremony when her son John took his last vows entering the Oblate order of the priesthood.

Among those who attended the Lethbridge Congress in Edmonton this week were Roy Giroux, Mrs. Lachapelle, M. Bougie.

Rev. Father Pepin, who spent a couple of weeks vacation here returned to the diocese of Lethbridge Tuesday morning for his duties as Professor there.

Wm. R. Howson, Provincial Liberal Leader, Calls For Complete Re-Organization

Boundaries policy which will be put into effect by Liberal after next election—increased efficiency with elimination of waste and establishment of an active department of labor and industry.

Mr. W. R. Howson, leader of the Liberal Party in Alberta, speaking at a well-attended meeting at Calgary, in referring to the Provincial Liberal government after the next provincial general election would completely reorganize every department of the Government in order to increase efficiency and to eliminate the tremendous waste, duplication and unnecessary expenditure which exists at the present time.

He particularly stressed the necessity for a new Department of Labor and Industry and issued his assurance that this could be done and all the same time will greatly decrease the costs of the administration. He said that such a department was essential to Labor in advancing his aims, while at the same time the function of that department would be to develop the several industries of the province.

He said that the C.P.R. held out substantial theories that could never be attempted, whereas the Liberal party assured the taxpayers of practical and definite action. Both labor and industry had been neglected in the province and what was needed was the certain support by the government of both of these interests. The provincial government should have its ranks men who are definitely interested in and connected with each and all of the basic interests of agriculture, mining, merchandising, lumbering and so on, as well as the labor forces operating these. He declaredly pledged the provincial Liberal party to establish this new department when elected and said that this was an election promise, but a statement of policy.

Farewell Party

Paula Paul One

"When Good Friends Get Together," This time the occasion was a farewell surprise party given by Mr. and Mrs. LaRue at their home Sunday night. They invited to move to Bonnyville, where Mr. LaRue has been working up a practice for the past two months.

After hearty greetings were given and most of the guests had arrived the evening was spent playing cards and in musical entertainment furnished by Walter Lambert, next place, Ed. Lagasse, violin, and Alex Lagasse, piano. The music was greatly appreciated by all and many thanks went to the boys for their cordiality and willingness to please.

A delightful and delicious lunch was served by the ladies after which, Mr. LaRue, who acted as chairman of the evening, in a few well-chosen words expressed everyone's appreciation of the departure of these well-known people. He then called on Mr. LaRue to present Mrs. LaRue with a gift, a token of appreciation from their friends. Mr. LaRue then called on each one in turn to say a few words including all the ladies present. Each one expressed their sincere regret at their leaving and many a wish of happiness and prosperity went with them.

The party broke up in the wee small hours and the company's cup of pleasure would have been bringing it if it had not been a farewell party. As some expressed it "After Joy Comes Sorrow". Among those present: Mr. and Mrs. LaRue, LaRue, McMahon, I. K. Hader, Lachowicz, Hader, Della, J. L. and Phil Lagasse, Githrie, E. Fred, Alex and Ed. Lagasse, Walter Dufresne, W. Lambert, Vonda and George LaRue.

Battle in the wild and hilly timbered country where several towns have been and where numerous mountains have been well truly manufactured for thirty years for years and where moonlight has evaded police and liquor squads for a decade and had had nearly lost their lives could be trapped in their timbered last years.

Well, to cut right in Coast. Paul C.M.P. accompanied by our own police, whose motto is determined more than ordinarily on such occasions, went down north "as they say" in the Machine (a car) two weeks ago when the silver moon was shining and coffined in a barrel of ash with all the frills.

Circumstances over which we had no control have made it impossible for the local news ancient history, however better late than never!

We are having perfect weather at last and are taking full advantage of it. Last month was a thirteenth's nightmare, the steady damp was of excellent quality when it was growing steadily, which was most people's dream.

Some very good friend has sent me a very dry copy of "The Nation" (please return) and a brand new pamphlet entitled "Junior Russia Today" (please pass on). Thanks we are happy to hear.

A lady's musicality has aided Mr. and Mrs. M. H. Mounghan to a fresh start in the old country.

What did Miss Mayne busker on the Cross Road for the other day?

Approve of certain new items in Jim Cooper, who got splashed in at his eye and Teddy Water.

And speaking of the Waterworks, may we congratulate Mr. and Mrs. M. H. Mounghan to a fresh start in the old country.

Something we never thought to live to see: Harry Gramson presenting Bobbie Hill with another visit to his home.

A member of the family from Bloomington, Illinois, writes that the creek here has got the croak and the farmers are giving their hogs to the government, which converts them into fertilizer and level it back to the farmers. So we need a trip about hard times.

We now have the story of the Scotchman who moved his house to

SMOKY LAKE

63 mile west of St. Paul

Michael Gorch, aged 15 was accidentally killed while a 17 year old while on his way shooting prairie geese. The younger brother, who accompanied Michael, rushed the news to the parents but death was almost instantaneous. The R. C. M. P. from Smoky Lake was notified.

Fory Vellamy, farmer, died 8 hours after a heavy meal which he called in Ukrainian "Korova Z Smetsenem". It is believed that the person was attacked with stomach trouble for some time. Instant was given at the Great Orthodox Church.

Two robbers who gained entrance to a store at Smoky Lake, Saturday night, were arrested. The store was closed and the robbers were taken to the police station. The store was closed and the robbers were taken to the police station.

Everything is getting on in fair spring since the fire weathering. It is probable, if weather keeps, that the crop will be in another week. Both the quality and yield are inferior to that of recent years, but the farmers all hope to have enough to live on throughout the winter.

Friday Oct. 13th was quite an unlucky day at Smoky.

LINDBERG
35 miles East of St. Paul

Threshing is well under way and the yields are lower than expected as a general rule. The grain is growing wonderfully well considering the weather we have had the past month.

A last glimpse. The other evening while we were in the throng of getting ready to thresh, a grating sound came from the Land O' Lakes drifted in and asked for a night's lodging. After had and two substantial meals he shook us warmly by the hand, thanked us for our hospitality, promised to visit us again and presented the Boss with a packet of envelopes and the Misses three apples of bread.

The best we have heard yet, upon expressing surprise at seeing our humble busker making such a success round the prairie, he has remarked that he was doing all he could for the damp heat and every little help!

EDITORIAL

Calgary Power Officials Here

Mr. Sherman of Calgary, Superintendent of the Calgary Power Co. and Mr. Macdonald of Edmonton, general manager for Alberta, were in town Saturday last. Interviewed, Mr. Macdonald stated he was well satisfied with the company's operation at St. Paul and that it compared favorably and in many instances better than that of the smaller towns in the west.

BOXING

H. Marston of Fort Kent, 185 lbs. is training to box Jack Walsh of Inglewood at St. Paul on Nov. 10. Mr. Walsh is boxing

SKOKY LAKE

60 miles west of St. Paul

Coal Mining

Smoky Lake was incorporated ten years ago in September and is now marking the tenth anniversary with a thirty fifth year celebration. There is a good water supply and the farmers will be able to water their horses readily. The well cost \$100.

Threshing Finished

Jon. Rogers was one of the first to pull in from a threshing run last Thursday evening at 5 p.m. from Alp. Rogers's farm near Danville. The crop threshed by Mr. Rogers was not so heavy as that of last year, nor so good a quality and the continued rain of September delayed the grain.

John's Big Family

John Kinewich's family is increased by one member. So the family now consists of twelve. He is taking the right steps to R. H. Hume's "bored immigration to Canada."

Several new buildings have been constructed and Sam Kestel

has leveled the one next to his hotel to lower the fire insurance risk. Sam says he will make a park on his two vacant lots so it will make a good appearance in town.

P. S. Dubois has completed his new home on his farm as he now

enjoy watching the birds. The wife will certainly keep him home now, instead of staying all night at the store.

Fork Lake

The September monthly results of the Fork Lake School are as follows:

- Grade V - Westley Smith 86.3
- Lloyd Smith 81.5
- Grade IV - Lloyd Smith 82, Donald Hatcher 80.75, Milton Liddle 72.75
- Grade III - Logan 83, L. Liddle 81.5, Lloyd Smith 78, Grade II - Smith 80.1, Grade I - Penard Hatcher 80.8, Raymond Logan 85.5, Jacqueline Davis 79, Gerald Davis absent

Gathering Eggplant

(By Barbara R. Brooks)

The eggplant is a strange strange food. It is half vegetable, half fruit, with a "cow" name, marking the tenth anniversary with a thirty fifth year celebration. There is a good water supply and the farmers will be able to water their horses readily. The well cost \$100.

ARMENIAN SCALLOPED EGGPLANT

1 large eggplant 1 cup corn flakes
1 egg sliced or 1 egg
1/2 cup oil 1/2 cup oil
1/2 cup oil 1/2 cup oil
1/2 cup oil 1/2 cup oil

Season's Limit Nearly Reached. Prices One to Three Cents

I. L. Bide - Over one-third of a million pounds of fish were taken from the lake here during the summer season and some express refrigerator cars were shipped.

The following details have been furnished by Fishery Inspector Miller. They were shipped from this point \$53,500 pounds of white fish and 62,500 pounds of pickled, having 27,000 pounds to be taken in winter in addition to the winter limit of 25,000 pounds. In addition 11,000 pounds of fish were shipped from here, two and one cent for white, pickled and pike respectively. The monthly news and demand light owing to general conditions, and competition of eastern lakes.

A Foundation for Goodwill

There is a very solid foundation for the goodwill that permits success. United Grain Growers wherever the steps of this company appear on an elevator throughout western Canada.
It rests on many years of useful service, and a long demonstration that this company not only desires to take care of the interests of its farm - customers, but to have the organization, the equipment, the resources and the experience which enable it to do so.
With this in service in or in having a firm supply it is now so fortunate to deal with this company.

18 Years of The Life of Jesus

Many Biblical students
and theologians have un-
derstood to mistake the
where Jesus was and
what he was doing be-
tween the ages of 12
when He was found in-
teresting the learned
men in the Temple and
at the age of 30 when
His ministry began. It
has been assumed that
He was with His father
learning the trade of car-
penter and practicing it,
but the Bible offers no
definite clue at all.

A Japanese priest re-
cently discovered docu-
ments compiled by a Bux
also traveler named Ni-
cholas. He said that he
found data in a Buddhist monastery
at Hime, Tibet, which appar-
ently shows an authentic light on
the question. Copies of this
manuscript are reported to
be in existence in other Tibetan
monasteries.

They purport to show that
Christ "reached the country of
the five rivers and the Harigun-
tan, where the worshippers of
the god Dingo begged Him to re-
main with them," but disap-
pearing of their ways and views. He
left them and went to Disag-
nant, where the white priests of
Graham greeted Him joyfully.
There He learned to read and
write the language, able to un-
derstand and interpret the Vedas.
He remained several years

among the Brahmins, then con-
tinued His journey the high India
where he became so loved by the
lower classes to whom He
taught the sacred doctrine which
were forbidden to them, that the
Brahmins and the ruling class
became angry. "That Jesus
was in Tibet, returned to India
and proceeded with his
teaching." Upon which the
priests and the upper class re-
solved to put him to death. But
His friends having heard of the
plot, helped him to leave the
country.

He went to Nepal where he re-
mained for six years, after which
thoroughly acquainted with the
Nepal language, He began
preaching everywhere the word

of the Only God, Creator of All, by the priests and left in the
wilderness, that the wild beasts
came in the thrall of Jesus; however, and returned to Pal-
estine; but there met with failure, then, where he began his preach-
ing and was taken out of the country in the temple.

U. F. A. Convention

ATHABASCA

Reorganization consequent upon
the changed boundaries of the con-
stitutional place at the annual
convention of Athabasca U.F.A.
Federal Constituency Association,
Edmonton, on November 21st.
Very bad roads kept the attendance
down, but a good deal of important
business was completed, and there
were good discussions on the res-
olution considered.

C. Armstrong, Picher, was elect-
ed president; J. Keller, Spring
Park, and Mrs. Geo. Dierbach,
Medicine Hat, vice-presidents; R. W.
Hordahl, Picher, secretary. The
directors were named as to have J.
Valier, B. Mayhew, M. H. Brown,

BEAVER RIVER

Although very cold weather had
made the condition of the roads
difficult, there was a satisfactory
attendance at the annual convention
of Beaver River U. F. A. Constitu-
ency Association, at St.
Paul, on Nov. 15. There was
general disappointment, however,

that the condition of the roads pre-
vented H. G. Held from being
present, as had been arranged.

Vic Lundberg of Oshawa, was
elected president in place of E.
Owen, who had not attended the
convention. James Williams was elected
vice-president, and I. Z. Mayhew
was elected secretary. The follow-
ing directors: H. E. Brown, J.
Gavin, Frank Moser, L. E. Brown,
M. H. Brown, E. J. Gervais, L. E. Brown,
John Smith, Folk Lake; H. G.
Mugger, St. Paul; H. Anderson,
Dunlop; J. W. Beaudry, Leduc;
D. Lewis, Spadina; P. A.
Coutie, Hemesse.

A vote of confidence was extended
to Premier Brown and to the
Government; another resolution
was passed, strongly opposing any
Government interference in school
affairs.

New Year

The St. Paul Mercantile Ltd.

Advance prices on fur shipment
of handbags, coats, and
other goods, to pay higher
costs of a few dollars. Our quotations
are at times subject to fluctu-
ations of the market and we regret
that prices and local costs have
been the result of any advance in price
of goods to be kept posted on
the market, and the best way to keep
the market in touch is to become
acquainted with the St. Paul
Mercantile Limited who will open
the market for you immediately
after the New Year's Eve.

The present season in
the fur market is regarded as
one of the best general fur
markets in years. Prices of all fur
goods are high and a fur dress or
coat is a most impressive and
valuable addition to your wardrobe.
We have a large stock of fur
goods, and we are very anxious to
offer them at the lowest possible
price. We are very anxious to pay
high prices for your furs, and we
are very anxious to pay high prices
for your furs. We are very anxious
to pay high prices for your furs, and
we are very anxious to pay high

a human tendency

TOO FEW BUSINESS FIRMS employ advertising to lessen their cost of selling.

Business enterprise today has two major problems: 1. To increase sales; 2. To lessen the cost of selling. Yet so many omit the use of advertising, despite their readiness to agree to the proposition that "advertising lessens the cost of selling."

We're frankly amazed at the avoidance of advertising in the face of the knowledge that it is very close to all with the assistance of advertising than without it.

Strange, strange—this human tendency to go contrary to what knowledge and experience have taught us knowledge and experience have taught us is right!

To lessen your cost of selling, we commend to you an adequate campaign of regular advertising in . . .

Madame Scotland For McCloud
How would you like to take a stretch of the law? You would not like it at all according to the story of a middle-aged woman who just returned last week from two months in there.

You can't say "Put the bread or butter" as no conversation is allowed at table. You can't say "Put the sugar and cream" for there is none.

You have to work steadily and if you refuse you are sent to the black hole for a day or two or even three days where you are given bread and water from time to time.

The discipline is strict every order must be obeyed with no such thing as military discipline and no such thing as military discipline.

The discipline and chastisement is not as easy to dodge as the income tax. The positive answers for every question are: "Yes" or "No".

The discipline received when you attend public school is nothing.

Our interview was one of the most interesting to build the scaffold for the McCloud double hanging and was sent to the black hole for the stringing of the double murder.

He said he was sick nearly two days after the hanging and the McCloud double hanging.

The Wasteful Wives are "Boys are proud of their families, men who are proud because they have families, some proud of their wealth, others proud of their poverty, some proud because they pay their debts, others who are proud because they beat them."

The point we wish to emphasize is how many will call before the end of the year to pay their newspapers especially those who have been receiving it for one, two or even three years. If you cannot continue taking the paper the least you can do is to pay what you owe and stop it. We know there are many who can pay, others who will

Man Leans Service
St. Paul men are very nice and cooperative. While each of us followed their whims for a few days, we were in a circle of the house of Mr. and Mrs. Beatty. The rest of the men are jealous and are putting in applications for sewing lessons with Mrs. Beatty. When told of the party at Beatty's the rest of the men wanted to know when the next circle would be held and to go to the party and to go to the party and to go to the party.

Among those present at the last circle were: J. A. DeLoe, G. LaFleur, F. Leonard, J. H. Lagacy, Paul Lagacy, W. D. Guthrie, J. A. Foster and J. W. Beatty.

The enrollment fee is a little less, only \$1.00 per year but it is well worth it as you may be put on a better by the time winter's over.

Support the St. Paul Flour Mill. Service and quality for less money is our motto.

Correction

In last week's issue it said in a Bonnyville news item that Eric Fraser and Art Lafour had the contract for the interior finishing of the church. We are pleased to say that Arthur Lafour is not associated with the Fraser Co. in Bonnyville and is employed in the finishing of the church. We regret to make this correction as this newspaper aims to be accurate in every published statement of fact.

In the cork accident which occurred in last week's issue one of our men was instead of two as stated in the Osborne News. This report as given by the Journal by the spectator and eye witness of the accident.

St. Line

Louis Delaire and Fred Dechene made a snow on Nov. 22 and the ground was hardly frozen then.

Fred Dechene has moved to his home and has completed his house and stable and all are in tip-top shape.

There are three new wells out along the River operated by Rochette, W. Ryan and French. The French will be the largest that ever made north. The Rochette is electrically lighted with a dynamo furnished by T.H. Groves of The City.

A legal wife is one who has a mental list of those who she intends to smother when Bill gets on his feet again.

Among those in town for the most meetings were H. Jacobson, H. J. Lawrence, D. Blom, J. Campbell, Fred Smith and Mr. Gaskin all of Elk Point and E. Gonsard of Elk.

Mr. and Mrs. Hector Brownson motored to Bonnyville Saturday evening for the week-end.

Mr. C. G. Gonsard has again renewed their monthly meetings. The first was held last Thursday afternoon at the home of Miss Vanda LaRoe. At the meeting the members continued having slush parties, card parties and entertainment at the homes of the different members. This in turn this winter. The next meeting will be at Mr. D. Gamsche's home, Thursday, January 11, 1934.

The Elite Theatre is giving its picture the latest in pictures is simply demonstrated by the fact that My Week-end, shown here last week is only now showing at the Downtown Edmonton and the Power and the Glory shows here last Friday playing now at the Empress in Edmonton. On Wed. Dec. 27 there is a special Christmas Matinee of that great picture The Big Game. This is a thriller. The picture of most against beast that is different from the usual run of animal pictures. Friday and Saturday of this week the Elite has chosen for a Christmas attraction Remains in Vietnam. All that needs to be said is that an all star cast is headed by John Barrymore and Diana Wynyard. This in itself is a sure guarantee of a real winning enjoyment.

LEE DUNHAM GETS ONE YEAR JOHNSON SIX MONTHS AT FORT

Costly Lawsuits

Usually, cowardly, Mannerous Clucking of Old Man

Lee Dunham with a previous conviction in a stabbing affray and Jim Johnson his assistant in the barroom and treacherous job of moving down an old man of 70 (the "Frank" call this "Laurie") the morning, cowardly, our aged 24 denied in court hitting the blow that felled James Wright at St. Paul, Nov. 30.

The preliminary was held at St. Paul three weeks ago and Magnus, once Brandon, whose attorneys are claiming for trial before Judge Johnson, which was held Wednesday at St. Paul.

Fully four hundred people listened as the evidence unfolded the details of the callous crime (first shot of murder) was heard as the court room.

Johnson and Johnson had rented a farm near James Wright's crop only but pretended by putting the cattle in the field after the crop was harvested, James and Rocky Wright noticed Dunham and Johnson through their collectors Buckley and Mackenzie of St. Paul that the lease was terminated. As many times as the Wrights put the gate as many times did Dunham & Johnson break it and put in their stock.

The mauling of Nov. 30 the Wrights drove to the city and were waiting the gate when Dunham and Johnson appeared and words led to Johnson knocking down the elder Wright with such a terrific blow that he fell head forfever unconscious. But that was not enough as Wright lay prostrate he was given at least two more good measure. But they contented with murder.

It is not beyond the possibility of doubt for the crash that felled James Wright in the hands of W. Johnson was from a green tamarack picked four inches in diameter and about six feet long and almost as young man of 24 could say as with such a blow.

Dr. Deane and Theraspene gave evidence there were separate blows, one necessitating fourteen stitches by Dr. Theraspene on the left side of the head. Another deep cut over the right eye with the first swinging, enabling W. Johnson the right side of the head over the ear. This is the only blow that Mr. Wright remembers as being inflicted by Johnson.

Johnson struck the other two blows to James Francis Johnson to Mr. Wright, "I do not know but I must have been down there in the Lake Elton Hall when Mr. Wright's evidence was that Johnson struck James the first

St. Paul Residents Victimized by Slick Swindler

Reports have been received by Harrison and Harrison, local lawyers that a man, giving his name as Sherrill or Charville, and purporting to represent this firm, has been visiting residents of south-western Alberta, offering to sell them, at a price of \$100,000, a piece of land for \$100,000 and giving a receipt for their fee.

A receipt report from St. Paul, their name is described as Albert, said that several people have been victimized by this man. According to A. W. Barry, it is a man who is in the store in Edmonton and has been failed to pick up his money for their fee.

The late Mr. O'Leary was 35 years of age and has been employed by the C. N. R. for about 22 years. He leaves his widow and three children in Edmonton. His funeral took place Monday morning from the Sacred Heart church and was buried in the soldier's plot at Edmonton Cemetery. He was a member of the Knights of Columbus.

One of those social events that do not occur often enough took place at the St. Paul hotel New Years night. Covers were laid for forty in the new parlor of the hotel and a sumptuous eight course dinner was served by the genial Frank and his assistants Miss Plo Foreman and Miss Hilda Shadich served at midnight. The guests were: Mr. and Mrs. Leo Brannstrom; A. Y. Brownson, W. J. Chester, M. Druning, Fortier, W. D. Gethrie, C. LaRue, L. Maynard, M. McMahon, J. Lagasse, P. Lagasse, F. Senter, A. LaChasseur, Mrs. Darvin, M. Bissou, Misses M. Brownson,

Mr. W D Gohrie made a very efficient toast-master. After the banquet the guests were invited to spend the evening at Mr. and Mrs. LeChasseur's where many enjoyed dancing. A delicious lunch was

Grain deliveries have been resumed by the farmers of Myram and leaving the recent visit of Dr. H. Gibson of the Board of Grain Commissioners and Inspectors Craighead and Thompson.

Farmers charged the local agents as giving trouble and low grades. The action of the inspectors has cleared up matters and business has resumed. Harvesters may decide to wait until the local market and the situation in the north is cleared up as a consequence of the picking resorted to by those responsible for the strike. Much business was lost to Myram the past month.

Miss Mary and Leo Hamish, of Red Deer, were guests of J. W. Waynes and Bill Caperski during the Ukrainian Christmas week. This visit, it is said, may give an opportunity to witness a Ukranian marriage. That is if the girls can find a suitable mate.

The Junior League Club of Rocky Lake, held a very successful "Pie Social and Dance" on Jan. 28 at their club.

Most of the money depended on the co-operation of the town citizens. Mr. Radnosky, auctioneer, made the sale, better than they might of locally, thereby making splendid heads.

The first annual affair of the Dramatic club was in the form of a word party. It was exceedingly a great success. Prizes awarded for highest scores were: Gledis, P. J. Outcalt; Ludia; Marguerite Dalg; and Miss Bessie Spolishnik was absent, due to illness.

Our Flying Frenchmen certainly have been stacking victories the past week. It is our contention that they will now make a good match for teams from the south and west.

—EES—

Tuesday of last week, the boys did their stuff on El Pointe ice, (their first battle with the Point this season) and by the close margin of a 5-3 score, in favor of the locals, the driver town pucksters must have been going at a speedy rate.

—EES—

Thursday Jan. 18, the Bonnyville boys proved a match for our squad on home ice. Real outstanding hockey was

played by both teams, the St. Paulites having a slight edge
winning by a 2-1 score.

—E—

Last Saturday, Cold Lake fans saw the St. Paul Flyers
come ashore at rings around the pier. After the game, the
men were a severe treading. Score 11-3. By the way, we
should tell that Tony Gagnon went "great guns" at Cold Lake.
Ata boy Tony, we knew it was in you. B.S.G. was christened
and (not submerged in the Lake) B.S.G. was christened
Gagnon, by his fellow players.

—E—

After remaining at Cold Lake Saturday night, St. Paul
Flying Frenchmen were seen in action Sunday (at the Beau
villie rink. Play was slow in the first stanza, (for reasons
unknown). In the second the Frenchies played wounded
offensive hockey, while, during the third the Beauvillie boys
got the pot shot and a great night of the game. However, a 5-1
victory for our lads, speaks for itself.

—E—

Some rumor tells that the local hockey management
are trying to get the Edmonton Mickies here for a game. W

think it's a nifty idea, the Mickies would certainly draw large crowds and give our pucksters a chance to show they're really worth.

— EEE —

The Waskesiano team is due here soon, this week—some time is our guess. This should be another interesting fracas as they players from the western town are reported to be in the provincial pink. The Vegreville Rangers have also been invited, and, it goes without saying that the fans will witness a fast game between that sextet and our lads.

Editorial

Six of our local cows were found life work after running around town and showing various dairy ligatures off to the public the other day. Little Cyr and Laurette Blod applied them and drove them to the Pound, put in a bill to the Town Council for \$100 and collected the cash. Keep up the good work girls!

Rita Poles

One of the most enjoyable meetings of the Women's G.O.P. group held was at the home of Mrs. G. A. Johnson last Thursday afternoon. Twenty girls joined in a sing song followed by the opening ceremony. Miss Nelson read the editorial of the recent issue of The Olean as a historical story. The girls listened with great interest to Miss Nelson read two chapters from our study book "The Young Revolutionists" which tells of the long labor experience of the Chinese youth. She then, like friend Kye-Lee, his sister Helen. The president, Vivian Pladen, then took charge of the meeting. The roll call was answered by Our Favorite Day of the Week. Next week the roll call will be answered by our favorite hobby. The report which the girls were of the Pansum Competition was very encouraging. Our leader explained to the group that the money raised here for this branch of the G.O.P. through the various Week Based publications, recreational schools and provincial camps. Amid the girls are requested to bring their finished books to Miss Nelson as soon as possible so that the committee may get the quitters' started. Don't forget—more effort her home for the next morning. Plans were made to cover the song book next week. Committees will be appointed to visit from April while she is in the hospital. Miss Nelson read more of the Young Revolutionists after which the group sang the song in song "Yes." Just before the girls left, Mrs. Johnson served candy. The group expressed their appreciation to Mrs. Johnson for her kind hospitality.

On February 11, a delightful time was spent at the home of Miss Allen and Lucy Hamilton. A very merry time was spent playing games and after the delicious lunch was served Miss Watson was presented with a number of gifts of friendship. The young ladies present were: Miss Ida Walker, Edna Burr, Emily Brownell, Nancy Hahn-wacker, Nellie Zentgraf, Olga Ind-shah, Beale Arden, Helen Stahle and Lucy and Alice Hamilton.

Now try Kellogg's ALL-BRAN

We have just distributed the new 1934 ALL-BRAN booklet in your neighborhood. Entitled "Keep on the Sunny Side of Life," it brings all the facts about common constipation, and tells how this ailment can be corrected.
As you read this valuable booklet, you will find many suggestions for improving the health of your family. Protect them against common constipation—with its frequent headaches, loss of appetite and energy—by serving a delicious cereal frequently.
Laboratory tests show that Kellogg's ALL-BRAN

provides "bulk" and vitamin B to aid elimination. Also iron for the blood.
Serve ALL-BRAN as a cereal, or cook into fluffy muffins, breads, omelets, etc. How much better than raking patent medicines!

Remont Trims Town St. Paul Branch Canadian Legion

Twenty five years ago a young fellow took soldiers and came and began to remove the growth of St. Paul.
Pierre Remont embarked on his career of trimming the town—rather the house—then—He was one of the first families here where the only stores were Fortin and Gervais.
"And I grew into some other occupation" says Mr. Remont. "I have had to stay behind a counter or chained to an office and I could not take to my friends at will. As a barber I see all of them two or three times a week."
Pierre sticks by his chair and as he puts on old time in it he snags his scissors or the electric clippers a few times and begins to talk of the old days "when you had more hair than you have now you old boys!" He has seen St. Paul grow to be a real live little city, then the window of his barber shop. P. Remont picks himself on the barrow with which he sweeps a customer's top head and has announced more real cash hidden in the Banque Comptable will wage than many supposedly much more prosperous looking business men.

The annual meeting of the returned soldiers of this branch was held in the St. Paul Hotel on Sunday afternoon. The accommodation was highly granted by Mr. Remont. There was a large representation of members.
Amongst other business the election of officers took place and the following were elected for 1934: President—F. L. Connon (Clerk), Bette, and R. A. Felt, Vice Pres, Norman Slater (Heavy Artillery) Secretary, Trues, W. D. Guthrie (C.A. Battalion). The coming Dominion Convention was fully discussed. P. L. Connon is proceeding to Ontario to represent this town of the Legion in the interests of the Legion.

It was decided to hold the "Vimy Ridge" banquet on March 12 at the Hotel Laval on Monday 7th April. The following were appointed banquet committee: Almond, Mc-Garhan, Munro, Kren, Alexander, with executive officers. It is hoped that all veterans will attend. As yet no date of the opportunity of meeting old comrades on Vimy night. The meeting closed at 8 p.m. with the customary one minute's silence.

Local News

W. G. Fuller and his dog spent the week end in Edmonton.

Mr. and Mrs. Alphonse Patrice came to town and purchased a telephone and equipment from the local telephone office the other night and intend to install it in their residence and be in communication with their three other neighbors, the Victor, Teesie's, Dupre's and Plouffe's who have been talking to one another over the wire for sometime now. Their telephone are operated by the North West Power System.

There will be an auction sale of farm stock and implements on March 12 at T. Turner's, south west of St. Paul on Island Lake. D. Joyal, auctioneer.

Some local and district news is unavoidably held over till next week.

Harry Lalonde got a cheque for \$100 from the North-Western Flattery Association of Calgary. Miss Olive Blais from Cassa, near Ontario is at St. Paul visiting her uncle and aunt Mr. and Mrs. J. D. Loran.

Resolution

We farmers assembled at a mass meeting here at the Bellevue on the 18th day of February, numbering 57 farmers, pledge our support and solidarity with the farmers of the Myram district in their non delivery strike to their local grain elevators. And unless the dispute is settled and the demands of the Myram farmers are being recognized. We are prepared and will go on a sympathetic action boycotting the grain elevator companies operating at Myram and all other points of grain delivery. Let Myram Strikers Committee Chairman: J. Makowski Secretary: George Tashchuk

There will be an auction sale of farm stock and implements on March 12 at T. Turner's, south west of St. Paul on Island Lake. D. Joyal, auctioneer.

Said Nupt. Cameron to Norman Shields. "They say you're the smartest conductor on the road." "Well I don't know answered Shields, the say Mr. Enly is smarter."

An Appreciation

I wish to thank all those friends who so loyally supported me in the recent election for councillor and I permit to do so in the interests of all the taxpayers of my district and for the M. D. division. Harry Tashchuk, Lac Bellevue

Kellogg's ALL-BRAN

Will you ever forget the sulphur and molasses "spring tonic"? But times have changed. Today, we know that much of the Hibernians of spring days results from common constipation.

This condition can be corrected by including plenty of "bulk" with meals. So today, instead of getting an unpleasant "spring tonic," you go to your grocer's for a package of Kellogg's ALL-BRAN.

Two tablespoons of this delicious cereal daily furnish the "bulk" needed to help promote regular habits.

ALL-BRAN also provides vitamin B, as well as a generous share of the iron you need in spring.

People who are really ill after the winter, of course, should consult their physicians. ALL-BRAN is simply recommended for common constipation—and is not a "cure-all."

The labels of bran cereals tell you more, whether they are all bran or only part bran. Get Kellogg's ALL-BRAN—and avoid disappointment! At all grocers. Made by Kellogg in London, Ontario.

Keep on the sunny side of life Kellogg

THE KIBITZ

The boxing card lined up by Promoters Papp and Meunier is beginning to look like the biggest and best of its kind ever offered the fans anywhere around to St. Paul. The card has now been completed and the boys who will dog the Padded Mittens are busily engaged in the business of getting into shape to do a little absorbing of pushed leather in cases of emergency, as well as developing the old ginger in both right and left. They are all gilded with the ancient Christmas spirit of "It is much better to give than to receive" and are working along these lines.

The main go has all the earmarks of a splendid scuffle between two rugged and aggressive exponents of fistcrafts. Benny Tait comes from fighting school, being a brother of the famous Clovis Tait of a few years ago, and a man with an impressive record of his own. He is the class at his weight for a goodly portion of western Canada, which is quite some territory.

Frank Elliott needs no introduction to boxing fans in the district for miles around. He will carry the adventures of youth into the ring with him, which together with the ability he has proven his possesses, should make him a good match for his elder and more experienced opponent.

The semi-windup brings together St. Paul's own "Dusty" Daspain and Midget Martin which should be good enough to headline most boxing cards in centres even larger than St. Paul. Competent referees have been secured for all the bouts, and the best of accommodations are being supplied.

Altogether it looks from this angle, like the Proverbial "Natural" and don't forget folks Tuesday, March 28th is the date. Tickets are now on sale.

LEAGUE GAME

Another exciting hockey game was played in the local league on Sunday, when the Black Hawks, league leaders added another two points to their league standing by taking the least travelling Canadians into camp by a 5-3 score. This was one of the fastest games played in St. Paul this year.

The win did not change the league in respect to team standing, as the Hawks were in first place, with the Maple Leafs second and Canadians trailing by half a game.

The Local League has proved a wonderful thing in the developing of future players for St. Paul. It has been repeatedly stated, and correctly so, that these league games have provided faster and closer games than any other games played on local ice this season. St. Paul has an abundance of hockey talent, which has been amply proven due to the league.

WE TALK POINT

St. Paul fans had an opportunity to look over the Elk Point squad of Fuchsmeier for the first time this year, when the boys from the eastern town displayed their prowess on local ice last Thursday night.

The game provided the locals with their chance of coupling off their teeth straight win, which they made no mistake about, by buying the twins on all occasions, while the inside of the local net remained undented. This is the second straight shutout for the boys, and Coach Maynard says "Um-Ala! that puny."

The World's Largest Manufacturer of Ready-to-eat Cereals

Proves the Value

Of Weekly Newspapers

A year ago despite the nation-wide depression, the W. K. Kellogg Company, manufacturers of Kellogg's Corn Flakes, All-Bran, Bran Flakes, and other food products, determined to increase their advertising appropriations to almost double. The result is indicated in the company's report at the close of 1933, which shows the company's business has proved extraordinarily good for the year, with conditions continuing to show improvement. The company has increased its capacity and are employing more people and spending more money than at any previous time in its history.

Commenting on their plans for 1934, the founder and president of this company, the world's largest manufacturers of ready-to-eat cereals, said that the company's advertising budget for the year ahead is LARGER THAN BEFORE, and that NEWSPAPER ADVERTISING alone would reach a new high mark in scope and intensity.

The W.K. Kellogg Company relies not only on newspaper advertising but devotes a great part of its appropriations to WEEKLY NEWSPAPER ADVERTISING, which is credited with a large measure of the highly satisfactory results achieved. The BETTER WEEKLY NEWSPAPERS have proved their efficiency in carrying the advertisers messages to the reading public.

The W. K. Kellogg Company have again included the St. Paul Journal in their advertising program for 1934, with a very largely increased appropriation for placing their message before the people of North-eastern Alberta.

PRICE REDUCTION

First Quality House Paint

Now
\$3.95
per gallon

(White, Slightly Higher)

The Quality Remains Exactly The Same. Only The Price Is Changed.

During the last year, the price of fine quality house paint manufactured and sold by the undersigned companies has increased to \$4.15 per gallon.

There has been no change in market conditions or manufacturing costs to justify this step. We feel, however, that it is right and just for us to make it possible for house painters to obtain the highest quality paint at the lowest price consistent with strict maintenance of quality.

Thousands of people all over the country have been forced to get out most needed paint jobs. Thousands more have been delayed by "bought" prices for inferior paint of little or no value. We want to make it possible for you to enjoy the advantages of getting what fine quality paint only, and at the same time the generous reduction in price now announced is the best way to accomplish this.

HIS TAMPY BEHAVIOR

Is brooding about with our weather? That is a question that can be asked you and me.

The weather has been freakish for the past few or six years or so and perhaps this rainy depression is just all due to Bennett's re-election of the tariff to Mr. McManis. King considers so much of rain that an election is in the offing.

We remember the old politicians of 40 years ago, who were for law and order, the other for high. That the tariff has not been changed appreciably in forty years. Please Mr. McManis-King, if you want to see the election day, let's have that old election - it belongs to the party system.

What's some readers come and prefer their opinions on this broadsheet interference. It was cold and wet last summer and cold and wet this summer. What have you got to say about it?

No Visible Depression
Mundare-Two Hills-Brosseau

- An Editorial -

It was Sunday May 14, 1935, when meeting to St. Paul that we noted these few rousing and discontented notes, and after just five months we find it better to commit it to paper before the realism is finally obliterated from memory.

At Monday's meeting of pretty ladies promenade the streets to church but they haven't anything on Vergil. As it was raining the girls had all dressed in gaudy rain caps and were displaying and displaying themselves not unlike birds of paradise, proud as peacocks.

No outward or visible signs of depression in the villages or country. There are churches of rural architectural beauty of design. We saw the better class of cars and a sprinkling of 1935 makes in the towns, community halls and country churches. Hares, cattle and contained cows grazing or munching from contented straw or hay stacks. Flocks of partridges, chickens scurry from the highway where they've been picked up. Ducks of ducks cropping the hill sides, the landy goes riding on ponds, barn yard fowl by the hundreds on sunny every morning. I saw the golden robin, that rare visitor, a male note of Henry Thoreau's farmstead.

At a beautiful flower garden I saw a dainty humming bird, that welcome little friend.

Let me not again when the good people of St. Paul not to cut any more over within the town limits as birds will not build nests in telephone and Calgary Power poles. I missed on the incomparably changing beauty of the peaceful and pastoral scenery to the 1000 miles of road and desert from Salt Lake to San Bernardino.

Compare these lovely village and country meadows to the hags of 40 on the beaches on the most wanted Pacific coast. We say they were repulsive and vulgar, repulsive and repulsive, and repulsive.

New Automatic Stoker At Donald

T. B. Donald Hotel is putting an other roof the house with an air space as some humidity gathered during the other days last winter. The second roof will remove this danger.

The new self-feeding oil stoker is about a necessity as the stoker required the almost continual presence of a man during the long cold night.

Mr. and Mrs. Bennett and Eric Fraser and his intended wife (they were married Monday) were in town over Sunday.

P. B. Gaboury since the month of June has been planning to go East but has only received the first leg and is in Edmonton already, yet so soon.

A later report states that P. B. is a man on his way home.

Mrs. J. Mole is in charge of arrangements for a bridge and white to be held at the Catholic Women's league hall, 9019 106 st., Wednesday afternoon and evening.

Cards will come out at 3:30 p.m. and 8:30 p.m.

Bedard Site Is Chosen For P.O.

The new post office will be located immediately east of the Bedard Hardware, on a 100 foot frontage.

A letter to A. Gault, secretary of the Chamber of Commerce, from P. G. Davis, M.P., confirms this. The letter states that a corner site was preferred but the price department offered to pay.

The site meets general approval and the Journal is of the opinion that inspection of what site is chosen the people of St. Paul are to be congratulated on the move made by the present government in giving to a public building for which we have been clamoring for years. No paper does not

care if the building had been put at either end of main street. Yours will be asked for immediately, and some of the work will be done this fall.

Grading Roads At Thierien

The M. D. of St. Vincent is grading the Highway road due west of Thierien. During the past summer the main road from Thierien through St. Vincent to the township line is a distance of about fifteen miles was graded which makes a vast improvement on this much travelled highway.

Europe All Set For War; Ambition, Hatred Paramount

In America the people think and talk peace but in Europe the people think and talk war. Few European nations are so united with their conditions and propensities and all have the same of a distant future. Germany looks forward to Anschluss - an economic and political union with Austria. Italy wants Mussolini and the Polish corridor.

Poland wishes to give up the corridor for European Union. Russia wants from Russia. Yugoslavia would be contented to let Austria disappear. Germany's aim was the great and Hungary and maybe Trieste, wants on the Adriatic. France wants a chunk of

Infantile Paralysis Cannot Be Cured; Terrible Scourge

Infantile paralysis is one of the worst scourges of the land that afflicts mankind. Ever so often the disease becomes pandemic and here in its wake only too many dead and crippled children and youths.

It is caused by one branch of the tiny forms of life known as microbes. Scientists have never seen the little virus - it is invisible to the highest power of microscope.

But they know where the disease germs enter humans by way of the mouth and soon and immediately head for

LITTLE Raindrops

The rain water that collects in an abandoned barrel will eventually fill the barrel unless somebody comes along and turns it upside down. While the drops are small as they descend, they are numerous, and at length, there is plenty of water, up to the capacity of the barrel.

The above paragraph is plain and no one would dispute the facts. St. Paul is a barrel upside down to the economic city, where current coin is like rain, falling to the ground of common sense in little drops of trade.

The money that falls into this barrel is captured for the benefit of the citizens of St. Paul because it is the source of business, the contents of the barrel are distributed among us, and send spins.

A barrel of rainwater comes in handy sometimes in case of

Bonnyville Business Destroyed by Fire

LITTLE MISFUNK

Fire started Bonnyville's sleepy citizens early Wednesday morning when a chain of unknown origin totally destroyed the business portion of the town.

St. Paul is not exactly on fire but its very economic life depends upon the money that is stored within it. Was citizens are that their own stays home. Some citizens, very often without thinking, sending small amounts of money into the surrounding towns, where big timber men see it to build up their city.

St. Paul is not exactly a city but it is in the city.

Social Credit Will Dominate All Canada

- An Editorial -

Wm. A. Albert, as soon as he was told that the financial crisis was being met by the U. F. A. government, will launch his credit revolution of \$25 per month to each adult of Alberta.

It is the only way out of the present difficulty with the country, the brink of insolvency. In three years time the Social Credit of Canada will have adopted Social Credit according to the last economic article of the country and it is not an experiment as so many may think.

The Social Credit will automatically lift the struggling poorer classes out of the misery they now are in and have been for hundreds of years, laboring painfully and suffering because it was the "will of God", while the upper classes revelled in luxury and debauchery.

The monthly payments will be paid in the form of credit certificates in such the same way as banks issue loans now. We find that the banks and financial institutions have been operating social credit in floating stocks, much of this raised out of which they made huge sums and the taxpayer paid and paid.

We find now that the old school teacher was right when he took all the people of Alberta as his vast class and taught them his Social Credit theories. He was held up to hatred, contempt and ridicule. Indeed one Montreal banker and last winter the old pedagogical Albert was crazy.

Some of the Edmonton preachers attacked him viciously but on seeing their folly, they retreated to their pulpits and prepared sermons on what Jesus said 2000 years ago. On this subject they are on safe ground.

Some people believe it may make the people too independent, indolent and lazy. I do not think so. On the contrary, it should spur the more ambitious to greater endeavor and initiative.

We've been told for hundreds of years to stink and mope and be charitable, even until we and our families suffered but those who advocated this were invariably men enjoying the best, living in the best houses, driving the best cars, while the charitable "common herd" walked and sometimes on crutches.

"Thrift and industry taught for many years as the cardinal virtues of life have nearly wrecked civilization and being opposed to bible teaching, must be discarded in favor of service and cooperation. Thrift and industry are secondary and unimportant. Give us a chance and with your cooperation, we can show you the way out of the economic morass we are in" states Premier Albert.

Vina report reported good by J. Verlaak of B. Brice, then, man.

Silver Wedding Is Celebrated At Vilna

One of the outstanding events of the year at Vilna was the twenty-fifth anniversary of the wedding of Komar Zverevskis and Olga which was celebrated at Vapaville on October 6, 1910, and was so well remembered at Vilna, October 6, 1935 when some 125 friends flocked together to celebrate the auspicious anniversary. A beautiful silver tea set was given to the bride and groom, the presentation being made by Dr. Eadie.

What are the habits of the white man named B. Cyr of an Indian. "White man crazy work work all the time just like heaver," he replied.

Vilna Citizens Proud Up-To-Date Hospital

Typical of many of the smaller hospitals of the province is the modern little institution at Vilna, operated so efficiently by the self-sacrificing Sisters of Service.

Vilna hospital, though erected before the depression is not a large pile of brick and mortar and is only a small one-story building. There is no large main hall, but the work is well done. The hospital consists of twenty-two beds—three private rooms, a women's ward, a children's ward, a children's ward, a children's ward, and a children's ward. The hospital is very well equipped, especially in the department of surgery. The children of Vilna are justly proud of their hospital as they should be. It has been built on the town and district for years.

Dividends Can Be Found

Premier Albertus has promised a dividend of \$25.00 a month to every man, woman and child in the Province of Alberta. He has said that and much more.

It will also show that more than fifty per cent of the price paid for agricultural implements and pretty nearly everything else is paid in the form of a dividend. This will take fifteen or sixteen months.

The investigation will show the people not only of the province of Alberta but on well the people of every other province in the Dominion, that the present method of financing public works in Alberta is a money-making machine.

Twenty-five years ago Sir Adam Beck directed a large sum of money to be set aside for the purpose of the province of Ontario. Sir Henry went broke but the whole province shot ahead as rapidly as it is now producing about half of all the wealth produced in the Dominion.

The investigation will show that from sixty to ninety per cent of the cost of all utilities

Are Correspondents Dead? Kidnaping, True Romance Fails To Stir Their Pens

By Mult Lake Correspondent

Mrs. Roy Hatchard and Mrs. Jack Lourenson of Lindsborg, who are going into the straw-berry business, recently drove over here for the weekend. (and had to go all the way round by Hainsburg here they did not feel like swimming the river as Moose Ferry.) Incidentally, we hear from the old home town of a genuine kidnapping case with all the frills, children stealing in high society, and at least one victim returned! And not a peep out of any of the local newspapers! Are they dead or just plain stupid?

Daddy Foreman intends to water with the Carlin in Vermilion.

A fair amount of the range stock has been sold. Apparently there has not been as much free beef as usual this season.

After moving our cherishes with crop through out (Husker) to the new grade No. 6 in a case of either Social Credit or local!

Rev. Hatchard has been trading horses. If a stock did not him taking home the results of the swap, he undoubtedly gathered him in on experience.

Richard Good, who was extremely busy and not at all well, has been in hospital with a bad attack of influenza.

Jon Mayou has accounted for three coyotes already. We hope he goes on with the good work till Walter Miller gets ready for action.

Mr. McRae, the Hon. W. A. Fallow's sidekick, and a noted businessman and Social Credit leader, has been awarded a government job on the Banff highway.

There was a heavy fall of rain on Sunday the 13th followed by a white frost and the fog, which is now becoming a common occurrence. Our climate is gradually slipping from "Bummy Alberta" to good old English weather!

Thursing is practically finished, and the result for it is most disappointing. The report raised considerably—was a 1/2 raising from No. 2 on the hop-back to 1 1/2 and 1/2 on the hop-back and went—while a great deal of green feed is not yet out. Must be the dry weather. The damage list was threatened out to fish it out!

Grand Old Grand Of Baie Des Chaleurs

An illustrious old man who had acquired a new will, a flower and a sailing suit at Baie des Chaleurs, Quebec, had great success and business success. Many stories are told of him by S. C. and N. C.

On one occasion his crew of 10 men, 12 men plus his flower and a sailing suit, was taken through all the reefs and fastened it not dead. (Old Grand was there. On pay day he retained \$5.00 from each of his men. They liked "O.K." and the old fellow, "give me the one who killed them and I'll give you all your money. The gully one was found by his crew.

Another time old Grand had a very smart horse, who would do anything for his master. The old man used to go on a spree on occasion. One day he was in his own to a large warehouse in the store or brewery at New Carby, N.B. The horse and his master were out. The employee

chided him on the occasion of his ride. "You'll give me a gallon of whiskey brand, I make my horse go to the next flow by that wind. O.K." and the old fellow "you're on." Up went the horse, and the old man's bidding. The horse

love and who is the ever-faithful friend and friend of all that are near or far, and set him with a horse and a carriage horse. (Great our master, O Lord, and thus shall be the praise and honor, and glory, now and ever Amen.)

New Homes, Chicken Supper At Fort Kent

His Grace and family recently arrived in their lovely lounge, just completed; another case in our case.

Zenas Allen is coming to town to enjoy the winter.

Mrs. E. R. Lapierre recently had a visit from her sister, Mrs. Louis Dyer and family of Cold Lake.

Armand Coulter and family have returned to their farm and are moving immediately.

The ladies of the parish, the church of Mrs. Archie D. Coulter, Mrs. Henri Lacombe and Mrs. E. R. Lapierre, are organizing a turkey supper and grand concert for Saturday, November 10, for the benefit of the church.

As "Avalanche" of seven men, hundreds of food and 10 half starved pigs "and we are well compared to many."

Habitants' Declared Loyal But 'People Apart Others'

The habitants of French Canada to tradition and opposition, were described graphically at the meeting of the Canadian club at Laid, Alberta, by Richard F.C. of Ottawa, president of the club.

These people are loyal, who spent three months last year touring the province.

"The habitants are often misunderstood and often misunderstood."

Wedding Poem

By Clondonald Correspondent

Two young Lovelocks made into the West
Each dreamily declaring his girl was the best
Instead of a chaper they drove a 'Chevy' truck
And Johnnie to Frankie I hope we'll have luck
Frank being the better, to his new laundie said
"Come Tootsie my darling let us be wed,
So away to Llanfairfach on Wednesday night
Where they had the knot fastened just beautifully tight
The only knot that Ecuador's
second government might be in
conflict with the Roman Catholic
clergy was contained in a brief dis-
missal from Casapell Cas. I when
industrial agents had ordered a Jewish
retreat there and several Spedden
Furniture Bureaus, who were
shipped in jail, presumably to be en-
gaged for political activities.
There was trouble between date
and church in 1922 and 1928.
In the former year, troops took posses-
sion of the Dominican monastery
at Quito, and in 1927, the country
banned foreign churches from
entering its borders.
In December of 1928, the Ecuador-
ian Minister of the Interior
General Carrasco from their would
be expelled if they did not leave the
nation at once.
And Now . . .
This One
Mr. R. McIntyre, of St. Braden,
came in a fine and tells this:
A Scotman working in a saw-
mill in Quito had his forefinger
knocked off in a hard saw.
The machinery was stopped by the
woman who ordered the man to
work in the kitchen for the mis-
sing finger. They could not find it.
This is where McIntyre, who had re-
cently arrived from where he had
Alexander McKenna came from, came
in. "I find it," he said, and
there a few dollars bill in the air.
The finger appeared to the
refugee and matched the bill.

Now as to Johnnie. If we may judge what we see
He, the next bridegroom will certainly be,
Well I am sure we'll go to the mill with him.
But he better look, ere he is moved in

T. MALYSH - VILNA

Vilna Has Very Promising Future; Will Rival St. Paul

The prettiest little town on
this railway line lies fair to be
the rival of St. Paul. A new
block of buildings has been added
the past two years on main
street besides two very up-to-
date stores on one of the side
streets via the Capital stores and
the very commodious "Charn-
has general store. The business
places are open until past nine
o'clock and the clerks are keep-
ing hopping round these days.
It is estimated that the light-
ning favors the residents of
as the former cannot so well af-
ford to buy in Edmonton so they
are or spend the winter in Vi-
luna. Business is good in Vilna
and the writer knows for he was
there several days. The only
place of "business" practically
deserted was the beer parlor.
The "Wider Flour Mill is hum-
ing. Mr. Widner's oldest son
17 is going to be an excellent
mill notwithstanding that the
young fellow got his grade 12
last summer. The creamery is
still in full swing with still daily
shipments.
Vilna's main street has been
well graveled. Fine business
houses are in course of construc-
tion. A fine hospital several
churches, neat bungalows, neat
pretentious or ostentatious
about Vilna's residents but not
inexpensive dwellings that is the
vogue and so clear these days.
I prefer these little homes to
the huge mansions of half a
century ago that were veritable
ice houses. Mrs. B. Dykstra
of her cottage and Mr. N.
Winta of the Vilna hotel at
Bellis is just finishing another.

Magistrate and Mrs. Wood-
lark of Boyne Lake were in town
Friday.

Mr. Brooks from Cadogan has
arrived to take possession of the
household effects of his late son
St. Paul. Traveling by truck
he had a hard time from old
Warwick to Droversay and the
roads were almost impassable.
Three covered wagons and
covered trucks were passed ex-
posed. Two of them are sitting
near Bonaville the other at
St. Paul.

Old Dad M. Martin Johnson has
completed the first Lake school.
The building is 24x36 with a 12
foot ceiling and a credit to
the contractor and the district.
Miss Margaret Fraser is the
teacher.

Irate Scoundrel Beats Young Ashmont Boys

A weller near old Ashmont
school where ten year old boy had
fished his smaller boy he claimed,
was so sure that he called on the
teacher and asked to use two of
his pupils, naming them. She will-
ingly complied. The ten year old
boy promptly charged their teach-
er and went out.
The scoundrel beat them un-
mercifully, striking them in the
face so that the blood bled out.
A charge was laid by the
teacher before magistrate Wood-
lark. The trial was due this week.
There was some delay as the teach-
er had to get advice as to how to
proceed.

The chasing risk has been es-
timated thirty feet at the west
end.

We also have a Night-Club
for small wild night, but they
are two legged ones.

A new way to be popular is to
use plenty of soft soap. It has
been tried successfully.

Could R. H. Lake spare Nick
Carver? We would like to have
him solve the mystery of the
Lily with the Baby and Helen
of Troy.

The Social Credit constituency
convention will be held at St.
Paul on November 15th. Each
group is asked to send one dele-
gate for every seven members
but in any event not more than
three delegates to each group
regardless of the number of
members a group may contain.
P. J. Brown, M.P. and J. W.
Beauregard, M.L.A. will be the
principal speakers.

Provincial Government Considering Cash Relief

A plan of cash relief "dividends" for families in need in rural municipalities is being considered by the government. Premier Aberhart

government would make a minimum payment of \$5 per month to a family which can probably would be used for clothing purposes. This

would be matched by \$2.50 to be contributed by the municipality. The municipality if it so desired would reimburse the recipient to give work for his contribution but the government would not impose any such obligation.

"This is not to be regarded as a 'token dividend,' the premier remarked. "We will not have that until

and even over all depending upon the requirements of the case so as the number in the family.

As the amount required for the family reaches the higher brackets, however, the costs would be shared between the government and the municipality on a 50-50 basis.

Hill-Billy Country North Of Elk Point, Lindberg

Exulting Life

There are people out here who say the end of the world is in three or four years and they will never die.

There are farmers in these hills who are not on relief but give on golden trout, potatoes, nor wheat, nor oats, nor barley, nor any machinery, nor milk cows nor other live stock, nor pigs, nor hogs, turkeys nor other fowl and still live well—good people, fair neighbors and devote much time to community and political work.

If you have a load of fence rails, posts or even fence line out in the hills for more than 20 days you can pick them up and chain them. For that is an unwritten law brought by these families from Oklahoma and date from time immemorial, i.e., from the time man's memory reaches not to the country. There is another unwritten law observed by many. If an unpaid fine is allowed to run on for more than 60 days the fine need not be paid but the costs must be.

There are lovely girls and women and fine boys here who have never been to Elk Point and St. Paul.

However, Hugh Cinnamon and his sons are not of those. The elder Cinnamon walked the Great Lakes 40 years ago. Two of the boys are now at Great Bear Lake and a smaller brother followed it. The distance with his own gun.

The boys operate a saw mill there. Howard and Glen I think are at Great Bear River, where Fat Cyr, Jim Brady and Peter Peterson, one of Alex Peterson's brothers, their teacher at Elk Point, were working recently.

I passed by Harry Cinnamon's comfortable wilderness house. Several blooming cherries. A primitive mud roof was put on this fall for added warmth. The kids can map their fingers at 50 below.

I called on charming Mrs. Lester (she) and the kids were small and the kids were given the comic sections and the three year old "read" the famous as intensely as the school houses.

I passed the colorful Hopland mansion.

Ontario Town Council

Of 6, All On Relief

CHELMFORD, Ont., Dec. 3.—Every one of the six councillors elected Monday for the term of "Unlimited" in northern Ontario is on relief. Only one of the 1933 council, Eugene Groulx, was re-elected. He polled the lowest of the six.

Consolidated are: (1) A. Rodriguez, W. T. Black, S. Menard, Edouard Dumas, Arcade Martel, Eugene Groulx.

Loose Roy, and on relief, was re-elected mayor by acclamation.

The friends of "Tommy" Johnson, of Lacrosse, in this locality are sincerely grieved to hear of the death of this little son and offer the beloved papa his their deepest sympathy.

Can anybody trust a horse? The other morning Frank out in the hills for more than 20 days you can pick them up and chain them. For that is an unwritten law brought by these families from Oklahoma and date from time immemorial, i.e., from the time man's memory reaches not to the country. There is another unwritten law observed by many. If an unpaid fine is allowed to run on for more than 60 days the fine need not be paid but the costs must be.

There are lovely girls and women and fine boys here who have never been to Elk Point and St. Paul.

However, Hugh Cinnamon and his sons are not of those. The elder Cinnamon walked the Great Lakes 40 years ago. Two of the boys are now at Great Bear Lake and a smaller brother followed it. The distance with his own gun.

The boys operate a saw mill there. Howard and Glen I think are at Great Bear River, where Fat Cyr, Jim Brady and Peter Peterson, one of Alex Peterson's brothers, their teacher at Elk Point, were working recently.

I passed by Harry Cinnamon's comfortable wilderness house. Several blooming cherries. A primitive mud roof was put on this fall for added warmth. The kids can map their fingers at 50 below.

I called on charming Mrs. Lester (she) and the kids were small and the kids were given the comic sections and the three year old "read" the famous as intensely as the school houses.

I passed the colorful Hopland mansion.

Shave, Nail End Town

G. LaRue headed down to Heinsburg by freight last week and made for the barber shop to get shaved up for the dance.

A. McMillan continued into the chair and the operation commenced. Smothered with a generous lather and rubbed and scrubbed violently then he tickled me, he picked me, he scratched me and patched me into a green word puzzle.

Mack had barely started but had to go to the strip and the razor was no better. He tried another blade with no better results. "Maybe if I put the razor on the grindstone it may do better."

The editor intruded in his mind some ugly past, maybe across the wilderness, and was on the eve of suggesting politely that maybe he'd better try to shave himself when to his relief the barber gave up of his own will and said, "Perhaps you can do better, Mr. LaRue."

HEINSBURG LOCALS

Mrs. Jack McMillan was an Elk Point visitor last week. Mr. Tom LaRue is recovering slowly from his operation. Mr. (Steve) McMillan and Jackie have moved over the river where Mr. McMillan is employed.

Mr. B. Kaiter has her car, Mrs. Helen, visiting her from Edmonton.

Mr. Carl a former resident, was here a week, on business.

(One cent transportation to our customers.)

There is too much butter in Canada at the present time, and if prices of butter and cream this winter are to be maintained some butter must be exported immediately. A Better Stabilization Board has been set up in Canada recently under the Marketing Board to facilitate Operators and holders of butter to voluntarily export some of their butter and the Federal Government will pay the loss sustained in exporting out of the \$1,000,000 Fund appropriated for Cheese Milk Products at the last session of Parliament. We are surely doing our share in exporting butter through the Board to England and if holders of butter and Operators in the Dominion co-operate with the Board, prices of cream and butter should rise higher this winter than last winter.

You will find in the long run that you actually get more for your cream by shipping to—

New S. C. Group At Moose Lake

The annual meeting of the Moose Lake school Friday, November 22nd. The proceeds will be used for a Free Christmas Party and Concert to be held in the same school.

The attendance at Heinsburg school numbers were; as with the co-operation of the young people a play is to be an attraction on the program.

Rife and Moose Lake being well represented at the above mentioned dance it is hoped the weather will continue with the very favorable condition that all will be able to share in the enjoyment of the forthcoming.

It is supposed to make interesting reading for the opportunity to expand their knowledge concerning the falling off of the interest in Social Credit. But it is far more interesting to know of new Study Groups being formed, which speaks for itself. It is a good old saying, "Action speaks louder than words."

One new Group referred to is Moose Lake Study Group formed at Moose Lake school on Wednesday, November 27, with Mr. E. Nelson elected President, Mr. J. Kildonan, Vice-President and Mr. E. Burrows Secretary-Treasurer.

After the formation followed an interesting discussion of local conditions.

Mr. A. Nordstrom, President, and Mr. E. H. Brundage, Vice-President, of the Heinsburg Study Group, assisted in the formation.

The meeting was a good criterion as to how the feelings were towards the forthcoming dividends. No anxiety was shown and all faith was placed in the government, with Premier Win. Aulbert as leader. This proves another blow to the opposition who constantly harp on strings that are bound to create discord.

Unity and co-operation among the groups will overcome all that the opposition was concerned.

Commence The Year 1936 With New Courage, New Hopes Break Away From Out Dated Theories and Antique Systems

Farmers, Merchants Professional Men Of This District

Series of Broadcasts

Beginning December 6th, at 8 p.m., the North-West Grain Dealers Association in conjunction with the Winnipeg Grain Exchange, have given each Friday a series of broadcast programmes over the net-work of the western stations.

These programmes will continue each Friday at the same time for the next two months. I would greatly appreciate your comments on the general character of these programmes, also any information you wish to have which I will relay to the "Farmer's Question." What today is becoming more and more a subject of international importance and discussion. The world wide conditions which affect the price of our most important product should be realized and studied in all those interested in the production of wheat. The farmer, business man or other is welcome to proper questions whether criticism, suggestions or any comments of nature pertaining to the Grain business.

I take this opportunity to wish you all prosperity in the New Year.

M. Reut,
Agr., Beaulieu Grain Co.

Coming! Coming!

A happy go lucky troupe of comedians, stage dancers, jubilee singers with vaudeville attractions, will play throughout north eastern Alberta this season. Watch for dates in this newspaper.

Owlseye Welcomes Both Newspapers

The Social Credit publication "Today and Tomorrow" edited by Mr. P. J. Kew, M.P., and sent out to Group officials was given out here free by Mr. Ben Field.

This first issue of the new paper was well received by Social Credit members and favorably commented on.

Up to date the people of this community have always been well posted on current events also Social Credit news by the St. Paul Journal which is widely read in this community.

Derwent's Fine Star Hotel Sold

Hosts Leave at Clyde

The Landons so long and so favorably known hotel hosts at Derwent have sold the fine star hotel to K. E. Warburton of Vermilion.

Mr. and Mrs. J. H. Landon and Jack have leased the Clyde hotel, 50 miles north of Edmonton. There were many social affairs in their honor on the eve of their departure to the new abode. This excellent family will be missed by their many friends, as well as the travelling public, on this railway line.

Miss Margaret Stewart, who visited her brother D. C. here last summer and who is superintendent of the Singer Machine Co. at Winnipeg, left for Detroit and was married on December 31.

J. A. Berndt, Bonnyville, spent New Year's visiting here.

Less Politics And Less Partyism

The Christmas of 1935 has now passed into history which also means the commencing of a New Year. A year, we hope, with new courage, new hopes and a brighter Prosperity. A year of enlightenment, a breaking away from out-dated theories and systems which have now failed to meet the requirements of the age. We do not have to look back far in our own lives to realize the great accomplishments that have transpired. The absolute fulfillment of prophecies as spoken of by Daniel and other ancient worthies. Such accomplishments that all people should receive full benefit and lead to the age for "Peace on earth and goodwill toward man."

It is not so long ago since it was common to hear "That one half of the world does not know what the other half is doing." Individually it might be still true but one has only to think of the Radio Program for Christmas Day when a voice was heard instantaneously over the world. Is it not true that all nations and peoples are talking of Peace; and there is no peace.

You we have a wish to hope for; but hope is not sufficient, we must have faith. But what is hope and faith without charity?

Let 1936 be a united effort on the part of all mankind to be prosperous; "To live and let live," to enjoy the abundance and plenty that can be produced in this wonderful day and age.

It is sincerely hoped that this year of 1936 will prove the end of politics, an end to partyism and proclaim a true, just and unselfish administration. So be it.

A Happy New Year —The Staff

Fat Cyr's Juvenile's Win Three Games 2 Bonville, Polar

Same Score Twice

Polarities Give Fast Show

Repeating their victory of Monday night on local ice, Fat Cyr's juvenile pucksters again whipped the Bonnyville side Thursday afternoon on the northern town's sheet.

On both occasions the score was 5-2.

LINE-UP

Bonnyville: Kirkwood, Vallee, Thomas; Paul and Maurice Babourin, J. and G. Fraser, C. and H. Lavasseur, Nibet.

St. Paul: O. Bismonte, Lechasseur, Provost, Tetrault, B. Lavon, L. Bismonte, B. Brown, R. Bedard, Jaccard, DeMoss.

Referee: St. Paul, R. Landreault; at Bonnyville, Bismonte.

On Monday evening a fast hockey game was played between the St. Paul Juvenile's and the "Polarities"—a pick-up team of young boys of the town. The game again showed the superiority of an organized team over that of individuals playing. The Polarities, although having the weight and staying speed, could not beat the combination of the Juvenile's and the game ended at 3-2 in favor of the Juvenile's.

Juvenile's: O. Bismonte, W. Lechasseur, Deane, B. Brown, Tetrault, B. Lavon, H. Bedard, Leclerc, Jaccard and DeMoss.

Polarities: B. Brown, Leclerc, B. Bedard, F. Thivierge, A. Brown, C. Lauson, Andre Brown.

Furniture Fired

The interior of Mrs. Charles' home was burned last week and the furniture was completely destroyed.

Mrs. Charles made the usual fire in the kitchen stove and went to Mrs. Szaregret for a short visit. The Potvin girl next door gave the alarm and very commendable work was done by the brigade that saved the building as the Potvin house adjoining and the St. Paul Motors would have gone also.

Three West Towns New Post Offices

C. Hayn is having plenty of work with his new hammer mill.

The Christmas tree for the school children was a grand affair. The hall was packed to the door and every one had a good time.

The market day we now have two big buyers. This has improved business all round and the farmers are well satisfied with the price paid and grade. The farmers will never again go back to the single buyer business.

A number of people left for Edmonton Saturday morning.

Our village is growing all the time, thanks to our live-wire, community-minded people.

M. Smith is still able to get through to St. Paul with his truck every week.

James, Ashmont and Orlays have all got new Post-offices fitted up to comply with regulations, and St. Paul will soon be in line.

Fort-St. Paul Play
Two Dandy Games
Over Weekend

Rev. Forrester Stars

Rev. Forrester's winter hockey team played St. Paul last Sunday the 22nd and won a second performance that evening.

The last game, played on rather dry ice, ended combination due to a heavy snow falling. However, individual speed and thrills were quite plentiful.

E. Gaud opened the scoring for the visitors with a deuce, but shot some 10 seconds after the face-off. Rev. Forrester immediately retaliated with a goal shot from between the legs in... Almost five minutes later, Forrester repeated the shot. Before the referee could end the period, E. Gaud passed to Forrester to shoot a deuce to score his second and last marker.

In the 14th period Whitman scored for the visitors from a combination front of the St. Paul. Jack Donagan and Forrester combined to make one, and just before the final goal, Landreville passed to E. Gaud to bring the total to 5-2.

Monday night with frosty weather and very fast ice the game began with a battle between the visitors and the local boys. The visitors, who were led by Forrester, showed themselves to be very well turned back a good number of shots but also several two and one man goals kept the markers down in a final 2-0 count in favor of the Flying Frenchmen.

The visitors opened the scoring, Sherman to E. Gaud sent.

Midway in second period Donagan passed to Forrester, against the opposition's value for the regular.

Scoring the end of the final frame Lavoie drove a fast shot to the goal's post and Hopkins stopped it.

King George The Fifth Died Suddenly Monday Afternoon

British Nations Mourn Deeply

St. Paul School Prays

When the news of the death of King George was flashed over the radio Monday many stopped suddenly and asked details of the untimely death of the monarch.

Flags were half-masted in St. Paul's chief public and business establishments.

There was unrestrained sorrow manifested in the sad intelligence was passed in the shops and wherever men congregated on the street corners. There will be sorrowful glances throughout the length of Canada when the tidings of the sorrowful event reaches the cottages in the towns, the shores of the woods, men of the north and the cabins on the prairies.

King George was a good, wise and just sovereign.

Sister Marie du Croix, the principal, ordered prayers in all departments of the school for the repose of the late King's soul.

Edward, Prince of Wales, will be proclaimed King Edward VIII.

Mallin's Com'nity Club Difficulty

Annual Meeting

At the annual meeting of the Community Club on January 13 a new set of officers were appointed comprising the following: Henry Macgown, president; E. Malheur, vice-president; F. Goss, secretary; Geo. Gullhaug, treasurer; directors: Ivan Tiedler, Orville Martin, Philip Mitchell, H. Marchand, John Iversen, H. Cotton. So far everything was smiling but before the meeting was over the secretary-treasurer was asked to kindly hand over the book along with the book over him and the cash stating among other reasons that the money would be handed over to pay for the construction of the hall. It has been suggested that if the matter is not amicably arranged some questions will be asked.

Albert Pepin was admitted to the St. Paul Hospital today to have his tonsils removed. He is a young man from the town of Albert.

Hobbs' Son Shot By Vancouver Bank Robbers

Dis Of Wound

The friends and acquaintances of Mr. and Mrs. Hobbs of Edmonton, 8 miles east of St. Paul, will be grieved to learn that their son, Bill, was killed by a gunman in a holdup at Powell street, Vancouver, branch of The Canadian Bank of Commerce, on January 13.

Mr. and Mrs. Hobbs have rushed to the Coast to attend the funeral obsequies. The sympathy of the many friends is extended to the family.

Herbert Feland as Dr. Killian is really funny and certainly helps to lull your fears away. One Johnson plays the leading role in "Advertising for a Wife," a laughable comedy. Mr. Johnson appears again in a sketch of a Chinese Cafe in which he is really funny.

Point Creamery Changes Hands

Mr. A. Dekystra announced that the Elk Point Creamery has been sold to a private individual. Mr. Dekystra's team from the Woodhead Dairy has expired. He will join the Elk Point Creamery until spring and will then go into business on his own account.

Maloy Players At St. Paul Thursday Give Fine Plays

45 Below But Get Warm Reception

Bole Smith, clever vaudeville artist, formerly of the Minneapolis stage and the Happy Gang Players, delivered a large number of St. Paul people on Thursday night.

The fans were responsive, the players well received. Bole Smith is well worth hearing. He has a fine voice and was frequently encoored. The Howard sisters, who very young are fast becoming graceful dancers.

Bole Smith is the star all through the plays in the various roles which shows she is a versatile attraction rarely to be seen.

Mrs. E. Smith of Flat Lake is a member of the troupe and is well and favorably known to St. Paul. Her songs were well received. Mrs. Smith is also a trained player and like Bole Smith is worth going a long distance to see and hear.

Bole and her happy so lucky players are appearing at First Lake Jan. 24; away Valley 25; Marysville 27; Stevenson 28; Kinross 29; Laidy 30; Dewberry 31.

Correspondence

Dear Editor: I hope that you will find sufficient space in your paper for my contribution as the official correspondent of the Farmers' Protective Association.

December 22nd was a red-letter day for the backstricken farmers of Bentley Lake. On that day the Farmers' Protective Association was formed.

The immediate demands of the horse-handled sons of toil for food, clothing and fuel are the issues upon which unity is built.

A most reasonable scale of relief has already been presented to the local council and to the government. The F.P.A. has protested against the demands for a chattel mortgage to cover any loan of food or seed.

A debating team has been selected to develop, organize and draw the youth into cultural activity and at the same time championing the cause for peace and progress and therefore

Embarrassing Aberhart

The Edmonton Bulletin of January 15, true to its political traditions, again misrepresents the activities of the St. Paul Social Credit Group. The Bulletin does this knowing it to be untrue and intending to deceive and it does deserve its readers and it is done for the purpose of embarrassing Mr. Aberhart.

It was with this "campaign of embarrassment," characterizing humbuggery and bull that the party is tried to lead to victory got swamped, disconcerted and will right reestablished.

The St. Paul S.C. Group hopes Mr. Horvath will discharge for a long time the functions of leader of a Social Credit group. No doubt the opposition is able but it is not numerous enough to make any appreciable impression.

The St. Paul S.C. Group did so the word "demanded" in the bulletin says. The people of St. Paul and Beaver River continue to be disturbed with the decision of the Railway Commissioners with respect to freight rates for St. Paul, Elk Point, Lindberg and Hainsburg but the bulletin would "view with alarm" any reduction of rates or the financing of the railway from Hainsburg to St. Paul.

The appointment of A. T. Lebel as magistrate was strenuously opposed by the St. Paul and other groups as he was not a S.C. and for many other reasons. The appointment of Mr. Lebel was ill-considered, ill-advised and for all of which others than Mr. Aberhart and Mr. Hugel will bear the responsibility and that is the reason the S.C. group is opposed to the appointment.

Manuel Brown spent several days in Bonaville last week visiting friends.

Relief Poorly Administered

Sir: This letter is not intended as criticism leveled at our Social Credit government. As has been so often said and written, how

We also know that if someone really needs relief from unemployment, the humanitarian impulse to help him or her is based only on the feeling that, when the same predicament arises, we really have no better reason to withhold help than we do to give it. In other words, if we really have no better reason to withhold help than we do to give it, then we have no reason to withhold help at all. If we have no reason to withhold help, then we have no reason to give it either. In other words, if we have no reason to withhold help, then we have no reason to give it either. In other words, if we have no reason to withhold help, then we have no reason to give it either.

who has been out of from relief—the reason given being that the man has a car and operated the same in 1933. It is true the man owns a car and it bears a 1933 license, but the relief inspector was informed of this and the reason why. The license was bought and paid for by the man's father, who is in poor health and needed to make regular trips to the hospital.

NO. 24

Preliminary Trial

The juvenile who robbed the Post Office last Friday of \$200 most of which was recovered is coming up for trial Monday. There was some delay in the intended action as Edmonton has to be communicated with. There is no reform school for refractory boys, only for juveniles of sixteen years and the little fellow may have to be sent to Manitoba where they have a detention home for the very young.

Tribute To Rogers

A wonderful tribute to the memory of the late Will Rogers was paid at the Fox Theatre last Friday when a large crowd turned out in spite of the 40 degree below zero weather to see him in one of the last pictures he made before he was killed. In spite of the terrible weather the theatre was warm and comfortable and all present thoroughly enjoyed themselves, especially Tony Spencer, who is coming to take a course in Hog raising and Charlie Alric who won the ten dollar bill.

Warning By K.C.'s

The sale of newspaper tickets for the so-called \$20,000 sale of the New York Chapter of the Knights of Columbus has been stopped by action of the Supreme Board of Directors of the Knights of Columbus who in their official statement, point out that no authorization was ever given for the use of the order's name in this connection, according to Henry J. Radco, State Deputy of Alberta.

The action of stopping further sale of these tickets was taken at the last quarterly meeting held in New Orleans when it had been brought to their attention that this ticket sale was being held.

Donating further with the matter, the Supreme Board immediately took steps for the complete discontinuance of any advertising or publicity in connection with this campaign and ordered the stopping of the sale of any further tickets which has now been done.

Mr. Radco, in his statement to the press, issued this warning in case tickets have been offered for sale in this locality or may be offered for sale. The warning is in aid for the protection of those people who may be influenced to purchase tickets in the belief that

There was a several fair encounter at the dance last Friday and disturbance reached such proportions that Rev. Father Carter was called to intervene and he roundly trimmed Barney Quinn, one of the principal disturbers. Quinn said, "Hi me" and the man of the parish did then Barney said, "Hi me again," and the Rev. Father hit him harder than the first time. A swell time was had. There will be no dance in the school for a long, long time.

The 65th Annual Statement of the SUN LIFE ASSURANCE COMPANY OF CANADA

Reflects the Strength and Stability of Life Assurance

A voluntary co-operative enterprise which for generations has stood every test

HIGHLIGHTS OF 1935

ASSURANCES IN FORCE Exceeded Two Billion Seven Hundred Million Dollars. This is the amount which will be paid by the Sun Life to the policyholders in the event of their death. By itself and amongst more than a million policyholders have provided, through the Sun Life policies, for the support of their families in case of premature death and their own future dependents should they live to old age.

NEW ASSURANCES PAID FOR Exceeded Two Hundred Million Dollars for the year. During 1935 more than seventy thousand general contract policies for purchasing Sun Life policies, thus providing security for many thousands of homes.

POLICYHOLDERS AND BENEFICIARIES Benefits amounting to Eighty Million Dollars were paid out during 1935. Two hundred and fifty thousand Dollars for each working day. Since the Sun Life commenced business 65 years ago it has paid out to policyholders and beneficiaries well over Nine Hundred Million Dollars.

ASSETS Of over Seven Hundred Million Dollars ensure that every Sun Life policy will be settled promptly when the time for payment arrives. In the meantime, this fund invested on behalf of policyholders, contributes to national and industrial progress.

with the Hawks leading the
Canadians in a real battle. The
game was particularly fast in the
first half, the puck being set by
the Canucks, but it ended with the
"Reds" leaving the ice without
having the net a single time.
However, they again won 3-1
Thursday; the team with the
highest number of goals will
face off with the league-leading
Leds.

Food Seares, Chandonald

There said, "Hope deferred maketh the heart sick." This has been only too true in many cases where food and cash were running short, or gone, with still months ahead that animals must be fed. Good and sufficient reasons for farmers to be lousy, the bottom dropped out of the cattle market. Home were in demand but had to be in good form, and many were not. But hope is being revived for us by where one uses the promise of spring.

The ship of wood men, the ship of the x-ray being piled heavily on the many wood piles during back yards. The Painted Lady was seen by several, but none was seen to be around the ship. The ship was seen to be around the ship. The ship was seen to be around the ship.

The row has no upper plate. All of her teeth are pained in the lower part of her face. The arrangement was perfect. An efficiency expert in liver for her from gunning that a man as really, she likes up and down.

The man row is called a ten and is named along the river. The river, fought in Mexico, and shot in the vicinity of Edmonton. A shot of row is north 30 miles in the row. 10 cents in the hands of the police and \$2.00 in a restaurant that specializes in atmosphere.

A shot of bull is worth about \$2.00 in the hands of the police and \$2.00 in a restaurant that specializes in atmosphere. A shot of bull is worth about \$2.00 in the hands of the police and \$2.00 in a restaurant that specializes in atmosphere.

GOOD SEED AT COST
As part of the new method of crop improvement, which is named the CROP IMPROVING PLAN, the Seattle Grain Company has purchased from some of the best experienced growers, stocks of registered seed. Certified seed is sold in the next to the Dominion Seed Branch. These seeds are of the best quality, and are available to farmers who need them at cost. The price is moderate. See any Seattle agent for particulars. It may increase your income.

Auction Sale Of School Lands

PUBLIC NOTICE is hereby given that the Superintendent of School Lands will offer for sale at public auction at Room 400, Administration Building, 10th Street, Edmonton, at 3 o'clock p.m., on Thursday June 25th, 1936, the following lands at the upset price not opposite:

S. E. 11-54-4, W. 4th Mer. 152.70 acres, at an upset price of \$8.00 per acre

S. W. 11-52-14, W. 4th Mer. 136.40 acres, at an upset price of \$6.00 per acre.

S. E. 11-51-19, W. 4th Mer. 161 acres, at an upset price of \$10.00 per acre.

One-fourth of the purchase price to be paid in cash at the time of sale and the balance of such purchase price paid in eight equal instalments, at a rate of 6 per cent with interest at the rate of 6 per cent per annum, which interest will be paid with each instalment on the balance thereof from time to time remaining unpaid. Overdue payments subject to penalty or interest, at least interest at the rate of 2 per cent per annum.

The sale will convey the surface rights of the land and will be subject to the usual reservations in favor of the Crown.

The Department reserves the right to increase or decrease the area sold, to conform with the latest revised Plan of Survey.

The purchaser shall be required before cutting or allowing to be cut, any timber growing on the land, except for his own use, or removing any gravel from the land, except for his own use, to acquire from the proper officer of the Crown a Permit in accordance with the regulations of the Department and pay the necessary fee and dues for same.

The sale shall convey to the purchaser only those improvements upon the land which are the property of the Crown at the date of sale and the purchaser shall not be any time prior to the date of completion of payments, remove or cause to be removed from the land any of the said improvements without the consent of the Minister of Lands and Mines being first obtained.

Payment may be made in cash or by marked cheque on any chartered Bank of Canada, payable at the City of Edmonton.

Cheques will not be taken in payment unless marked "accepted" by the Bank on which they are drawn.

Further particulars may be obtained by communicating with the Superintendent of School Lands, Department of Lands and Mines, Edmonton.

By Order:
J. W. Stoddard,
Superintendent,
Department of Lands and Mines,
Edmonton, 1936.

The literary part of last week's Veridian Standard was indeed Hill's prophecy, based upon a speech, the Royal Society of Arts, that our new British settlers will eventually revert to cannibalism; the result of an unbalanced ration of "white bread, overcastened rice, a little milk, loaded cabbage, potatoes, canned foods, meat and jam." Some of us native ones who have put in a long hard winter, trying to meet the "canned food and jam" look like.

China's Omen's brother John told me some time very often. John had just finished his wedding last week and was sitting round the beer parlour when in came Arthur Fourneau who had also finished wedding.

"What do you think of the war between Japan and China," asked John.

"Well I tell you what I think," said Mr. Fontaine, "the Japanese are the Chinese is to be by on the bull, his back."

No truer words by Mr. Fontaine were ever spoken. It does not matter how much the Chinese are conquering in China or how many Chinese are killed. The result is the same. New Methods For Control Of Dandelions

Development of most modern methods of eradication and control of wild oats is outlined in a pamphlet which has just been issued by the Northwest Grain Dealers' Association.

The study has been compiled by Dr. C. P. Rost, Professor of Agronomy, University of Manitoba, and is a most valuable contribution to the control of wild oats. The study indicates that wild oats are one of the most prevalent weeds in Western Canada.

A further preliminary pamphlet, which will be of great interest to growers, has also been issued, dealing with dandelion eradication. The report states that copper sulfate is a practical chemical spray, which will kill the dandelion when it is applied at the proper time.

Copper of the wild oat pamphlet may be obtained from any time elevator agent. The new elevator companies have performed very valuable service for the farmers of Western Canada in the weed research work conducted during the past few years. Much valuable information dealing with the control of dandelion and wild oats has been made available to all farmers.

Following is a summary of the conclusions arrived at in connection with the control of dandelion and wild oats in Western Canada: the chief source of control lies in the prevention of seed formation. The sowing of wild oats with the seed of cultivated crops can be greatly improved by a more thorough cleaning of the seed with more suitable means including a careful adjustment of the threshing machine. Where feed containing wild oat seeds is fed to animals it should be ground or the measure from the animals allowed to rest for a sufficient length of time to destroy the germination of the seeds. Control by cultivation is more effective when done after the wild oat plant has reached the four leaf stage of development. The raising of wild oats by the growing of green feed crops is a rapid and effective method where the crop is in sufficient time to prevent seeding. The use of a rotation containing a hay and pasture crop greatly reduces the number of wild oats on any infested farm.

Copies of the wild oat pamphlet may be obtained from any time elevator agent. Canadian Sickness Costs Large Sum

One person out of every three dies abroad of his or her time of disease which could be prevented. Second, the estimates show that from two to three percent of the population is continually on the sick list. Of those between 91 percent and 96 percent are ill enough to be disabled so that between 1.8 percent and 2.8 percent (let us estimate conservatively, 2 percent) of our population is always so sick to work. Two percent of Canada's population is 1,000,000 persons and that is an expensive and dangerous sick list.

Public Health Officials agree that sickness costs the people of Canada over \$21,000,000 per year, almost nine-tenths of this in a direct charge upon the individual. But the loss in man power is infinitely more staggering.

Canada needs a larger population. The loss in man power by any Canadian lives to be taken by disease that an estimate figures the loss in the future earnings of those sacrificed at over \$500,000,000 per year.

**Re-New Hog Grading
System, Now In
Operation**

Editor Journal,
Sir,
Now the new hog-grading policy is being brought into effect in this part of the Province it would appear that the hog-grading policy will be done by the government, not under in Edmonton.

Belail School Holds Picnic

Tuesday, June 30, was a gala day for the children of Belail School. At 2 p.m. the pupils and the parents with other visitors gathered at the school grounds and the afternoon sports began with a football game between private scholars and former pupils. A win was secured for the school. After the game a program of songs was given by the school choir. The picnic was a success.

There were also a number of other sports, including a football game between private scholars and former pupils. A win was secured for the school. After the game a program of songs was given by the school choir. The picnic was a success.

House Catches On Fire Sat'day

During the very high wind Saturday the interior of the Hyskirk residence north of the Commercial Hotel, was severely scorched but saved from destruction by the fast work of the fire brigade. The loss will be covered by insurance carried by C. M. Sells. Had this building gone up with the force hurrying blowing at the time most of the town might have been swept by flames as it was the strongest wind storm seen in years.

There were also a number of other sports, including a football game between private scholars and former pupils. A win was secured for the school. After the game a program of songs was given by the school choir. The picnic was a success.

THE ST. PAUL JOURNAL

Call or write at your home, or any news of interest to our readers. There is a charge for wedding announcements and obituary notices but no charge for news. There is no advertising.

EDITORIAL

The people in the vast district surrounding St. Paul want to read the St. Paul Journal or should if they don't.

But we are sure they do not all read the cheap Maclean's magazine but should also. The St. Paul Journal, a small four-page sheet, is read by the thousands for their customary treasure of unusual news.

Printed in Northern Alberta for its bold frankness and the fertile imagination of its editor. The Journal on a few occasions has printed stories of its readers being chased through the St. Paul by a "wild" monster with tank, tiger, claws and green eyes.

Revising citizenship a year ago after a journey in California, readers were delighted to see little attention in its re-visions.

Last month with a certain item at hand the editor apparently unduly advised its readers, as a matter of fact, it was a story of a "wild" monster with tank, tiger, claws and green eyes.

There was a general dis-encounter at the dinner last Friday and disturbance reached such proportions that Rev. Father Carter was called to his residence and he roundly thrashed the disturbers. Quinn said, "It's me," and the man of the cloth said then Harry said, "It's me again," and the Rev. Father hit him harder than the first time. A civil time was had. There will be no more in the world for a long, long time.

Verily Honesty Is Best Policy

A business man told me this week that of the dozens, maybe a hundred, who have left town and who owed him, only ten called on him and paid their accounts before leaving town. He further added that he had about \$1200 of debtors gone by B.C. alone. Honesty is a hot virtue verily.

In the same edition under "Therion Items," also from our correspondents, appeared this item:

"The horse who used to walk four miles to see his father's wife, he has left town, where they will be wedded. This will certainly be a relief for the minds and tongues of many St. Paul's citizens."

A Start In Turkey Growing

Dominion Experimental Station
Scott, Sask.

A common method of starting a flock of turkeys is to purchase eggs and hatch them in an incubator or under chickens. However, chickens carry the disease known as blackhead, which is so deadly to turkeys, and for this reason, and others, it is better to keep them separate. A few turkey hens may be purchased in the spring after they have been laid and no further fertilization will be necessary for one clutch of eggs or until the hens go broody. If four or more hens are purchased it might be advisable to obtain a male and obtain them early in the winter so that they may become familiar with their surroundings before the breeding season starts.

At the Dominion Experimental Station at Scott, Sask., turkeys are confined to large yards of feed rations.

Artificial incubation and brooding have been practiced with transmissible disease at the Scott Station, since the flock was started in 1929. The shelter consists of a rough portable building with an open door in the south, as turkeys must have more ventilation than chickens. The building is moved to a fresh yard annually before the young poults appear.

Chicks and traps are needed in the yard as early as danger of frost is past, as rapids in frost cause the rape remains green and palatable until frozen.

A bulletin concerning the care and management of turkeys will be mailed upon request to the Dominion Experimental Station at Scott, Sask.

Northern Alberta and North-western Saskatchewan suffered from frost. Only a couple of turkeys were kept in the province, and the rest were sent to the United States.

The party was closed with the singing of "For the L.A. Jolly Good Fellow." Mr. and Mrs. Winstie were taken into the circle with Annie.

Many of the members of the City Boys Institution complete that pending potatoes is not their work, forgetting the days when they had to dig potatoes in the soil in the area can produce abundant crops. Much of the frost prospective crop, however, was severely damaged by frost which unfortunately not only substantially decreased yield, but so well lowered the grade of the grain at some points down to the bottom limit.

The following outstanding features, with respect to the varied conditions which prevailed, are worthy of note:

(a) That wheat which gave a higher yield and better quality under rust conditions than did Marquette, Garnet, Red Bole or Ceres, although, of course, Red Bole, not being a rust-resistant wheat, still suffered more than the others.

(b) That early sown crops suffered less than those which were sown later.

(c) That within both the rust and frost areas the use of fertilizer substantially increased the grade and yield of wheat, oats and barley.

(d) That it seems certain that reasonable security with wheat crops will not be assured in Eastern Saskatchewan, nor in the greater part of Manitoba, until a wheat variety, highly resistant to rust, is available to farmers.

(e) That Thatcher wheat (a rust resistant variety developed in Minnesota) and the new rust-resistant varieties now being developed.

(f) That Thatcher wheat (a rust resistant variety developed in Minnesota) and the new rust-resistant varieties now being developed.

Wheat Yield For The Year 1935

Rust In Eastern Sask.

The yield per acre of wheat for this past season in different years and districts of the Province, is probably the most varied that has been recorded for many years past. On the whole the moisture that fell during the season was sufficient to produce an average crop in most districts and a bumper crop over a large area. Unfortunately during the growing season rust and frost took a heavy toll from the growing crops and reduced prospective yields from a promise of 30 to 40 bushels to the acre in many districts down to as low as, at some points, as 5 bushels per acre.

Rust took a heavy toll in Eastern Saskatchewan and in Manitoba. The loss from rust in wheat alone is estimated to have been about 100 million bushels.

Northern Alberta and North-western Saskatchewan suffered from frost. Only a couple of turkeys were kept in the province, and the rest were sent to the United States.

The party was closed with the singing of "For the L.A. Jolly Good Fellow." Mr. and Mrs. Winstie were taken into the circle with Annie.

A June Night At Town Of Bellis

A surprise party was given at the Commercial Hotel to Miss Annie Winstie, the only daughter of Mr. and Mrs. Winstie.

The party was given by the young people in honor of her birthday. Games and dancing were had. A lovely was served at midnight.

After supper a solo was sung by Miss H. Ladewy. Her sweet voice added delight to the evening's pleasures. Many valuable gifts were presented.

Miss Winstie expressed her hearty thanks for the gifts and the attendance of her many friends amongst whom were present: Misses Elizabeth Hurlbut, Minnie Kully, Alice Kambach, Katherine and Alice Hurlbut, Katherine Elsworth, Katherine Wainwright, Mrs. Wm. Nicholas, Ed. Davis, J. Bishop, J. H. Shubert, W. B. Cameron and others. A few addresses were given by Mr. Cameron of Lac La Riche, the only survivor of the Frog Lake massacre in 1885, gave a short talk on his part in the rebellion of that year.

J. H. Shubert, expressed his thanks to the party for his speech, stated that it was a gift to us younger people to have so fine a gentleman with us as Mr. Cameron.

The party was closed with the singing of "For the L.A. Jolly Good Fellow." Mr. and Mrs. Winstie were taken into the circle with Annie.

Many of the members of the City Boys Institution complete that pending potatoes is not their work, forgetting the days when they had to dig potatoes in the soil in the area can produce abundant crops. Much of the frost prospective crop, however, was severely damaged by frost which unfortunately not only substantially decreased yield, but so well lowered the grade of the grain at some points down to the bottom limit.

The following outstanding features, with respect to the varied conditions which prevailed, are worthy of note:

(a) That wheat which gave a higher yield and better quality under rust conditions than did Marquette, Garnet, Red Bole or Ceres, although, of course, Red Bole, not being a rust-resistant wheat, still suffered more than the others.

(b) That early sown crops suffered less than those which were sown later.

Japan Is The Ram

Speaking from Edmonton last Sunday night, Mr. Albert dealt with the original prophecy concerning the ram and the goat.

He told that Japan is the ram and admitted the Japanese have recently displayed some very rammy tendencies including a rabidness to permit for butting in hisses and yams. The ramifications of Japanese policy created the premier for some time before he got around to the goat. Went to a soviet at the crystal ball and the inside of the Cheviot, and the deal was consummated. Found in wind and lamb had he, like a veteran horse trader.

Canadian Bank Of Commerce Establishes Personal Loan Service

In order to provide borrowing facilities for all classes of employed people the Canadian Bank of Commerce announces the establishment of a personal loan service at its Calgary branch. A special department has been opened for the purpose of making loans to wage earners and salaried and professional men and women.

The plan is, in brief, that any resident who is steadily employed and is acceptable to the bank as a good credit risk may apply. The only security needed is that the borrower must be of good character.

Mailing Baptist Church Picnic

The Annual Picnic of the Baptist Church took place on the 15th at Lake St. Vincent. The day was lovely for such an outing and as the picnic was arranged for an earlier date than usual as so not to clash with buying there was an extra large attendance. Many from Boncom took advantage of the lovely weather. Luncheon and supper were served and the tables were loaded with choice eatables. The ladies in charge were: Mrs. Enoch Haglund, Mrs. Curroo Anderson, Mrs. Tandi, Mrs. Fred Erickson, Maurice Erickson, Mrs. Paul Anderson and Mrs. R. Johnson.

A large sports programme was gone through and the committee in charge were: Mrs. Paul Anderson, Mrs. Curroo Anderson, R. C. Laune, I. J. Erickson and John Lyle.

Canada Year Book For 1936 Is Out

Presenting Comprehensive Study of Many Dominion Records

Giving complete statistics on Canada's natural resources, production, trade, transportation, finance, education and presenting a comprehensive study of the social and economic condition of the dominion, the 1936 edition of the Canada Year Book, published by the general statistics branch of the dominion bureau of statistics, is off the press.

Among the special features in the 1,150 page volume this year are a special article, "Canada on Vimy Ridge," and statistics covering the construction industry in Canada.

A new series of month indexes of retail sales, 1925-35, is also included as well as general statistics of chain stores and the motion picture industry. A new material is included on municipal taxation and estimate of national wealth.

Improvement has been effected in the presentation of the financial statistics of the dominion, especially controlled accounts of Canada by collection of data on a more comparable basis from all provinces. (An action is devoted to the death of King George V and the succession of the Majesty the King.)

Cash

It was very early in the history of EATONS that the principle and practice of buying and selling for Cash only was laid down. With certain exceptions we shall mention later, this is still the EATONS way of doing business.

Today we still pay cash ourselves for our purchases, because by so doing we are able to buy to the very best advantage. And we confine our selling activities largely to the same basis for exactly the same reason—because Cash Merchandising offers the customer the lowest possible pricing on what ever she buys.

On certain items of furniture, furnishings and other equipment we do, as a concession to customers, offer the terms of the EATONS Hodge Plan. But the Hodge Plan prices are higher than the Cash Prices. They have to be, because it does cost more to sell merchandise "On Time." The alternative of paying Cash is always offered, however—and there is always a worth-while saving when you do.

Heinsburg News

The (Canadian) correspondent will never be forgotten. The first paragraph read of the house of Mr. and Mrs. Jones Johnson on Sunday last, to my home to Mrs. Johnson. It is always interesting.

Bill Patten is back again after his two weeks holiday.

Nora Ford has returned home after a visit at the G. Lawrence home.

Mr. and Mrs. Lawrence were called in town last week from Norway, N.Y.

John Charley a house on a vast tract has parents of the Heinsburg Hotel.

Mr. Helen, of Edmonton, visited with her daughter, Mrs. Kate, last Friday.

W. J. Miller left last week for Idaho, U.S.

Mr. and Mrs. Will Redwood have left for Calgary and Vancouver on their holidays.

L. J. Linton was a caller at St. Paul Friday.

Mr. Labbe of Melville is here on business.

Steady Hensburg is still in Edmonton, delivering his mail.

Oliver McMillan was home last week from Elk Point.

The new agent above has, having taken Mr. Carpenter's place who has been transferred to Wainwright.

E. E. French and family spent the week end with friends at Laidlaw.

Raymond Hensburg and wife are spending their vacation with friends and relatives in the north country.

Murders Here And At Grande Prairie

WHEN WILL YOU KILL ME?

Trid Paulkreek and Nap Cyp must Ed Spear at the Donald Hotel regularly every Sunday afternoon and exchange stories. True Experience as it were.

There was a choice group of natives and habitues of the hotel hanging round there including the editor, when some one mentioned the recent murder at Elk Point.

Nap Cyp started it with a murder committed at Cowley, north of Alberta about 1905. From so of grained and ordered, he said and I said, "Now you tell me Ted."

Now Ted Paulkreek can tell on and tell 'em often, so he relates the gruesome murder committed about four years ago at Laidlaw. Trid who was shot, died a few days afterwards in St. Paul hospital.

The French murderer lived all the rest of his life by his act at Laidlaw. He was the first of the day the day I got there. Ed Spear blushed a little. "Well, how's that's not true, when I was at Grande Prairie."

The crowd murmured in one night. "Now you tell me Ted." The crowd murmured in one night. "Now you tell me Ted." The crowd murmured in one night. "Now you tell me Ted."

The crowd murmured in one night. "Now you tell me Ted." The crowd murmured in one night. "Now you tell me Ted." The crowd murmured in one night. "Now you tell me Ted."

Vegeville Ed. Gives Praise To Cold Lake

Historic spot last week mentioned in the editorial of the Cold Lake, was an occasion when the summer season was in full swing. The weather was just what was needed to make the trip to the middle of the lake and push him off, thus saving the considerable expense. He did not accept the offer, but he probably considering it as a welcome when in the future. Later, on the lake, we saw Mr. Fallon pull in a trout, which he told him was a real find. We have to go to Cold Lake, we need it in the future. Fishing, of course, is only one of the many pleasures of the place and, as yet, unexpected in nature. This is a little personal message. We are carrying a large number of subscribers on our list who we are sure only need this reminder to check up the date on their address label. To the individual the amount is very small but in the aggregate it amounts to several hundred dollars. Magazines with large circulations depend on high advertising rates. This, however, does not hold good in the case of local weekly papers. We are dependent almost entirely on subscriptions in order to keep going. Will you help us?

Complete Details Of The Elk Point Murder Case Given By Correspondent

A new light was thrown on the Elk Point Murder Case by the finding of the dead body of the Indian-Métis murderer, Paul Chishum, in the bush about 300 yards from where he murdered John Flaminio and shot Jerry Cardinal on Tuesday August 14th.

The dead man was missing shoes and had on a blue colored shirt which was considered the crime he had on a grey shirt. His body had lain so long in the hot sun that it had become bloated and putrefaction had set in. The body was found by the man who was broken down to the swelling and his face was in a horrible condition.

The body was discovered by Harry Smith who was searching for his cattle at the time. Attracted by the large number of flies and the smell he investigated and found the man. The man was shot in three different places and at the inquest held in Van Arman office here Friday night was pronounced the cause of his death. Mr. and Mrs. Walter Johnson identified the body as that of the murderer.

Grand Centre A Luxuriant Flower Garden

One of the best beauty spots on the old Lake highway at Grand Centre beyond the end of the road on the Bonaville extension to Beverly siding. This is in the little country and the place could hardly have been better chosen by Mr. Tompkins for a country and Mr. Brady a store.

As the townspeople regard the land from Beverly crossing into Grand Centre the eye is attracted by the beautiful flower garden in front of the country that sits like a jewel amidst the trees among the beautiful natural forest of conifers and spruce trees. This flower garden contains many beautiful and rare plants. This flower garden contains many beautiful and rare plants. This flower garden contains many beautiful and rare plants.

Plums, Heinsburg

Mr. A. T. Brown brought in to the June 21 office several wild plums, which were picked on the north side of the river between Heinsburg and Ludlow. They are as good eating as those we have from the Coast. The north side of the river is well known for its prolific growth. Dismal Fire At Raft Lake

Thrashing has come and gone. Beautiful weather, good grain, and light crops.

Jimmy Butts was the victim of a disastrous fire that burnt his stable, barnyard, the contents of the British North America Act which place the issue of currency under the exclusive control of the federal authority. More have also been made by various other bodies associated with the monetary system.

Plains, will the genuine who provide over the fashionable intelligence be very, very careful about the badness of the Canadian and Half Lake news items? Both correspondents are liable at any moment to have their heads hung on the fence by infuriated readers and it would be just too bad if it was to bring one of them to a premature end.

We hear with regret that young Mr. Freddy Donato has been in hospital with a bad case of stress trouble.

Why is it that travel as a woman takes a dreadful delight in leaving gates open? Is it to show the superiority of car drivers over our poor birds, or are they just plain dumb? Or is it to show the superiority of car drivers over our poor birds, or are they just plain dumb?

His final achievement was to leave open three gates in succession, and a mixed bunch of neighbours milk cows into our given feed, from where they were sorted out by moonlight by their expectant owners. With two competitors in the field one would think it poor policy to gratuitously infuriate customers.

Alta Exp't As Viewed By Country Guide

Alberta's experimenting with stamped scrip and an appeal has been made to Ottawa by the Edmonton Chamber of Commerce to revoke the provincial act which places the issue of currency under the exclusive control of the federal authority.

More have also been made by various other bodies associated with the monetary system. Mr. Althart. All such tactics are to be dispensed. In the meantime the province and the province of Alberta for a mandate to institute his version of Scrip credit within the province and be emerged with 50 out of 50. He has launched his company against the province and the province of Alberta for a mandate to institute his version of Scrip credit within the province and be emerged with 50 out of 50.

Hog Raisers To Get A Real Jolt

—Mallaja Corr.

Thrashing was well under way when stopped on Friday the 11th by heavy rain. Wheat was averaging from 15 to 20 Bush an acre but was grading low. Some very fine wheat was seen in the North for his reward which it was thought by the United Grain Growers, Bay of Fundy.

Mr. Murray Dominion Live Stock Branch was around looking over what sort of hog was raised. He told us we have too many badgers and under the hog raising system we are going to get a job. However, we have had on many jobs doing our job in the world that would be our first job to do much more harm.

ANNOUNCING!

See Mr. Brown or Mr. Deibel for any electrical service no matter how large or small.

We wish to announce that on September 3rd we took over the service for the Town of St. Paul from the Calgary Power Company.

We solicit the continuation of the good-will and good relations which the Calgary Power have enjoyed and we look forward confidently to meeting this through the following general policy.

GREATLY REDUCED RATES

Greatly reduced rates which we hope to reduce further as the time goes on.

The opening of an electrical appliance store to serve the people of St. Paul to take advantage of the best electrical labour saving devices which the new combination rate will enable them to use.

Canadian Utilities LIMITED

Remember that this service is available only in RAYBURN, BIRD, and BIRD. I am not in an advisory capacity.

Speckled Brook
Trout Cold Lake
Streams, Rivers

Speckled Brook, that rare lake
delicacy, is becoming numerous
in the rivers that flow into Cold
Lake.

On September 11 Mr. L. W.
Shaw, Alberta Fish Inspector
journeyed to Cold River, ac-
companied by four Saskatchewan
game officers, E. Spence, Dis-
trict Forester, E. Christie, Dis-
trict superintendent of natural
resources, Geo. Revell, senior
field officer, crossed Cold Lake
to Cold River to try to procure
specimens of speckled trout.

On September 12 the party
were joined by Mr. D. Carhill,
Hudson's Bay factor, who he
taught a beautiful specimen 8 1/2
inches long and many others
were seen in the clear waters of
the river. The specimens were
placed in a solution and sent to
Toronto for exhibition purposes.

The rare specimen was de-
termined of the last planting in
the spring of 1923. Owing to
being for the beautiful speckled
trout variety is believed to be
reproducing. There is a quick
as lightning and very voracious
and marauding pilot with man-
ner.

Synopsis of Agreement for Renewal of Franchise Between The Town of St. Paul and Canadian Utilities Limited

WHEREAS the Council of the Village of St. Paul, in the Province
of Alberta, has agreed to enter into a contract with Canadian Utilities
Limited to provide the residents of the Village of St. Paul with a supply
of electric light and electric power and to confer a special franchise upon
Canadian Utilities Limited for a period of twenty years.

NOW THEREFORE the Council of the Village of St. Paul, meets
as follows:

1. The Village of St. Paul hereby grants to Canadian Utilities Limited
in succession and assigns a special franchise in respect of the subject
matter of the contract in the form which is hereto annexed as sub-
clause "A", for the period of twenty years together with all the rights,
powers and privileges, and subject to all the terms, conditions, pro-
visions, restrictions and penalties as therein set out and contained.

2. After the final passing of this By-Law it shall be submitted to the
proprietary electors, and shall only become effective upon ratification by
two-thirds of the proprietary electors voting thereon.

3. The Mayor and Secretary-Treasurer are authorized and empowered
upon the ratification of this, by-law by the proprietary electors as
stated to sign and execute on behalf of the Village of St. Paul with
Canadian Utilities Limited in the form hereto annexed as Schedule "A".

Introduced and read the first time in Council this 21st day of
September, A.D. 1926.

Read the second time in Council this 6th day of October A.D. 1926.
Read the third time and finally passed in Council this 6th day of
October A.D. 1926.

Mayor
Secretary-Treasurer

1. Clause 1 grants to the Company a Special Franchise, together with
the right to construct, maintain and operate within the Town any structure
for the purpose of conducting electricity.

2. The franchise is for ten years from the date of the passing of this
By-Law, and shall be renewed for another ten years.

3. In Clause 2 the Company agrees to construct its poles and wires in
preference to streets when reasonably convenient, and to submit an
application to the Council. It agrees to remove its poles and
wires on the termination of the franchise.

4. Clause 3 gives the Village the right to use the Company's poles for
municipal purposes. The Village agrees to indemnify the Company
against loss resulting from such use.

5. The Company agrees in Clause 4 to take reasonable precautions to
prevent injuries to persons during the progress of work in streets and
lenses, and agrees to indemnify the Village against loss sustained by it as
a result of such work.

6. The Village agrees in Clause 5 to purchase all light and power for
municipal purposes from the Company.

7. Clause 6 defines the rates, copies of which are on file at the Village
Secretary-Treasurer's office, and may be seen on request.

8. The Company under Clause 7 has the right after 48 hours' notice
to disconnect the service to any consumer whose account is unpaid for
more than 30 days.

9. Under Clause 8 the Company agrees to supply meters without cost
to the consumer, and to submit a meter to test by the Department of Trade
and Commerce of Canada on request of the consumer.

10. The Company agrees in Clause 9 to keep its transmission line in
good condition and to supply electric light and power services subject to
interruption by accidents beyond the control of the Company.

11. Clause 10 obligates the Company to facility at any fee for injuries
sustained or suffered by any person or property caused by any act or
omission of the Company or its employees.

12. Clause 11 gives the Village the privilege of terminating this agree-
ment with the consent of the Board of Public Utility Commissioners
upon three months' notice should the Company fail to implement and
comply with all the terms and conditions.

13. Clause 12 provides that the Company shall have the right and be
subject to the jurisdiction created by the Water, Gas, Electric and Tele-
phone Commissions Act.

Announcing Change of Management

St. Paul, Oct. 24, 1930
We would like to offer our congratulations to your winning the first prize in a prize of three horses and several grain in a sample, at the Edmonton Fall Fair and sale, held last week.

When we looked over the things which were shown it was very difficult to see why much difference, as they all looked very good, with competition keen, all the more difficult to win in the prize you did.

We are glad to see success in trying these things and they general, conventionally (in the horse world). We again offer you our sincere congratulations and trust you will be back next year with more prize winners.

Yours truly,
Canada Packers Limited,
William H. Tait,
Plant Manager.

Federal Government Announces New Big Housing Scheme

NOW HOW TO SERVE YOU

Editors Write Obituaries

Did you ever reflect that you realize, wherever he may be, some day some obituary notice "will say"? As you lie in the cemetery, staggered in the mist, staring at death you will never know that the last kind word spoken of you was by the editor.

I will know a cure came and it stopped his paper as well as mine. I did not see him. Some day you will be dead. Your heart will beat no longer. Your friends will bury your body in the inter-bank from where you may fare friends, and lay you to rest among the forefathers. An obituary will be written by the editor "that a good scholar and leader of ethics as you were, who in reality you were dashed, late and mean at times. Here you paid your obituary."

Aberhart Warns Against Attack On Social Credit

Premier Aberhart warned his Social Credit followers Monday they must prepare to withstand a violent attack from the financial circles who were determined to kill the new economic order before it could be launched. The premier told his followers in the Calgary Press that the Social Credit movement is a stand firm against propaganda designed to destroy his provincial government. He said there were desperate efforts being made to undermine confidence in the Social Credit movement by distortion false rumors and "intelligent" misstatements of distorted minds.

First Days of Civil War In The Spanish Capital

M. Houquet is on the staff of the Department of

French in the University of Toronto. He was holding

office in Spain when the civil war broke out, and is the

following article records his experiences and

impressions.

The second of July I passed the Spanish border on

my way to Madrid where I was to take a summer

course. The first impression, drawn from the people

with whom I travelled through Barcelona and Madrid

was rather complex. With the familiarity common to

all Latin people they seem outside of time and space

and politics were discussed almost exclusively. Coming

from France, this was nothing new to me! It was

unusual however to see two of the men with revolvers

and bullets. Another astonishing thing was that some

men wore ties, others did not, but without exception

their shirts were buttoned to the chin. I learned later

that, wearing a tie meant being a "nationalist,"

those without were good "republicans." Finally the

most striking thing to be observed was the number of

soldiers and "guardias civiles" traveling with rifle and

ammunition.

In Madrid, a very splendid city, life was going on

nonchalantly in appearance. To a foreigner the

situation through the heated they displayed.

Two days after my arrival I was greatly shocked.

In the very house where I was staying, a young man,

eighteen years old, disappeared. Two days later his

mother received a telephone call she was advised to

come to him. She found him killed with two bullets

in his head. His crime? He was reading the monarchist

paper "A. B. C." Each night, in Madrid, five to

ten people, leftist and rightist were killed. There was

no inquiry, no report in the press.

On July the thirteenth, Calvo Sotelo, former minister

of Primos de Rivera, recognized leader of the monarchist

party in the Cortes, was arrested at his home at three

in the morning by nineteen "Guards of Assault."

He tried to call police headquarters to find out if he

was arrested by government order, and was prevented

from doing it by guard who cut the telephone wires.

Taken out by force to an unknown place, he was

tortured for six hours, then killed, and his mutilated body

abandoned in a cemetery morgue, where, later that

afternoon, his wife was allowed to take it away. Over-

stressed by such an ordeal, she died herself three days

later.

It has been alleged that, a lieutenant of the Guard

of Assault having been killed July 12, his friends

avenged his death by killing Calvo Sotelo. Two things

may be said first, the lieutenant was not tortured; second, there is no proof that he was killed by members

of a nationalist party. The government, then headed

by Mr. Quiroga, did not make any move for the

prosecution and punishment of the murderers, and its

inaction was understood as a positive approval of the

assassination of the opposition leader.

At any rate this assassination was the actual cause

of the army's rebellion which started on July 16 in

the Spanish name of Morocco. In Madrid, where most

of the population was in the hands of the rebels, the

rebellion was understood as a positive approval of the

assassination of the opposition leader.

Mallaig Writer Says Cattle Are Given Away

They get one cent a pound on the hoof for their thin and half-starved cattle down in the shire belt and the government pays the freight to here in the north and we get one to one and a half cents for our long fat cattle and we pay all freight charges.

Wheat Grading Now Very Low

Young men who have been harvesting wheat south of us but all wheat graded No. 1 down there, turned out to be no different. Under there is to be a meeting at CHANDLER 14 with respect to harvesting of wheat. It is reported that the federal inspectors investigating complaints of seven or eight years ago incidentally Justice Turgott is now investigating the terrible and alleged malpractice. Will his findings be assigned to the archives and unshared any more?

That very reasonable man Mr. Lay and his daughter Mollie from Laidon are visiting relatives at Mallaig.

First Days Of Civil War In The Spanish Capital

The next day, this so-called "popular militia" occupied every street corner, stopping, questioning, and searching every pedestrian and automobile that did not wear some kind of a red card. At that time no trains were coming in or going out of Madrid; we were cut off from the outside world for a week without mail or any kind of news except government broadcasts.

Monday and Tuesday, July 20 and 21, were the most dreadful. The popular militia, supplied with arms and all the ammunition they could use, went wild shooting without even knowing why. Every automobile had been requisitioned for the needs of the militia, who, arriving at full speed in the wide avenue of Madrid, shot at anyone who did not raise his hat quickly enough. Windows were to be closed and curtains to be taken off, and the people were ordered not to look in the streets. For having transgressed this order two Englishmen and a Swiss were badly wounded and ultimately died. However every radio owner was ordered to leave open one exterior window to have his radio close to it and turn it on as loud as possible, until midnight so that the militiamen in the street could hear the news (and so that no one could dare get any station but Madrid). All night the outside rooms were to be lighted.

The regiment of the "Montana," garrisoned in Madrid, rose against the government. After a three-hour siege by the militia it surrendered Monday morning. Then a most awful slaughter took place: sixteen hundred officers, soldiers and civilians were moved down with machine guns. Three days later bodies were still visible lying in the courtyard. Monday night twenty churches and convents of Madrid were set afire by the militiamen. Among them were the Cathedral, San Isidro, filled with art treasures, and the Basilica of Atocha, where the pastor was killed, then beheaded and for three days his head hung from the bell-tower. During the next few days every church, convent and chapel in Madrid was profaned, confiscated and occupied by militia. A good many aristocratic residences shared the same fate, foremost among them the Medinaceli palace.

The very first day of the revolution, great hotels in the centre of the city had been occupied and more or less plundered, since the militiamen were to be fed and served anywhere they liked. At the Hotel Nacional, the manager was thrown from a fifth-floor window. At the Hotel Palace the porter, and the interpreter, a Swiss, were killed outright; the manager, a Frenchman, was taken to prison and was discovered later that he had been killed. The Savoy had no casualties but its facade was riddled with bullets.

YOUR SIZE

ACCURACY of measurement is a very important part in the choosing of that dress costume. For people realize the accuracy of measuring EVERY TIME they order. They may not realize a different size to that which they need only one person.

Persons who cannot wait to see you for their dresses, they may find it difficult to find a dress that will fit them. Every dressmaker knows that a dress that fits is a dress that is worn. When you sit down to write your order, think of the money you will be able to save by ordering a dress that will fit you.

Raft Lake—Clendonald Hope & Livestock Board

Owing to the severe cold which the last few days in hog and cattle prices has given humanity all our best people are embarking upon a campaign of "Eat what you can and eat what you can't" and let the packers go chase themselves into cold storage.

The late plague of flu has been succeeded by the greatest epidemic of mags in history. There is a position of coyote, tipping bounds and enthusiastic hunters who will probably spread the winter cutting more fence and making obvious shots.

Now we know what became of our Otago. Eddie Mayne says that he saw a dead man that he plugged him with a 22 calibre of weapons as when inspecting transportation, dark hunting, Jim indignantly denies all knowledge of the "crime."

We are having beautiful weather. The snow has all gone and the roads are a local demonstration of the rainy season in Kansas.

Mr. and Mrs. Charlie Bates have gone to Edmonton for the winter. Sam took them in just before motor travel became impossible. Jimmy has lots of help and is busy remodeling his lawn station.

Paul Bates postponed sale was a complete failure and was called off after a cow and calf sold for \$5 and a wagon for \$15.

Mallaig School Board Seizes Grain For Taxes Court Case Pending

An interesting case has developed at Mallaig under the Debt Act. The school board seized and hauled grain for taxes in the owners' absence. The department of education claims that school boards do not require a permit from the Debt Adjustment officials before seizing, even the debtor may have come to the rescue of the Act and the board says that the debtor has to, so we presume it is now up to the Courts for adjudication.

WARNING TO THIEVES
The police has been instructed to assist in the apprehension of SNEAK THIEVES and SHOP LIFTERS that infest the stores when the clerks are too busy to keep watchful eyes on these petty thieves.

Shop keepers are advised to co-operate with the Police in this drive which is to be put on and effective immediately, to abate this class of petty crime.

People are warned that parcels should not be left unguarded in wagons, sleighs or cars.

Those found "lifting" are hereby warned that prosecutions will follow swiftly as thieving has been altogether too prevalent lately.

Dip Lee, proprietor

But while there may be some people, holding him directly or indirectly, responsible for past blood shed, and may expect that with his passing, our planet will be minus one person instrumental in provoking wars, yet, he was only a human being who took advantage of the present system, that breeds war, and as long as it lasts and functions by throat cutting competition the death of such men as Sir Basilus not does remove the cause of wars by one iota!

Decorate Your Christmas Table

Isn't it thrilling to sit down to a Christmas dinner that is served on a beautifully set table? At no other time of year is a decorated table as striking as at this season. The following is one of my best Christmas schemes.

Set up some ever, that is typical of the season, in the center has been taken to prevent crowding the table, always keeping in mind the fact that if too crowded with decorations and good things to eat, the whole will be spoiled. Let us suggest some ideas for you that do not require.

An effective blue and silver scheme may be made by using a large centerpiece as your base. Spread the glittering, artificial snow around the edge of the table to simulate an ice-covered lake. Place little trees made of silver leaves in the center. These trees may be bought complete, or you may buy the frame and fasten them to a tree made of wire and then wrap with crepe paper in white, blue or a color to coordinate with your scheme. Insert holly berries with the leaves for color. Small silver star ornaments may be hung from the trees. After the scene is completed, frame it with pine and green holly or holly leaves. At each end of the snow scene, place a small evergreen with blue, silver and green paper, the fringe.

Bellis News

Our Spanish government supporters here, carefully and intently watch the news of the Spanish activities. They are just at the victory and regally display the losses.

Hard freighting is had by many against Hitler and Moravia for the Fausto. So far no typical of the season, in the action has been taken to prevent crowding the table, always keeping in mind the fact that if too crowded with decorations and good things to eat, the whole will be spoiled. Let us suggest some ideas for you that do not require.

"Brother" Karpow visited Bella last week and held a contest of your table, always keeping in mind the fact that if too crowded with decorations and good things to eat, the whole will be spoiled. Let us suggest some ideas for you that do not require.

His main question was "Why don't people believe in God? There may be some things that are not true, but I believe in God. Brother Karpow has no religion. Karpow with his account and personal app a little better if he is a human."

which has been decorated with silver paint. Inside of each branch of a tree, a red candle with a long tapering blue candle. Fill the space between the candles with small blue candles. Place the top of the tree with a red candle. To the left, out of sight, place a small blue candle. This gives a shining effect when the candles are burning.

At each place, set a small blue candle, about a three inch size, in a holder made of silver. Take blue crepe paper in two inch strips and about a half yard long, and fringe the top with a half inch of the center. Then wrap tightly around the base of the candle so that the unfripped portion is at the bottom of the candle, and the lower fringed portion may be pulled outward to form a base to hold the candle in an upright position on the table. Place the lower end, then tie with silver ribbon, inserting several holly leaves in the base. Push the fringe out from the middle, top and bottom, it is a shock of wheat. Dab the ends of the fringe with silver paint and finally give to a three inch star of silver. If you cannot get a silver star of cardboard, use a three inch star of silver, and place it on a card, and place under a heavy book so that they will not warp while drying out.

If you prefer a traditional red and green table, your central scene may be made with green moss and tiny artificial pine trees. Little figures of hares, and birds may be placed in the top of the pine trees and a charming English scene depicted. The individual candles may be worked out in a red and green, a red candle green fringed with red ribbon, on a silver or gold star.

If you have no table reflector, use a light. Try taking away the light in the center from your picture by surrounding and artistically concealing the edges with green moss or saw.

A contest was given by the good bye to Bella. Win was Yuma high school students on Monday Nov. 30, under the supervision of Mr. Paul Dutton, Principal. Among the items in the program were: "Glad Song," "You Gently Sleep Away," and "I'll Take You Home Again." "Loves Old Sweet Song" was sung by the boys. A play was given by the girls. The actresses and actors were: Helen Thor, Katherine Shapka, Katherine Kinnock, Miss Kully, Olga Melnyk, Ave. (singer), Geo. Shukla, Win. Nyko and others.

We have noticed that our professor Mike, changes from Kay to May, he took Kay to the shore and brought May to the convent, he seems to make competition between Ted. But we would like to know who would have the best show if Mike came back.

THE LIGHT METER
uncovers office fatigue

The reason one of these young ladies is tired at three and the other still fresh at five may really be due to the different amount of light under which each of them has been working. Reading or working in poor lighting exerts an undue strain on the eyes which, in turn, unnecessarily wastes nervous energy and other human resources. That is why continued working in poor or improper lighting can make an office worker literally as tired as a ditch digger at the end of a day. You can contribute to the welfare of your employees and saving the efficiency of your office by making sure that the lighting conforms with modern safe seeing standards. We have a trained lighting expert will call at your convenience to measure your lighting with a Light Meter. This service is free to customers.

Grain Inquiry Board Reviews Wheat Figures And Statistics Of Grain Trade Presented By Canadian Economists

The Turpin Royal commission was launched last week into its extensive investigation of the Canadian grain trade and an effort to find means of relieving the distress of the wheat farmers for Canada.

Mr. Justice W. F. A. Turpin of Regina, appointed by the federal government to conduct the inquiry, heard witnesses and collected statistics showing the decline in Canadian wheat exports. Other witnesses offered reasons for the loss of markets and reviewed the international currency situation.

After Hon. J. L. Ralston, commission counsel, declared the finding of means to extend markets would be a major constructive objective of the inquiry. L. W. Brockington, K. C. counsel for the North-West Grain Dealers' Association, urged the commission to recommend a national survey to determine the causes of the economic plight of the farmers and suggest remedies.

"It may be stated that the farmer suffers from the double handicap of buying his goods at a price which is enhanced by the products of a market in which tariffs and embargoes have been raised against him," said Mr. Brockington in pleading that his cause be investigated.

James MacEach, statistician of the Canadian wheat Board declared Canada had not only failed to win a part of the world wheat market share, but the disappearance of the United States as an export market had failed to "hold her own share of the foreign trade from 1940 to 1955. Canada's export position showed an annual decline of 91,300,000 bushels over the five year period 1940-1955 compared with the preceding five-year period he said.

Citing reasons for the decline in Canada's export trade, C. B. Davidson, secretary of the Canadian Wheat Board, said tariff enactments and imposition of dumping duties by Canada in 1939 curtailed imports from the United States, he said.

He was shifting its attack upon the marketing field to that of restriction of production combined with recession of the principle that a high protective tariff involved a compensatory payment for the undue burden on agriculture. In Australia, he said, a national government gave a \$125,223 sterling to State governments between 1931-32 and 1933-34 when it recognized the condition of farmers was acute.

Foreign markets were vital to Canada as a bilateral trade agreement were of no value because Canada had to build its foreign countries to build up credit to meet debt, said Prof. Robert McQueen of the University of Manitoba. Utility of simultaneous currency depreciation as a method of recovery was being recognized and would require stabilization was indicated in the tripartite agreement between Great Britain, United States and France.

Prof. J. S. Alley of the University of Manitoba and steps toward international currency stabilization had cleared the way for setting up a system by which currencies would be allowed to get out of alignment. "It is our belief," he said, that a partly stable, partly flexible currency system which recent devaluations portend should be in with improving capital movement and commercial agreements to diminish the fear that national monetary and industrial instability must result from international trading."

The Farm And Christmas

"Christmas and the Farm:
the Farm and Food."

Christmas 1935 should see a
revival of this ancient Christmas
cant. Those were the days
when the value of the farm was
universally recognized, but in
the whirl of modern life the
farm, as the sure foundation of
material civilization, is apt to be
forgotten. The word farm
means food and was so called
because in older times the farm
was required to provide the
landlord with food by way of
rent. Today this tradition has
been considerably extended in
that the farm supplies the nation
with food and without food,
without the feeding of the
multitude, it is not given to
human beings to be able (per-
haps) to escape the spirit of con-
flict and the word farm and good
will revolved by the teachings of
the master in the celebration of
the festival of Christmas.

The connection between ag-
riculture and Christmas has
ever intimate from the giving
it was to shepherd watching
their flock by night that the
word "I was not for, behind,
I bring you good tidings of great
joy" was addressed. It was in
a lonely stable attached to a
farmhouse that the Savior of
the World was born, and a few
days later it was on the back of
the most humble farm animal,
the ass, that He was born to
Egypt in safety.

It was from the agriculture
population mainly that the
early Christians drew their ad-
herents, and many years later it
was over the farms and orchards
in the vicinity of Rome that the
early Christians received country
to search of branches to de-
vise their churches and dwellings
at Christmas.

Meanwhile, the farm, no ever
withheld for the feast, and at the
same time, as evictions rolled
by and towns became swamped
in their own activities, it was
the farm that kept alive the
kindly, ancient spirit of the feast.

... and aid Mr. Beaudry.

The Dominion has a constitution and so have the provinces declared Mr. Beaudry. The legislation forecast will be in the ambit of the jurisdiction of the province of Alberta. Many believe the province is now overstepping its power and that legislators know the good of the people and the good of the province and that constitution afterwards is only to stimulate the use of power.

the shareholders concluded in Beaudry.

that there is a way out of this misery and morass we have fallen into. The ownership of money must be got out of private hands. "I saw children in my territory eat dry unbuttered bread and wash it down with water," dramatically shouts Mr. Carran. I am groping for the truth. You have replaced responsibility on me I shall my utmost to discharge it.

At this juncture Mr. Scott, tired as president and graciously thanked the delegates and introduced the new president, Mr. Valandrie who made a speech of acceptance and received a vote of thanks and Scott and a vote of thanks tendered Mr. Beaudry for great efforts in behalf of constituency. Some 30 resolutions were passed and which a resume thereof will appear in our next issue.

Dear Sir:

We earned from the man who worked just a few feet away from Maurice, that the accident happened about 20 minutes to 1 o'clock. They start to work at 7 a.m. He was preparing meat and was cutting a joint. His knife was very sharp and he left an extra pull to sever the joint when the knife slipped and cut into the groin and the artery. He gave a scream and ran to the first aid kit. There was no one to deliver first aid and he lay on the floor for about 20 minutes before the ambulance arrived to rush him to the hospital. They notified his family (I am sure they didn't know where to find us) and she told them. Men

Average Life Of Man 60 Years

"Great gains in health have been achieved since the beginning of the century. Tuberculosis is being vanquished. Deaths from infantile diphtheria, typhoid fever, etc., are being eliminated. All diseases of bacterial origin have been decreased in a striking manner.

The average length of life—that is the expectation of life at birth—was only 40 years in 1860. To-day it has gained more than 11 years. The chances of survival for each age up to maturity have notably improved.

Nevertheless, in spite of the triumphs of modern science, the problem of disease is very far from solved. Modern man is delicate. Eleven hundred thousand persons have to attend the medical needs of 110,000,000 other persons. Each year among this population in U.S., there are about 100,000,000 illnesses, serious or slight. In the hospitals 700,000 beds are occupied every day of the year. The care of these patients requires the efforts of 145,000 doctors, 240,000 nurses, or student nurses, 60,000 dentists, 150,000 pharmacists. It also necessitates 7,000 hospitals, 8,000 clinics and 60,000 pharmacies. The public spends annually \$715,000,000 in medicines. Medical care in all its forms costs about \$1,500,000,000 yearly. Obviously, disease is still a heavy economic burden. Its importance in modern life is incalculable."

The thermometer at Mr. Therman's observatory was 53 below zero last Friday.

Mr. and Mrs. Bignin were the guests of Mr. and Mrs. Maurice Brunner on Friday.

Communism—Fair Play

(Continued from last week) Communism holds to the principle of a higher morality and a higher law that will abolish forever exploitation, morality and the law of social revolution.

According to the same writer the communists are the only social scientists in the world today. They uphold a new power, a new consciousness born out of a new freedom. Only communists have at heart the betterment of social conditions for the laboring class. All those who oppose them are against people and accomplices of the rotten capitalist system.

Ed Hennessey of Lethbridge sold his new Ford V8 to C. T. Ashworth of Mymun.

The rest of the news this week from Elk Point correspondent is rather weak and hazy wherein he tries to make out that one of the cattle drivers is to take in washing.

Did those who share such opinions take the trouble to study seriously other programs of social reform than the Soviet one? They claim reason—pure reason as their guide. Nevertheless, how can reason compare and judge soundly and impartially if only one side of the question is known? In order to make themselves to give credit to a bit of intelligence to their opponents we ask communists to compare to analyze calmly the morality, the rational morality of the means of reforms preached by communism. They do not justify the means. Any right conscience knows it, we ask them to investigate with impartiality the true results of the Soviet experiment. Unfortunately for them, prejudice furrows them to open a book, or a magazine contrary to their opinion, to their ready made opinion. And they condemn and denounce beforehand what they do not know and what they do not want to know. For instance how many of those who accuse the Church of being on the side of the exploiters have a least read the Encyclicals of Leo XIII and Pius XI dealing with Labor and Capital? (to be continued)

To Serve Term At The Fort

John Benavente and Steve Churn of near Spedden were sentenced 8 months each for theft of 300 lbs. of wheat and two sacks of flour and some under time from a very old man. They took all his winter's supply. Churn got an added three months for having a still and forty gallons of squirrel whiskey.

As a result of a fight in Hamilton highway hall Pete Kueck went to the Fort for three days. There will be no more news of this nature from Spedden for some time.

Douglas' Interference Resented Social Creditors

The interference of Major Douglas once more, in the establishment of the Social Credit principle in Alberta, should reveal to all Social Crediters and others the difficulties that confront the provincial government in its great task. His constant statement made at a distance of 5,000 miles without his knowing anything of the Social Credit proposals, indicates how unwarranted his remarks are. "I have distinct recollection of the time when he was invited to assist in the introduction of his own theories and steadily refused to undertake any responsibility in connection therewith. I am satisfied that our Alberta citizens will resent most vigorously his present 'dog in the manger' tactics against the Social Credit movement."

Ed Hennessey of Lethbridge sold his new Ford V8 to C. T. Ashworth of Mymun.

The "Big Interests" In Life Insurance

Are the Policyholders and Beneficiaries

The concern of those who act on behalf of these policyholders and beneficiaries is to safeguard their interests. Their accumulated savings, amounting to more than two billion dollars, must be invested wisely to obtain the greatest yield consistent with safety. Every promise made in Life Insurance policies must be fulfilled completely and promptly.

Canadian policyholders may feel justly proud of the wise and careful administration of their trust funds. Even in the darkest days of the depression, their companies met every obligation promptly and fully—bringing financial security to thousands of Canadian homes.

There is added satisfaction in the fact that the investment of Life Insurance funds has helped to build Canadian homes, schools and hospitals—and develop agriculture, industries and public utilities. Thus, the whole Dominion benefits from Life Insurance.

In the future, as in the past, Canadian policyholders and beneficiaries must always be the "Big Interests" of Life Insurance.

To Build Cheese Factory, Lacorey

H. Dumaine of Lacorey, 15 miles north of Bonnyville, interviewed Saturday by a Journal reporter stated he was in St. Paul preparing to start a cheese factory at Lacorey north of the Bonnyville Division of Laford. The first class cheese maker will be manager stated Mr. Dumaine. Within the radius of Lacorey there are between 300 and 400 milk cows. Dupre Bros. in association with Victor Tresser and others have a cheese factory on Dupre's farm South east of St. Paul.

St. Paul Lumber-
jack Gets Scare

Everybody might be wonder-
ing why this special person is
called lumberjack, well I'll give
you a few facts to make up your
mind. At present's account there
last for a week. It was a real
crazy time when a fire started
in the mill yard. It was a
"Yak, Boom, and a shot of
fire was heard at a mile distance
when Mike Cady dropped a tree
which was an unusual size and
the vibration was so hard that it
shook the whole street which
was standing in the mill yard.
And he shot which was stand-
ing close got such a surprise
that it jumped up on all four
and landed flat on its back and
the pole was sticking up in a
tree, which he had to chop down
in order to get in and get his
dinner. But that isn't all the
news about Michael the lumber-
jack which he calls himself.
The night when he was out kind
of late and doing something
that wasn't worth doing the
company he was staying with
fired his bed as if it was a
fire. For Willie the ex-queen or
brother (to someone to explain)
but say Mike says he was
a long as he thumped his
head on the new fashioned
pillow they made for him.
Congratulations Mike, more
news about you later. Mike

H. H. Hivon's
Manifesto To
The Ratepayers

In all probability there will be
a number of new councillors this
year.

It appears to many that it will
be the local interest of the rate-
payers to select a mayor who has
had considerable experience in
municipal affairs.

The matter of the election from
these was definitely disposed of
on November 1 and is a done
letter model as this campaign is
concluded.

The merging of the town's
affairs with that of the schools will
require an experienced councillor
so well as to be accomplished the
coming year.

I have been on the council for
a number of years and have noted
the changes that have been made
in the administration of municipal
affairs.

I think I would be in a better
position than one with hardly any
experience to be chairman of the
council.

I have at all times taken a deep
interest in the advancement of St.
Paul and I am an earnest believer
in good healthy sports for the
younger people.

I am deeply appreciative of the
support given me in the past years
and have tried to discharge my
duties in fairness to all.

May I ask you again for your
support next Monday? If elected
I will be able to offer valuable
suggestions to the new council.

horses are thin as rails, the pigs
are spreading for want of food,
the machinery and barns are in dis-
repair it takes time to get land up
straight for good crops. That is
the end predicament Aberhart will
be in for awhile yet."

sive candidate for trustee would
appreciate your support at the polls
on Monday.

Challenge

George Verneka challenges any
body a fight at anytime anywhere.
He is a light heavyweight weight
175 lbs. He says he would like
to push over quite a few more of
these lumber jacks and show them
the real future. Any promoter can
get in touch with him at St. Paul.

**Three To Face
Trial, Conspiracy
Counts, Defraud**

Following a lengthy preliminary
hearing before Magistrate Ritchie,
George Kuperman, Stanley Blomk
and Thos. Piers, jointly charged
with conspiracy to commit auto
and separately charged with con-
spiracy to defraud its insurance
company of \$5000 were remanded
for trial Monday.

The charges were laid in con-
nection with the destruction by
fire on September 8 last of the
Commercial Hotel at St. Paul. Al-
J. C. Hoshab of St. Paul testi-
fied that Blomk had asked him to
place insurance on the hotel at his
home. Hoshab's name, giving as
his reason for the request that "he
had had a fire two or three times
before." The witness also testified
that Blomk said he was "putting
the fire on there was doing all
the work."

When he was asked by Guy
Petersen, who acted for the crown
in the case, if he had been offered
a "kick" split by Blomk, Mr.
Hoshab answered "Yes." He
also testified that after Piers had
once told him she was "going to
burn down the building or destroy
it."

In the hearing, which lasted
over eight hours during Friday,
Saturday and Monday, 21 other
witnesses for the crown were heard
and 45 exhibits submitted as evi-
dence. J. N. McDonald acted for
the defence.

**New Town, New Councillors
Mayor, Great Interest Shown**

Since the inauguration of St. Paul as a full-fledged
town last July the greatest interest ever shown in
civic affairs gathered momentum for the liveliest con-
test ever held in St. Paul's history.
The happy event culminated on Monday with results
entirely favorable to the changed conditions.

Mr. H. Hixon was elected for Mayor by a sweeping
majority.
For councillor Louis Belland led off with 167 votes,
L. Piers, the foundation stone with 162; Dr. Sheahan,
dentist, extracted 154 votes; A. Froese in the hot
seat of the history collected 155; W. Beaudry 153
and W. Fuller 126.

The school trustees' election showed almost as
content and the result was A. T. Brouseau 361 votes,
W. Gervinich 285 and Mike McMahon 260.
The Journal editor who "also ran" did not know that
he had so many warm and fast friends and wishes to
thank them heartily for their support.

**Silver - Tongued
Orators Are Busy
Talk'n Prosperity**

Some of the silver-tongued orators
now busily engaged in telling out-
siders such things that prosperity has
definitely returned to the country might
well wonder on the fact that 300,000
poor people are as real as the
winter. It is a sad state of affairs
for anyone to make the assertion
that Canada can be prosperous
with any such conditions. The
patriotic responses, under normal
conditions, a flow of prosperity
which supports industrial
property in the entire province
and keeps the nation's great trans-
portation system on a profitable
operating basis. Check that flow
of purchasing power to a practical
break-down condition and the very
foundations of national prosperity
are destroyed.

Local News

A second case of Chicken Pox in St. Paul was reported to the health office Monday. Mr. and Mrs. D. Chant's young children contracted the disease a few days ago and the boy is now under quarantine.

Rev. Father Richard of St. Paul's parish has been named as guest at the B.C. retreat, St. Paul.

The St. Paul Little Theatre will on February 22 present the most dramatic performance of the year.

The former performance consisted of a three act play, the Feb. 22 the Guild will present three act plays.

This is guaranteed to be the best performance the society has put on and it would therefore not be advisable to miss the final presentation of the Guild for the year.

Joe O'Donnell has accepted the appointment as St. Paul district secretary succeeding Phil Mearns who is now town secretary.

Frank Frazier who has been at the St. Paul stock market for 10-12 years, has been returned to town.

Mrs. Verna Wray is in the city more than she is in the country, and she has been in the city for several weeks.

After a long struggle, B. Weng, a St. Paul, has been elected secretary treasurer for the B.C. district, St. Paul.

Mrs. J. A. Frazier, district agent has been transferred to Lethbridge, Alberta, and will leave St. Paul on Thursday morning for his new station at that point.

Mrs. P. T. Tuley left on Thursday morning for Winnipeg to visit her folks in that city.

Mrs. Verna Wray has been sent to St. Paul, reports the health office. She has been in the city for several days ago. She took the train to St. Paul and upon arrival she found that the doctor was waiting to see her.

Do you know that there has been over fifty convictions for school crossing at the local police court this winter. It seems a punishment, for a year or so ago we would get the staff over.

Mrs. J. E. Frazier of Wandering Horse was taken a few days last week.

Born to Mr. and Mrs. Gerald at St. Paul, Alberta, on February 26, 1937, a son, named after the father, Gerald.

To distinguish from the many Gerald's, the father of the boy is named after the father, Gerald.

ILLUSION LIES

Communism, Fair Play

St. W. Clinton is the highest
representative of the working class
in Europe. He is the general Sec-
retary of the Trades Union and
President of the International Fed-
eration of Labor Syndicates. He
is not at all hostile to the com-
munist movement which he considers
an effort to apply the socialist prin-
ciple to industry. His testimony
should be worthwhile listening.

In a word how many of the com-
munist sympathizers have the same
sympathy concerning the com-
munist propaganda as with regard to
Christian doctrine and Christian
values? Fairly forbids honest
people to consider any movement
which is not based on the prin-
ciple of justice.

If you insist upon something
fair and reasonable, the com-
munist doctrine, he demands his
conditions, not yours. You must
defeat, if at all, under his rules
which are no rules. What chance
would have Bradlock, Dempsey or
Tennery in a ring with an opponent
who would kick and bite, mangle an
eye, and all of that failed, pull a
knife? (James M. Gollis)

That competition is true, indeed
with all that failed, pull a
knife? (James M. Gollis)

Nep, Program was elected over
D. Gaudin in the M. D. of La
fond contest Saturday. There may
be a recount as Gaudin had 123
votes to Bergman's 72. The D.R.O.
at the St. John's club clipped the
initials off the ballot and thereby
invalidated all of Gaudin's votes.
The trick on the Reeve was not
and how!

Ernest Lehoult, Laford whom
Bergman could hardly win
third place on the St. John's. Cal-
ifornia track, does not often
leave the other day with Frank
Robinson for a team. Robinson
was looking for the Vet at St. Paul
on Tuesday for a fighter.

The M. D. election contest
between Bergman and Foy far
beyond the St. John's and St. Paul
was about 100 to 1. Foy by 11
majority.

A dog got so scared when a
cuckooed several times that it ran
wildly for cover and made for the
municipal office. The dog pre-
sented itself on the door with its
forepaw that it broke the glass and
battered itself into the waiting room
more scared than hurt.

Some of the Arcozo crop was
touched with frost and some
California in January. My
brother writes that the first
frost in his particular section in
four years. Orono Side is 100
miles south of Los Angeles. The
Arcozo is a little smaller than
the one with the high standard of
fruit. They claim to have the
most why a true christian can
be a communist, they would
see that it is far from being the
kind of exploitation and profits
let us say that it might be the case
for a few, as those few are
more deserving the title of chris-
tians. Beside exceptions are not
the majority.

The Infamous Murder Machines

The world's most dangerous
conference has been held. The most
cruel and most heinous in history
is now on - fifteen billions of
last year, at the awful cost of
poverty, deprivation, malnutrition
and tragically reduced living
standards in Europe, as against
an expenditure of four billions in
1913. The fact of war again
batters the world. If a vote
could be taken among the common
people of the world tonight, free
from the terrors and intimidation
of dictators, political and economic
dictators, ninety-nine per cent would
vote for peace. We have enough
economic dictatorship in this
country. Just recall the Turpin
revolt inquiry, and the fact that
employees in the Cornwall plant
were working seventy hours a
week for twenty-five cents an hour
in a temperature of 120 degrees,
and of course they dared not open
mouth to make the conditions
known under which they worked.
We should line up the young men
of the world, not to go into a
genetic shelter to slaughter each
other at the behest of a cynical old
man, but to put military age, military
unreliable character, while other
people go out to their deaths.
We should have them marshalled
to fight the moral and economic
dictators which trouble the world.

Canada Drifting Toward Fascism

Reading Hansard when you
follow the deliberations of the
House of Commons at Ottawa can
be felt irresistibly to the conclusion
that Canada is drifting fast and
furiously to arms and arms and
Fascism and Hitlerism whether we
like it or not. Arms and arms
Fascism and Hitlerism.

While journeying from Glendon

Glendon Social Credit Group Hold Meeting

Dear Sirs:
The Glendon Social Credit
Group No. 1 held a regular meet-
ing at the home of Mr. and Mrs.
Ed. Christopherson on Saturday
the 20th. During the course of
the evening two new members
were voted into the group, the
number now being 31.

Mr. I. D. Ingram, the delegate
to the Constitution Convention in
St. Paul in December was present
and presented his report. This
brought on discussion of a re-
solution passed at that convention
calling on the Government of
Canada to request the powers
that be to enact a law that this
country will not declare war or
people have decided by a majority
vote. This resolution was ap-
proved by the Group for the fol-
lowing reasons: (1) The question is
National in scope and jurisdiction
on Provincial; (2) It would tie the
hands of this country in the event
of an emergency. While the Gov-
ernment would be making all pre-
parations for the vote the enemy
would be making his vote the en-
emy of the country.

With reference to proposed Ar-
ticle 1 of the Constitution, which
to establish a Board of Transport
Commissioners for Canada that
Country Elevator Companies who
are members of this Association
and whose Companies comprise
more than 50 per cent of Western
farmers respectively draw Gov-
ernment's attention to danger that
the fixing of uniform rates for trans-
port companies upon Great Lakes
will tend to limit competition
between the Canadian grain and
movement of Canadian grain and
particularly to possibility of ad-
ditional burden upon Western
farmers due to increased freight
charges. Earnestly recommended
that interest of hard pressed. Western
farmer be considered par-
ticularly in any legislation or reg-
ulations directly or indirectly af-
fecting grain transportation rates.

Companies who comprise the
membership of the North-West

the form of a telegram.

sary to federate and guide the
modern healthful activities of men,
their peace-making, their well-
building, their advance in knowl-
edge and its wise use, and in gen-
eral, for progress in the science
of civilization, which I shall define
as the art of living together comfort-
ably in large numbers.
We have before us here, the old
story, repeated so many times
in the last ten thousand years
of mankind's tribal warfare, of the
victors, armed by the tribal deities,
who are usually on the side of the
barbaric, pillage, standing over the
body of a prostrate foe, dictating
under duress and force, at the
point of a sword, held at the throat
of the vanquished, a treaty so full
of injustice and economic contra-
dictions that not only could it not
live out a full year, but it literally
sowed the dragon's tooth which
have sprung up in anti-social forces
and war, finally bringing the world
again to the brink of another de-
luge of blood.

Statisticians Are Now Busy Again

These fond of preparing statis-
tics are again busy preparing charts
which prove to be a cruel and people
that Canada is prospering by leaps
and bounds. The price of grain
farm products, for instance, has
increased 10 per cent in the past three
months. What the charts do not
show is that the general increase
has been forced to sell his produce
to pay his debts, or that he had
nothing to sell because of crop
failure, or that he had more money
young men unemployed and more
money being paid out now than
three months ago.

Draw Grief In Police Court For Fighting At Dance

As an aftermath of a dance in
the public hall on January 9,
Nick Selachuk, Peter Bank,
John Wook, John Polowchuk, Mike
Bakak, Frank Myshak, Peter Yu-
chinsky and Steve Yuchinsky, all young
men of the district were summoned
before Magistrate Gore-Nichol
on the charge of assaulting
Mike H. Warkie on January 20.
All the accused except Selachuk
and Wook who pleaded guilty to
common assault were acquitted.
Selachuk and Wook drew \$20
each and costs. There were about
a dozen witnesses for the Crown
testified as to the fighting. J. M.
Lawrence local solicitor appeared
for the complainant Warkie, and
J. W. G. Morrison, K.C., Ver-
million for the accused. The same group
were charged on Saturday last
with creating a disturbance and
with fighting. The R.C.M.P.
presented. After about half a
dozen witnesses had testified, Mr.
Morrison who again appeared for
the accused moved for dismissal of
the charges moved for dismissal of
the charges. There was also tried on
Saturday a charge of assault com-
mitted against a young man named
William Choma, Joseph Choma
and Mike Choma, all brothers of
the Brown district. The charge
was laid by Mike Bepko, a young
farmer of the district who com-
plained he had three teeth knocked
out, two ribs broken and to have
received a crack in the head. Joseph
and William were both dis-
charged while Mike was found
guilty and sentenced to three
months in the provincial goal at
Fort Saskatchewan. J. M. Law-
rence acted for the complainant,
J. W. G. Morrison, K.C., for the
accused. Mike Bepko, a
young farmer from the Beauval
district was called to answer the
charge of violently assaulting one
Sam Liberman, a fur buyer, with
intent to steal. The charge as
laid was dismissed and Bepko was
discharged. The charge as

No S. C. Dividends Yet Aberhart Is Not Resigning

The late of the Aberhart government was restricted today to the men and women of Alberta who elected the first Social Credit administration in the world, in 1935.

From the pulpit of the Calgary Protestant Bible Institute, Premier William Aberhart Sunday addressed the faithful to establish Social Credit in Alberta in the 18 months time limit for its election campaign. He asked the judgment of his constituency on the government's action to establish a new economic order.

He charged a scheme from political opponents.

In the meantime, the Aberhart administration will carry on until the men and women who elected it have expressed their views. The premier suggested the election votes be taken until the first week in June, although he welcomes expressions of opinion any time.

"I say I assure you we are not 'thawing up our hands,' the premier continued his supporters. He improved them to be an intention to 'reviving under the people' a change, rather in leadership or party.

GENERAL PRESSURE

We are more and more convinced," he said, "that the new economic order can only be introduced by constant and gradual pressure until our people realize the true worth and full value. We still are anxious to continue our endeavors and we can be assured of honest government."

Meanwhile, the government was pushing ahead. Mr. Aberhart said, and this was no time for "false warnings and halfheartedness." Legislation to take the "final move for further action" would be presented at the present session of the Legislature. One of the reasons which suggested the rate of his supporters to be delayed until he was to give them the opportunity to see this legislation enacted.

tion, their decision in this matter.

I am suggesting that no vote be taken until the first week of June. In the meantime, we shall be glad to receive resolutions from groups to help us over the period of suspension in the interval.

"It is definitely up to our supporters if they wish to give us a further mandate or direction along Social Credit lines. In the meantime we shall carry on."

Earlier, Mr. Aberhart said he was "more concerned about maintaining honest and honest government the whole way than in financial or grandiose demonstrations or even of political success."

"I hope that our people are beginning to realize that such a great change as we contemplate cannot be done in one night by one bill. Some of legislation or economic action. Our people must learn movement. Even an automobile engine must be run slowly for the first 1,000 miles or the engine may be badly damaged."

STANDARD DANCES

"I promised our supporters fully that in 18 months I would try to establish social credit in Alberta and, for some reason, I was unable to do so. I would like to thank frankly and leave the matter in their hands whether I should continue my efforts further or resign."

REPLY OF LAYERS

The premier's dramatic announcement was made as a result of a decision at the Social Credit caucus which provided the spectacle of the evening. It was understood he insisted on making it and personally his followers after long discussion.

It was probably the only political act of its kind in Canadian political history. The premier, leader of a government, firmly entrenched in power, making the men and women who elected him whether he should resign before an election pledge had not been broken.

The 18-month deadline was used throughout the 1935 election campaign and has been heard frequently in political circles in recent weeks.

Details regarding the rescheduling of Social Credit League meetings have been confirmed by the government, implementing Social Credit in this province, have not been completed, according to the premier.

I shall expect the president of each constituency association later on when the roads and weather conditions are improved and after the legislation of the present session of parliament is made known to all new (electors) meetings of all Social Crediters now registered and have them express, by resolution.

Successful Soiree

Rings and three playlets was largely attended Sunday night in the parish hall. The first was a violin solo by Dr. Nykiforuk, with Mrs. McMahood as accompanist. Lorraine and Yolande Deacon sang a solo. The little McMahon girl and Donnie Thibodeau gave a little duologue. Then three boys Al Tremblay, Paul Pigeon, Alvin Alvin presented a little playlet which was well received. Corinne Tremblay, Therese Pigeon and Corinne gave a recitation.

Mr. L. Menier, Sec-Treas. of St. Paul has engaged Joe Driscoll to help launch him on his new (Secretarial career).

Twelfth Year

8-Year Old Models Of Combines Sold

Canadian farmers have been getting 1929 model International Harvester combine harvesters for the last seven years, but improvements have been made on U.S. models, C. R. Morrison, president of the International Harvester company, told the combine customers on farm implements Wednesday.

The same thing applied to tractor model number 1525, he said, with the former getting a reduced price. The Canadian company had had a large stock of combines and tractors on hand brought from the parent company.

Mr. Morrison said the Canadian farmer got a thoroughly good machine at a reduced price.

"I'd like to see you getting an old model," said A. T. Graham, combine customer. "So far as I know," said Mr. Morrison. "He knew he wasn't getting the current year's model."

Mr. Morrison said that it would be an opportunity for an enterprising business to unload old models on the U.S. market, suggested Mr. Graham.

"We didn't intend that," he said. "We were ordered by the Canadian company," said Mr. Morrison. "The company was still selling some of the same model in the U.S.," he said.

Support Of The Workingman And Of His Family

In the first place, the wage paid to the workman must be sufficient to support himself and his family. It is right, in fact, that the rest of the family contribute according to their power towards the common maintenance, as in the rural home or in families of many artisans and small shop keepers. But it is wrong to place the burden of the children or the workmen of women. Mothers will show all devote their work to the home and the things connected with it; and to be supported with all our strength, in the home where members of families, because of the insufficiency of the father's salary, are forced to receive the support of the mother in the domestic walls, in the neglect of their proper care and discipline, particularly the Education of their children.

Every effort must therefore be made to ensure that the father's wage is sufficient to meet adequately the needs of his family. If in the present, usual society this is not possible, some device must be found to ensure that the father's wage is sufficient to meet adequately the needs of his family.

Farmers Loan \$30,000,000 By Wheat Board

Wheat farmers received a loan of from \$30,000,000 to \$40,000,000 through operations of the present government, Mr. Murray according to E. E. Purley, Conservative (Q-Angell), who spoke in the budget debate in the commons.

In a statement on administration of the Wheat Board set under the present government, Mr. Murray charged the board with "a crime against the producer," and charging the farmers had been "betrayed completely, double-crossed and scolded."

By refusing to purchase wheat at a fixed minimum price during the present year, the Wheat Board had practically repudiated the Wheat Board act, said Mr. Purley. It had appropriated a royal commission which would make a report on all wheat, and the government would not declare its policy now.

Mr. Murray said that the Wheat Board act, which was passed in 1926, was a "betrayal" of the farmers of western Canada who had not long since the shipping price that took place last year.

World of Wheat

By R. C. L. Stewart

A most unusual situation exists at the moment with the price of wheat on the world markets. No. 1 Northern Canadian wheat at Liverpool is selling for 14 cents a bushel more than the last. American wheat is selling for 21 cents higher than the last and 25 cents more than the last Argentine.

These specials are considerably greater than the rates of wheat in the United States, yet today, at these wide spreads, such quantities would be being purchased as will probably bring the "carry-over" of Canadian wheat to an August 1st date down to a small level of not more than 40 million bushels.

Why is it that this suddenly the wheat is purchasing so much Canadian wheat at such unusual prices?

Two explanations are made. One is that some countries in Europe particularly Italy and Germany, are this year very short of food. For this people and so are willing to pay these prices. The other thought is that a good deal of Canadian wheat now being purchased is not for immediate consumption but rather for storing up against possible war. Canadian wheat is particularly well-suited for this because it has good keeping qualities.

Sooner or later, however, these wide price spreads will narrow up. Following factors have tended to raise price Italy and Germany continue to purchase wheat from many countries in large quantities, Spain looking for wheat to Argentine large shipments being eagerly bought—Wheat area in North China needs additional moisture—Prices of many raw materials rising—Mexican vegetable crops damaged by frost.

Following factors have tended to lower price: European crop conditions generally favorable—In the experts to start shipping to world markets soon—Argentina and Australian crops of high quality—U.S.A. winter wheat belt serious precipitation—Germany permits admittance of potato and dry flour in bread—Russia has a second season in grain.

The Business Library has been moved from the Boundary block to the Bank of Commerce Chambers, Lorraine Deacon is secretary.

discuss this and other matters of general interest.

The regular meeting night was changed from the second to the third Saturday. A vote of thanks was given to the Christophersons and an invitation to hold the next meeting at the Larson home on March 20 accepted.

Rancher At Risk Lake Passes On Valuable Hint

By Fish Hunting

We pass on a hint that will probably revolutionize the sheep industry of the future. As it is customary in this neck of the woods to keep the Greenhorn ranch for 50 miles in the middle of the year, and wherever a little unwanted stranger arrived instead of keeping a tight rein on the horses to be kept in a pen or a post, according to the disposition of the stock, the horse was put into a small pen and introduced it to the animal.

The cow herding the cattle of the pen, obviously, that all it will and goes on quickly, leaving her out instead of giving a constant inspection of a hocking, horse, the horse gets the maximum of milk with the minimum of trouble, and a very little longer.

Spedden News

By Fish Hunting

The social duties of Spedden for the last week were: A dance and short play in the Farmers hall and also a dance and play in the hall.

Mr. Nick Breen played popular Miss Mary Larkin in Saturday night's hilarious comedy. It proved to be the marriage and divorce lines are shown in Spedden, and that money can marry and divorce a person as many times as he wishes to. We wonder if this is really the way that this is carried on in Spedden.

On March 5, a social was held in the F. M. C. Hall in honor of Miss Katie Fyfe who is leaving Spedden next Tuesday.

Mr. Fyfe's friends and family were present and relatives for the last four weeks.

Miss Anne Wankel visited Alice's last week when Dr. Larkin had her and returned a growth or rather a subversive spirit from her.

Miss Annie Spedden was a visitor to the church in the Greek Catholic church of Spedden.

Mr. Bill Larkin after a short illness, was taken to the village hospital where he has been for the last week. The cause of his illness is unknown to us.

Editor of Best Speller

At a recent spelling match held in the Parish Hall of the Anglican Church, Peden, first honors were eventually won by the editor of the Peden Gazette, Lindley Gibson.

Among the spelled down was a learned judge, two bankers, a musician, a dentist, a doctor, a druggist, a farmer, a tailor, and others, and only two were 100% correct and one of this made 100%.

131,465,000 Yet For Britain's Army

By Fish Hunting

Britain's bill for armaments still climbs upward. Army estimates for 1937 provide for an expenditure of £174,000,000, an increase of 26,200,000 over 1936. They contemplate an army and army expenditure in 1937 of £936,150,000, and the air estimates are still to be decided.

Alfred Duff Cooper, secretary of state for war, recognizes that that is not a small figure, but he says that it is necessary to have a strong army and a strong navy, and that money can marry and divorce a person as many times as he wishes to. We wonder if this is really the way that this is carried on in Spedden.

Radio Over Gold Claims Is Dismissed

Elk Point Man Loses Case

I do not know what it is thought can be done with a court of law in this country. I do not believe either of the plaintiffs in this action, and I am not satisfied with the defendant's evidence. The defendant's evidence, stated Mr. Justice, was that the action brought by Edward G. Hickson and Ben Jackson, seeking a declaration from the court of partnership interest in valuable gold claims, failed by G. Hickson and Ben Jackson, defendant in the action. The claim is situated at Yellowknife. Judgment was rendered in the plaintiff's claim to partnership in a restaurant and hotel business being operated at the northern outpost.

Western Sea Story

Three of the best known old-timers from the north coast of the Yukon, named Hanson, Magnus and Berglund, having been the last of the old, sailed off in their little craft to take in Jan. Fraser's picture show. After a good day's shore leave they pulled their mackinaw and set a course westward into the Arctic sea. They had a following wind and the sea was carrying full sail. While a few miles from their home harbor on the port tack a north east squall hit them suddenly, driving them ashore on a sandbank in the sloping channel known as North-west lake. The ship, carrying two men, was wrecked and the ship's cargo was lost. The ship's cargo was lost.

Boxing Match At
St. Paul April 22

George Verreault, popular St.
Paul millwright, is pinned to sell
out another victory over Johnny
Cyr. Indeed, Verreault is the
Saddle Lake, in their last round
last week Thursday April 22.

This fight will headline a five-
night card to be presented at the
Edmo Theatre.

In the main event Cyr will be
he not to make up for the defeat
he suffered at the hands of Verreault
in a match at Two Hills last fall.
At the time Cyr was said to be
first class shape as most of his oppo-
nent and did not p.c. it with p.
to be expected to have.

However, in Verreault he meets
a scrapper with a very good record
in his credit. Having won most
of his fights by the knockout route
the St. Paul will be plenty
tough to fight.

The six-round semifinal is
between a lot of interest among
fight fans. K. O. Martin, a regular
boxer, is expected to win. The
fight will be held at the Edmo Theatre.
The boys met in Grand
in mid-year with Martin
winning a narrow margin decision
over the Frenchman. However
a battle royal is expected by
"inside line", so both boys will be
digging for a knockout this time.
Three first four-rounders will
round out the bill.

Mr. Jack Smith has been installed
as vice-president for custom
work. It was purchased from Mr.
Jim Fraser, St. Paul.

750 lb Hog Is
Sold At Oshawa

The dance sponsored by the
Bangers Club was a great success.
Much credit for this effect on be-
half of the boys goes to Mrs. M.
Bonville and her committee of ladies.

Waldwyn Bonville of Oshawa
north who are noted for being good
livestock raisers shipped a four
yearling 750 lb. and named.

Oshawa was represented in full
at the John Deere Picture Show.
This was a sing out and the
ladies set the pace.

When it came to the
St. Paul Journal is eagerly read
by the ladies for their effort, so in
a scattered district attending
practices during the winter takes
much more time than the public
in a general interest. Enterprises
of this kind deserve widespread
praise.

Mr. Jack Smith has been installed
as vice-president for custom
work. It was purchased from Mr.
Jim Fraser, St. Paul.

Man Burned By
Gas While Rub-
bing It On Legs

Mr. Maurice Robinson, 35 years,
while rubbing his legs with gas-
oline was badly burned he had to be
removed to the hospital.

The old gentleman was using
gas in line of rubbing alcohol as he
did his rheumatism going. The
small clock he was using slipped
to the floor. He used his
finger to look for it. He was
soon enveloped in flames. Mr.
Robinson's face and hands are
deeply scored.

World Of Wheat

By H. C. L. Stevens

Europe is buying much more wheat than ever the most optimistic experts forecasted at the start of the season.

On August 1st, 1936, Mr. Broadbent, the world's greatest authorities estimated that for this crop year Europe would purchase 420 million bushels, the second and other countries an additional 120 million, making a total of 540 million, the December 30 Mr. Broadbent concluded that Europe would take 28 million bushels more than he had at first estimated, thus making a world total prospective demand of 568 million.

For the past three months the rate of European purchases has exceeded even Mr. Broadbent's higher estimate, and it looks as though the world total imports may finally be near 600 million bushels this year.

It is these unlooked for additional purchases by Europe, of probably 60 million bushels, that have mainly been the cause of the rise in wheat prices. I found 65 last August, to \$1.46 today (the world supply position has changed but little).

While 60 million extra bushels of wheat is not a large percentage of the 568 million bushels of wheat, it is a large percentage of the 60 million bushels of wheat that the United States and the United Kingdom are producing. They found, they found the wheat going up, they found the wheat going up, they found the wheat going up, they found the wheat going up.

Employment Question Slightly Mishandled, Says T. Church Member For West Toronto

Mr. T. L. Church, Toronto, in his riding there are families whose great-grandfathers, great-grandfathers, and fathers owned property. Now many of the sons are industrial workers, many of their children are out of work and some of them are no relief. What has happened?

The oldest boys do not like to hang around the house when they are able to earn any thing, as they take to the roads and wander looking for work as far as B. C. I saw some of these young fellows last summer. I found 65 last August, to \$1.46 today (the world supply position has changed but little).

While 60 million extra bushels of wheat is not a large percentage of the 568 million bushels of wheat, it is a large percentage of the 60 million bushels of wheat that the United States and the United Kingdom are producing. Relief Prevents House Building In Dominion

By The Regina Leader-Post

The money that Canada is now pouring out to keep relief going is actually being spent to keep people from working.

That may sound strange, but that is a fact.

The money that is being poured out in direct relief, millions of dollars a year, comes out of the taxpayers who get nothing back for their money. And somewhere along the line nearly every one is a taxpayer.

Take building, for example. Taxes have become so high that no longer pays to build. The relief recipient cannot build a house for himself because he can not earn enough to have a surplus to finance a house after he has paid his taxes. The man with money to build a house to rent is not even worth the effort to build a house to rent because the taxes are so high that the relief will not be sufficient to return anything on the investment.

Winnipeg has spent about eight millions on direct relief in the past seven or eight years and now reports appalling housing conditions. The city may actually be forced to build houses for the people. Now our house built with the money spent for relief?

Last Governor is responsible for the worst that housing conditions are also appalling in Toronto and that nearly 100,000 homes are required to right the situation. But housing says the Lieut-Governor of Ontario, nevertheless that lack of a decent place to live. The overcrowding and slum conditions will take more people to the hospitals, to the mental institutions and to the reformatory and jails. Somebody is going to be forced to get on the housing situation. The cities of Canada, especially of the west cannot borrow money to make the start. The provinces might do something, but not enough. The fact is that so much money has been thrown away in relief that the provinces and cities are threatened with bankruptcy. The main part of the job on the housing of the Dominion government. The Dominion is doing something with building and repair schemes. So far as these things are good.

But they do not go far enough. The Dominion might be doing one of the best things it ever did. If it provided money without interest to encourage building, it might use some of the money; it is plain it would be providing the money at a loss.

But if it creates new houses and thousands of jobs for workers it will get rid of spending millions on direct relief.

Direct relief leaves nothing behind except a vast number of dissatisfied men, women, and a growing generation of boys and girls who have been brought up on relief.

Irish Say They Did Not Lose Their Votes

One of the Irish members of St. Paul's says he is not the sentiment of all the people on the Reserve when he says they did not lose their votes in D. A. Gansche on appeal was declared duly elected.

Owing to two very disastrous hailstorms the Irish on the Reserve lost everything last summer and were compelled to apply for relief.

The Irish claim that beginning with the big winter of 1919, the Irish in the province got more financial aid than ever St. Paul's.

In fact the amount was and most of this is not yet paid back and St. Paul's has to pay part of it as the others have not paid back the total amount.

Trappers Claim Furs Are Scarce

Ray Scarsion and A. Walden of East Bonaville were in town last week and report the trapper season not so good.

The trappers interviewed by the Journal said the scarcity of furs is not attributable to any particular cause as it appears to be a cycle and remembers 1916, 1926 and this year were all alike.

London

Copy of resolutions passed by
the London Pioneer Social Credit
Group No. 1 of London, Alberta,
were received here on the 20th
of March 1937.

Whereas it is well known that
the war has been the cause of
and is the cause of the economic
and financial system so that the
policy of peace, even existing
power would be abolished and
with it the income poverty.

And whereas it is an open ac-
knowledgment that (armament manu-
facturers) produce their munitions
to all governments that can be in-
duced, lured or dishonestly, by
agreement, bribery or bribery to
invest in their wars, to the finan-
cial enrichment of the manufac-
turers and their financial backers.

Therefore it is resolved that
this Group hereby condemns with
all possible anger that can be li-
cally expressed by all good citizens
the action of the present Liberal
Government at Ottawa in delib-
erately dragging this fair Canada of
ours into the armament racket
thereby making itself accessory be-
cause the fact is the glorified crim-
inal to which this financially ruinous
traffic with the merchants of death
leads.

And it is further resolved that
we urge the government to take
immediate steps to discontinue its
most cruel and expensive ruinous
policy by taking over the direct
control of money and credit
in accordance with its predeclared
promises to the people, as the first
and most necessary step towards
the abolition of war as an instru-
ment of National Policy.

Formaldehyde Is

Good Treatment

To Control Smut

The possibility of smut in grain
being brought under control by
means of certain chemicals applied
to the seed, is not a recent dis-
covery. As far back as 1807 a
French chemist observed that a
weak solution of copper sulphate
prevented the germination of
rust spores in wheat. The
process of treating seed with this
solution was slow and tedious how-
ever, and experiments from that
time were continued in the search
for a more suitable and positive
treatment. In 1853, a German
botanist proved that smut was
caused by a parasitic fungus living
on the wheat plant and destroying
its vigor, but it was not until the
middle of the last century that the
value of treating seed grain with
formaldehyde was discovered.

At Vancouver,

Pretty Setting

On Sunday April 11 Miss Mar-
garet Rose Deuchars, was ques-
tioned in the Bill of Lading
case, by the Rev. Mr. Hoole,
Pastor of the Lutheran Church, in
North Vancouver, the bride was
presented in pale blue with a
diamond brooch and shoes to
match. She carried a large
bouquet of red and white carnations,
Miss Ray Wall attended the bride
and Mr. Robert Wall her brother
was groomsmen. Mr. and Mrs.
Zell will make their home in
North Vancouver.

Miss Margaret Deuchars, who has
been the guest of Mr. and Mrs.
Ernest Gale for the past two weeks
returned to her home in Edmon-
ton on Thursday.

Mr. M. Ross, who has been ill
in St. Paul hospital has re-
turned to his home.

There has been a bad epidemic
of colds, sore throats and all
most every one has had a fair
share of it in the last few weeks.

Mr. K. Pederson and Mr. H.
Graham have been dragging the
rocks with the small grader and
up to this last storm the road
round Abilene was in splendid
condition.

Appreciates The

St. Paul Journal

"We just received the St. Paul
Journal. I never thought any-
thing could be so welcome. I
could hardly wait to read it, in
fact I did." I started reading it
in the post office and continued
right on the main street of Ed-
monton. All the people were staring at me
and I must confess a couple of
persons had to jump out of my
way. I read everything, the news
items, the ads, all of it up to the
last and found it most inter-
esting and the most valuable
thing I have ever read."

This is a letter from a former
St. Paul school girl to a girl friend
Lore.

Trudel's Store Is

Being Remodelled

W. Gervais has been busy
this week completely transform-
ing the interior of Trudel's store. It
will be ready for a self serving
grocery. A large new stock
of groceries is being received in
fill the new shelves that have been
put in. The best arrangements
have been put in a separate com-
partment so that the store will be
particularly cool and inviting dur-
ing the summer months.

Mr. Victor Scott has been in-
spected in a day towards Edmon-
ton for the next couple of weeks.

Smoky Lake Schools Celebrate May 31st

On Monday May 24, 660 students from ten schools, met in town competition for the Varsity cup awarded to the school taking the highest score in proportion to its enrollment, in track, field and athletic events. Track events showed marked improvement in style and performance over last year. The standing of the schools according to proportional scoring was as follows: Varsity 78.5; St. Mary's 43.4; Pines 32.8; Hamilton 27.3; Spedden 17.1; Littlefield 14.5; Sunny Knoll 10.2; Kildon 8.5; Errol 5.

Outstanding performers of the year were Gerald Kramely, Varsity 11 points and Mary Chomelov, Varsity, 9 points.

Smoky Lake Hotel One Of Town's Oldest Landmarks

The Smoky Lake Hotel one of the landmarks of the town is built on a substructure of concrete and masonry of solid proportions. This building is now completely modern in every respect and Mr. and Mrs. Kostyniuk the family and assistants care for the welfare and comfort of the local and traveling public.

Several years ago this enterprising hotelman installed a steam heating system in his hotel and sunk an artesian well to a depth of 265 ft. and reached a flowing soft water which is forced to the upper stories of the hotel for all heating and for laundry purposes.

Spedden News

Mr. and Mrs. T. C. Steery of Camrose are visitors in Spedden. Some 22 school chums of Helen Strangman gathered at her home on Sunday to celebrate her sixteenth birthday.

Mr. Rosenberg, Mr. L. Stern and Mr. H. B. Horn were business visitors in Edmonton over the week end.

Mr. S. P. Leski and H. J. Jankovsky journeyed to Edmonton on Sunday.

Mr. and Mrs. J. P. Swartz and family spent Sunday in Vegreville with his folks.

Sunday was an unlucky day for baseball players, a loss that three were forced out of the game with broken fingers.

Mr. Gordon Strangman of Spedden and Miss Winifred Bridges of Edmonton, both students of Alberta College, were winners of Whitehouse Trophy in a debating competition, both receiving compensation.

Two new businesses have started up recently in Spedden.

The editor of the paper said the hotel here had the best beer on the line.

Local News

The officers of Smoky Lake Municipality are Peter Fink, mayor, Mike Rosambo, Wm. Parry, Joe Neely, Merceck and Wm. Kerkar are the councillors for the year 1937.

The members of the high and public school teaching staff consist of L. Rosenson, principal, S. Zaharuk, H. Wilson, G. Kolodyuk, Miss E. Dubetz and Miss D. Dubetz. There are 215 pupils.

An airplane deposited a lovely little slip of a girl April 28 at the Smoky Lake hospital for Mr. and Mrs. S. Kostyniuk. She was a christened Alexander as an auspicious occasion at the Smoky Lake hotel.

Mr. T. Nowakovsky started a garage in 1920 and due to continued expansion of business built the magnificent present garage in the downtown business district.

The General Garage are dealers for the vast district surrounding Smoky Lake for Ford and Lincoln cars and trucks, Marconi and Palen radios, and its skilled staff of mechanics service all cars and radios.

W. A. Gannor is mayor of the village of Smoky Lake. Fred Dwyer and Geo. Walanski are councillors with W. G. Ratney, secretary treasurer.

Provinces Taking Full Advantage Of Federal Loan Plan

The following table of loans in April 30th, 1937 issued by the Finance Department in Ottawa. These figures show the greatest increase during any fortnightly period since the period since the plan came into operation. It should be noted that of all loans to date more than one third, both in number and amount, were made during the month of April.

Loans by Provinces to April 30	\$382,982.55
Prince Edward Island	\$372,573.56
New Brunswick	\$166,099.06
Quebec	\$821,690.31
Ontario	\$120,373.73
Manitoba	\$166,768.25
Saskatchewan	\$89,954.39
Alberta	\$117,720.09
British Columbia	\$122,710.61
TOTAL	\$3,611,061.71

There is much evidence that the loans made under the House Improvement Plan only represent a portion of the effort which has been started as a result of the campaign. We have recently received a letter from a contractor in the Province of Quebec informing us that he has received no orders for home improvement totalling \$25,000 in the past two months and that in no case has a loan been asked for.

Hale Senous, living in exile in England, recalls the sympathy of the London Daily Mail, which suggests that it is the duty of the League of Nations to collect an adequate sum to rescue him from his peers.

With the sympathy expressed most people living outside of Italy and Germany will agree. Senous was a humane, intelligent ruler and a brave leader who fought against oppression with still overvalued. There can not be the same agreement with Hale Mail's suggestion that League encouragement led him to reject the House-Loan plan scheme which would have left him his home and livelihood of his dominion.

Acceptance of the House-Loan compromise proposed by L. B. E. Ethiopian Emperor would have made no difference. Mussolini never had the slightest intention of stepping out of complete command. General de Bono's book published view the war with the Italian dictator's approval, and it is abundantly clear that there was had faith and devotion on Mussolini's part from the very beginning and that the black emperor had been planned in detail two years before. If Duce's troops crossed the border from Entente. The De Bono book reveals that the Emperor's army which was committed in an endeavor to change him to take the offensive, and thus assume the responsibility of the war. His was a policy of power at any price while Mussolini's policy was war and conquest at any cost.

Business Man Is Successful In Smoky Lake

Wm. Lazaruk has been in the garage business since 1930 and is a dealer in a large way in Chevrolet cars and Chevrolet machinery and furniture in the general store business since 1935 opened.

Lazaruk's garage is 50 x 125 ft. lined with metal sheathing with a steel corrugated semi-circle roof. It is one of the most imposing business establishments of the town.

The territory north of Smoky Lake is ideal for hunting big game such as deer, moose, timber wolf and even caribou beyond Lac Riche within 100 miles of this thriving town.

Smoky Lake Is Ideal Place For Mercantile Stores

Smoky Lake draws from a very large territory and judging from the number of business places everyone appears to be in business of some kind but principally in mercantile pursuits. There are actually some 25 stores in town.

Local News

There are approximately 380 students in attendance, 170 of whom are in the first nine grades, 30 in the high school. This June plus students expect to graduate.

The average scholastic record is good.

Since the 15-poning of the year several clubs have been formed and will be brought here for training and then will be sent to motor track to Beaver River, R. H. The ties from Cold Lake waters in an event each spring after the are leaves, and the tie industry a whole gives employment to a large number of men.

W. O. Clark Will Ratt Ties On Cold Lake

W. O. Clark and crew have left for the Maritime river to bring down rats of ties. Large quantities have been cut for Mr. Clark on the north shore of Cold Lake and will be brought here for training and then will be sent to motor track to Beaver River, R. H. The ties from Cold Lake waters in an event each spring after the are leaves, and the tie industry a whole gives employment to a large number of men.

Writer Observes Handwriting On Wall For Liberals

By the way, the Liberal party of the old land has almost passed out of existence, and Lloyd George might well exclaim, "I only am left." With his passing, Canada will have the distinction of maintaining the historic name. We can be proud to have the name of the Observer in his dedication to the traditions with which the name Liberalism has been associated but we can not see any reason why federal politics should be made an issue in provincial matters. -Vegreville-Observer

Party Founded In Quebec Pro.

Statement issued yesterday by the members of Quebec's legislative assembly and two members of the legislative council - the upper house - announced the formation of a third provincial political group - "the National party."

Over the names of Philippe Hamel, Oscar Desnoes, J. F. Giguere, Rene Chaboulet and Adolphe Macdonald, legislative assembly members, and legislative council member J. E. Desrochers and Desrochers, the statement was issued after the vote was taken.

Their proposed party is the National party's founding an extension of a program for which they have labored in this province for several years.

Dr. Hamel, advocate of nationalism of Quebec's, has been discredited with the Union Nationale government's policy in connection with electricity throughout the last session of the legislature.

Under Desrochers in his resignation as Union Nationale member of the House of Commons, he was discredited because of differences with Premier Desrochers over government policy.

Giguere, member of Quebec, also expressed disagreement with the government during the session and became known as a member of dissonant lower house group.

They have inaugurated in this well governed and disciplined state as Quebec but there will hardly be a squint from the Prime.

Mr. Hamel, B.C.M.P., who was in charge of the St. Paul detachment some years ago, travelled from Edmonton by car on Thursday to attend an important function at St. Paul. Many members from the outside districts of Vilas, Ashcroft, Oxbow, Saddle Lake, Elk Point were in St. Paul for this occasion.

46350 MILES IN 2 MONTHS...

AVERAGE RUNNING COST LESS THAN 3¢ A MILE

THAT'S THE RECORD OF THIS CHEVROLET FLEET OF 1937

"Recently, we saw a fleet of Chevrolet trucks. I thought you would be interested to know that in a little over two months this fleet has travelled 46,350 miles. The average running cost, including gasoline, oil, lubrication, repairs and insurance was 2.8¢ per mile. This is a record for any fleet of trucks." — James Cleveland & Sons, Ltd., Toronto.

YOU HAVE to be personally "asked" on a purchase before you recommend it to your friends. In the Chevrolet Truck fleet are unqualified testimonials that read like "asked if or not?" items, yet they are honest, owner-testimonials of these famous commercial vehicles!

If you use trucks, take a tip from big Canadian business firms. They keep an accurate account of every mile in their fleet... and as a result... specify Chevrolet... for long life and economy!

Why not check specifications... compare values... inquire about the convenient financing arrangements of the General Motors International Plan. If you do, your logical choice from every angle, will be... Chevrolet!

Harry Hopkins Predicts Abolishment of Poverty

It will be a marvelous thing if the prediction made lately by H. H. Hopkins, U. S. Federal Work Progress Administrator, comes true. Mr. Hopkins said, in an address at Teachers College, New York:

"I expect to see the day, and it won't take more than 20 years, when the Government sees to it that one third of the population which is at present insufficiently clothed and fed will have a decent living standard. We have just made a beginning." He added that "it's going to cost plenty," and that the cost will "come out of the pockets of those earning more than the average income."

Everybody would like to see poverty abolished, but not everybody will agree that the way to do it is to take from the able to give to the less able. There is danger of reducing the competent to a state of incompetency. What would seem to be the safe way is to bring about a more equitable distribution of wealth would be to provide more wealth. Instead of talking about "taking out of the hands" of some particular class for the benefit of another class, it would be wiser for men holding high places of public power to be talking about the equitable distribution of the wealth of the nation.

They stated the territory traveled from Prosser in Manitoba is rather short on crops, in fact in some places there are practically no crops at all. The vegetation the harshest growth here captured these dried out - cottons who with local land and some new water with their families, household goods and belongings.

Obituary

Death called one of the pioneers in the person of Mr. Joe Gagnon, in his sixtieth year on Friday evening last.

The late Mr. Gagnon came to St. Paul nearly thirty years ago and operated the telegraph office until the advent of the railway in 1920 and for a few years thereafter.

In 1922 Mr. Gagnon launched into the general store business for six or seven years.

In 1930 he was telegraph operator at Meadow Lake and subsequently at Gladwin, Sask., north of Battleford. He knew his neighbors with Christian resignation. He was always ready to help a friend. Mr. Gagnon was a good man and of outstanding character with no enemies. He never had more than a kind word for all. He is simply missed.

St. Paul District Is a Prosperous Farming Country

A drive through the north west corner of St. Paul's farm district showed many well built and well kept farms. It is a most interesting sight to see the modern farm houses and barns. In the midst of the so-called depression some of these farmers built \$5000 barns and from \$5000 to \$10,000 houses. One is the biggest cream shipper in northern Alberta. I refer to J. F. Berlingue who has a cream business should not have been lost to the St. Paul Creamery.

Beneficial Rain North Of Town

The rain last Sunday morning centered around Rife, Flat Lake, Thierion and Mallag and was very beneficial to the crops. It did not reach as far as Bonnyville. Given a few showers and general heavy downpour would save the situation. We found some very fine stands of wheat around Flat Lake and Rife and good for 20 to 25 bush per acre.

Historic Frog Lake Calls Tourists

Lying a few miles north of the Saskatchewan river at Heinbockling and within an hour or two's morning distance of the main highway to lay on Vermilion, is a cluster of sparkling blue lakes which attracts an annually increasing number of vacationists from all parts of the prairie and points across the international border. They arrive from San Francisco, Los Angeles, Seattle, Great Falls, Minneapolis, even from cities as far away as New Orleans, Chicago and New York.

That the holiday season is here the cars now lining up over weekends at the Heinbockling ferry is ample evidence. During the summer months it is one of the times stretchers back from the river for a quarter of a mile. Camping, fishing, boating, berrying swimming and dancing are among the diversions that the lovely region offers.

Included in the group are: Cold Lake, famous for its beauty and its numerous trout lakes; Laurier, Ross, Whitney and that fine body of water stretching for miles; Lawrence's lake wooded banks, majestic Frog Lake.

Writer Says Lee And Snow Still At Great Bear Lake

A very interesting letter, written by Vic McKee from the mining
camp of Great Bear Lake, was re-
ceived by the Editor this week. Vic has
spent the past year in the north
and claimed that the winter was
now coming very long as the ice
was just beginning to break in the
lake and the snow was still there.
The letter was written on June 9.
The winter didn't bother him until
May 1st, but asked him from then
on. He described the longest, as
of a place to take several injured
men out to Edmonton, for had to
be blasted in order to make clear

water for a place to land in
and then everyone held their
breath as it certainly looked as if
the plane could not rise in time to
miss the edge of the snow when
taking off. The warmest the lake
ever gets in their neighborhood is 3
degrees above freezing. Vic also
said that the snow was very long
as the ice was just beginning to break in the
lake and the snow was still there.

Mr. and Mrs. Skene are at
Moose Lake on village in their
new cottage.

Mr. Parsons' friend is spending
a few weeks in the city visiting
relatives.

Joe Bonar purchased a new
1937 Ford Ford truck from the T. C.
M. Motors Tuesday.

The Middle Lake sports will be
held on Friday and Saturday July
23 and 24. See papers for further
particulars.

Therion will hold its annual
sports on July 15th this year.

It is with deep regret that we
record the sudden death of Mr.
Napoleon Lesonowski which took
place last Monday evening on the
way to the hospital. The late Mr.
Lesonowski was 59 years, a hard
working blacksmith, hale and hearty.
He was never sick a day, a man
of about 300 lbs. and a man of
sound judgment he never lost a
day's work.

Mr. Lesonowski's passing will
remove a notable figure from the
streets of St. Paul. He too con-
tributed to the upbuilding of St.

Bishop Spoke Here Sunday

Bishop Macdonald assistant to Archbishop O'Leary conferred upon the 150 children on Sunday afternoon and in the evening spoke on the child education movement and co-operatives in Nova Scotia which was the theme of his address.

He was in the diocese of Antigonish among the farmers, fishermen and miners.

The mission was inaugurated by the late Bishop of Antigonish, who died in 1900, and who was the first to bring the mission to the world in the New England state as in Nova Scotia, New Brunswick and P.E.I.

Study groups were started and co-operatives commenced along the lines of Norway and Sweden the most advanced in the world in co-operatives. Labour factors were built and co-operatives launched.

If said line politicians held meetings, questions were asked. The people studied the co-operative movement thoroughly and the adults actually learned to read and write for that visit many could not read until this educational movement was begun.

YOU Share in Canada's Greatest Co-Operative Business

LIFE INSURANCE is the greatest co-operative business in Canada. As a policyholder, YOU are associated with more than 3,500,000 other Canadians in this great enterprise.

Every business day last year Life Insurance Companies in Canada distributed to Canadian policyholders and beneficiaries, over Half a Million Dollars.

Life Insurance enables YOU to provide financial security for yourself and family. It also benefits the country as a whole through the investment of Life Insurance funds in important public enterprises.

Life Insurance dollars give employment to workers throughout the Dominion. Transportation facilities are extended, highways built, streets paved, schools erected, water, sewage and other necessary works constructed. Life insurance dollars help to finance the farmer, and bring business to the general store and country merchant.

In the past five years of business depression, Canadian policyholders and beneficiaries received over Eight Hundred Million Dollars in payments from their Life Insurance Funds. Life Insurance Companies have fulfilled every obligation one hundred times over the dollar.

As a policyholder, YOU can take justifiable pride in sharing in this, the greatest co-operative business in Canada.

Rail Lake Items

Successor sympathy to our friends at Heintzberg on the death of Robertine Charles.

Some people in this land are not so well informed as they seem to be. The other day some of Mrs. Nick Kimble's little takers came home with a bag broken open!

From the latest reports, Mary was hauled out sick and then last Friday, Campbell Lake on Saturday evening and the big crop on the Drovers' bag hauled away occupied the same fact earlier on in the day.

There was great excitement in Clarendon the other day when Winton, the heavy farm car, was inadvertently built into the new sidewalk. She was finally escorted with a wreath and much gentle persuasion.

The Oppressor of Rail Lake is again in rebellion. The spirit all right attention to the matter and the result in the shallow waters north of the big island.

Conspirators to Jimmie and Camille Klushe who have a son and wife, Jimmie is already looking up for a breaking contract for him.

The Dick Enderton was last seen in the Drovers' with a new permanent and looking like a million dollars.

The Yack Lowman boys and Elmer Gorman are working for Gold out of Moose Ferry. It feels like the good old times to me though passed from hand to hand.

It was reported that the Heintzberg sales crakers had been arrested as Budd Ellison complained of a bird man, then that Budd had been arrested diagnosed as a sales craker, and when our Nick Carter and his treated police double to investigate, Budd was found working out his taxes with the rest of the road gang. Our associate today had got the word crossed again.

AGGRESSIVE FOR AGRICULTURE

Alberta Pool Elevators have been an aggressive force on behalf of the grain producers of this province, ever since the organization was started.
Grain producers should never forget that the Pool, operated on a true co-operative basis, create no vested interest, constitute a bulwark against profiteering and satisfy the demand for efficiency.
Practical common sense suggests that all grain producers should give full and effective support to

Preparations For War Being Made In England

Arthur Coaders of Thetford has returned from a two months visit in England. Mr. Coaders reports great building activity in England, Scotland, North Ireland and the Canadian provinces.

All the old buildings are being rebuilt or torn down and modern houses or apartment blocks put up in their stead.

The hospitals have been up to the mark of \$7,500,000 for armaments in various preparations for war. This makes good times for the army.

Church Debt Is Reduced

The Catholic population of St. Paul parish is 1984 and with the new cathedral must be over 2500. There are 27 vicars and with over 200 young men and women, 300 wives and 326 husbands and 1129 children.

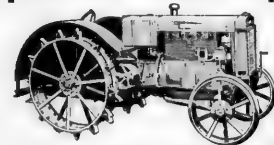

The church debt to the Sun Life Assurance Co. has been reduced from the original sum of \$20,000 to \$18,500. The interest has been 6 1/2 per cent but Father Roush had it reduced to 5 per cent. The principal sum has been paid regularly of \$1,000 per year. The interest has always been more than the principal every year, \$1,000 was paid in June and the parish would like to pay \$500 more by Dec. 1. He thanked the good people of St. Paul for their generosity.

World Of Wheat By H. G. L. Stenager

More "purchasing power" than that is awarded.
 On all sides we hear of this and that. Discussion about it ranges all the way from dignified details to a whimsical dispute. It is quite apparent, however, that much of the argument is wasteful, empty, for those who are the grain and disposing have other different ideas as to just what they mean by "purchasing power".
 For instance, farmers who may have a thousand dollars today certainly consider they have the same "purchasing power" as a farmer who had a thousand dollars in 1913. What they have is the same "spending power" but the "purchasing power" is less, because a thousand dollars today will not purchase about 75 per cent of the grain it would purchase in 1913.
 The farmer who has a million dollars today has the same "spending power" as he had in 1913, but his "purchasing power" is less, because a million dollars in 1913 would have bought about 75 per cent as much grain as a million dollars today. The farmer who has a million dollars today has the same "spending power" as he had in 1913, but his "purchasing power" is less, because a million dollars in 1913 would have bought about 75 per cent as much grain as a million dollars today.

Exam Results Not So Good

The schools will open September 1st. Many of the kids here (and) have the measles or mumps. At the exams many were failed but few were thrown. They brought in the schools for a day and a half but few were thrown. The failure was quite general in grade 8. Pauline Mathews and Miss M. Kitchin appear to have been the only two who passed into grade 9. The other 19 were failed. Mr. and Mrs. Albert T. Fairs and Mr. and Mrs. Alvin Fairs were in town on Saturday.

Claudonald Settlers To Get Aid

After an absence of several months in Europe, Rev. Andrew MacDowell, O.S.A., director of Catholic Immigration, arrived in Edmonton.

During his visit to Great Britain Father MacDowell attended the coronation of King George VI and was the recipient of a special honour in the coronation list. He received from the hands of the King a cross and medal as a member of the British empire. This was a recognition of his work in the overseas settlement.

They Broke A Monopoly

One of the most interesting stories in the minds of Western Canadians is the record of achievement of grain producers in the monopoly which existed in the early days of the grain marketing. It is quite apparent, however, that much of the argument is wasteful, empty, for those who are the grain and disposing have other different ideas as to just what they mean by "purchasing power".

Warning

The owners of horses and cattle running about town racing and doing nothing are warned that information will be laid before the police. It is dangerous to say the least, for the police are now on the look-out for such a thing. The police are now on the look-out for such a thing. The police are now on the look-out for such a thing.

New Locomotives Poems in Steel

Canada's newest railway locomotives are poems in steel, graceful, light-weight, semi-streamlined, machines capable of 118 miles an hour. Federal departments in construction have been made in the Canadian Pacific Railway's new "poem" engines, the first of which was taken over on Monday, July 27, at a brilliant ceremony which was broadcast on a nation-wide radio network through the facilities of the company's Communications Department, and which included addresses by the General Manager (G.M.), J.C. McLean, chairman and president, Canadian Pacific Railway; His Worship Mayor Camille Bessie of Montreal; William C. DeBorja, president of the Montreal Locomotive Company, where the new locomotive was built; and J. N. Berth, Canadian Pacific veteran.

Lindberg News

Mr. and Mrs. Anderson gave a house-warming party in their new house, which was well attended and a jolly good time was had by all, except the two young ladies and who came to blow over a piece of cake. One got a blarney and the other a cut lip, before Lindbergh pulled them apart.

Home-makers' Corner

Now is the time when every housewife is busy preserving and jolly making and any short cuts are welcome.

When making jam, butter the preserving kettle well before putting in the fruit. When it is cooked enough add sugar and a lump of butter, there will be no scum or skinning will be unnecessary.

Federal departments in construction have been made in the Canadian Pacific Railway's new "poem" engines, the first of which was taken over on Monday, July 27, at a brilliant ceremony which was broadcast on a nation-wide radio network through the facilities of the company's Communications Department, and which included addresses by the General Manager (G.M.), J.C. McLean, chairman and president, Canadian Pacific Railway; His Worship Mayor Camille Bessie of Montreal; William C. DeBorja, president of the Montreal Locomotive Company, where the new locomotive was built; and J. N. Berth, Canadian Pacific veteran.

A Well Planned Crime

By N. F. DOONANCO

A man was puffing at his cigar quietly. He was plotting a murder. There was nothing but murder about the action, but the person he wanted to kill was not there. He was plotting a murder. There was nothing but murder about the action, but the person he wanted to kill was not there.

Home-makers' Corner

Now is the time when every housewife is busy preserving and jolly making and any short cuts are welcome.

When making jam, butter the preserving kettle well before putting in the fruit. When it is cooked enough add sugar and a lump of butter, there will be no scum or skinning will be unnecessary.

Australian Report Debt Repudiation

Special Creditors do not quote Mr. McEwen as a Social Credit, but for stating that banks create our money, and control the policy of our government. It is the policy to make or remove banks in refusing to make or remove banks at reasonable interest rates.

Since 1918 despite the widespread idea of a world depression, the people of Australia are not getting for their products, coupled with drought and high prices, a single constructive move has been made in Australia by the financial interests or the federal government to meet the dire conditions of the primary producers or wage-earners.

The vicious, dishonest "money" policy of exploiting the people through inflated interest rates has been maintained in Australia, but has been tried and has been found wanting. It does not face an open and impartial inquiry. Given the facts, any competent Social Credit or could demolish the arguments of the conservative. It is the "New and Old Economics." The Tasmanian government entirely endorsed Douglas, the opponents deny banks create money; they tell us how it is created. They deny the shortage of money. Can they tell us how to have more money than we need to pay the interest on the money?

If there is no money shortage, the existing system must be liquidating. In that case can they account for the ever increasing debt, and how it is to be repaid? Until then we prefer the evidence of our senses, as to the shortage of money, which the orthodox themselves admit when, upholding the employment, "poverty in the midst of plenty," they never ask, where are the goods to come from, but always "where is the money to come from?" — Yours, Norman Jackson, M.P.

Fashionable Wedding At Radway

A very pretty wedding was celebrated at Radway in the Greek Orthodox church by the Rev. F. S. Smeets at five o'clock in the afternoon of Saturday August 28, when Mary one of the really lovely girls of the younger set of the town and eldest daughter of Mr. and Mrs. John D. Rudyk, one of the pioneer families of north central Alberta became the bride of Mr. John Lupel, teacher at Kalmia.

The bridesmaids were the Misses Anna Kieba, Stefka Solman and Annie Melnikoff and those supporting the groom were Misses S. Skoprowsky, Walter Sherek and John Kieba.

The bride looked very charming in a lovely net silk dress over white.

A grand reception and wedding followed the happy couple and 300 invited guests in Radway's most commodious hall gave proof of the high regard and esteem in which this family is held in the community.

Canadian Red Cross Society

Calgary, Alberta, September 1937

Just as Editor: Sir: Through the kindness and cooperation of the companies and organizations operating grain elevators in Alberta, the Alberta Division of the Canadian Red Cross Society are permitted to display the attached poster in the elevators of this province, as the Red Cross are in urgent need of funds to carry on their work.

In the drought area last winter we assisted 5,500 families with bedding and clothing. We are faithfully carrying out our duty of caring for crippled children whose parents cannot afford hospitalization and nursing care, and since 1920 we have assisted 2,437 children in our Junior Red Cross Crippled Children's Hospital.

In earlier disasters, such as the Mexican River flood, the American flood, the Ontario flood, and the Western drought fund, the Red Cross services were demanded, and the people only responded.

The expert mother, the sick family, and those in distress appeal to us for assistance, but now we are finding it difficult to give Red Cross service.

May we hope that you will be kind enough to co-operate with us by lending your services?

Assuring you that we do appreciate whatever you may do for the Red Cross to help us carry on our humanitarian work.

Yours faithfully,
D. H. Tomlinson
Commissioner.

Hummelakers' Corner

It will soon be time to take in the tender vegetables from the garden. Many who have not had experience do not not know how to pick them.

Tomato vines should be pulled or cut off close to the ground and all branches which have immature fruit should be trimmed off to leave and pickles.

The remainder of the cucumbers must be picked now and stored for pickling. Even the ones that make delicious ones should be stored with a few cabbages.

Pumpkin and vegetable marrow must be stored in a dry, cool place to be canned and preserved later on when the busy season is over.

Onions should be pulled and laid out to dry and cures before being stored in a dry place, never in the cellar, unless it is very dry and airy.

Seed corn must be taken in before frost. All that remains may be picked and dried, shelled and stored, even square corn makes very nice corn meal.

The "Big Interests" in Life Insurance

Are the Policyholders and Beneficiaries

IN Life Insurance, the "Big Interests" are the millions of Canadian policyholders and beneficiaries—men, women and children who share in the protection made possible by individual thrift and foresight.

The concern of those who act on behalf of these policyholders and beneficiaries is to safeguard their interests. Their accumulated savings, amounting to more than two billion dollars, must be invested wisely to obtain the greatest yield consistent with safety. Every promise made in Life Insurance policies must be fulfilled completely and promptly.

Canadian policyholders may feel justly proud of the wise and careful administration of their trust funds. Even in the darkest days of the depression, their companies met every obligation promptly and fully—bringing financial security to thousands of Canadian homes.

There is added satisfaction in the fact that the investment of Life Insurance funds has helped to build Canadian homes, schools and hospitals—and develop agriculture, industry and public utilities. Thus, the whole Dominion benefits from Life Insurance.

In the future, as in the past, Canadian policyholders and beneficiaries must always be the "Big Interests" in Life Insurance.

The Lavoie hotel is having a steam heating system installed. Jeffery Dobbs is the steam fitter who has charge of the undertaking.

A Cayote Howls From Newbrook

Newbrook is fast assuming the status of a village with five general stores, post office kept by Eddie Pollard. The Seattle grain elevator is also operated by Eddie Pollard. Mr. Pollard holds a certificate, first class honors for the magnificent River garden surrounding his estate and for the cleanliness and well-kept interior of same. One of Mr. Pollard's diversions is raising a lot of finning with various varieties of whet—very loadable sections—I believe the names of the new whet is Gann and Theurer.

A large new log building comprising two rooms furnished as a convalescent for the children of the well-to-do village and the plain side of the countryside. But I could not put it over there that had attended just such a log building in the backwoods of Ontario fifty years ago and that by dint of the blackwood provision and permission of the schoolmaster I had really mastered the three R's.

On my next visit to your fair little town I shall converse those people that this newspaper has often been quoted by McLean's and the Bulletin frequently for its impartiality, its objectivity and its persistence for stretching the truth and chief source of the bulk for northwestern Alberta.

The principal of the school is Mr. T. Atkinson, a very able, young fellow and Miss Victoria Kanechik, teacher of the junior grades.

Jack Hopkins left the latter part of last week to attend the University of Alberta. While there he will study pharmacy.

An auction sale will be held at the home of Mrs. J. Dwyer in the miles east of St. Paul and three quarters of a mile south of the St. Edward church at a large quantity of machinery and good quality household furniture on October 20. Don Jeyl auctioneer.

The Lavoie hotel is having a steam heating system installed. Jeffery Dobbs is the steam fitter who has charge of the undertaking.

Newbrook is fast assuming the status of a village with five general stores, post office kept by Eddie Pollard. The Seattle grain elevator is also operated by Eddie Pollard. Mr. Pollard holds a certificate, first class honors for the magnificent River garden surrounding his estate and for the cleanliness and well-kept interior of same. One of Mr. Pollard's diversions is raising a lot of finning with various varieties of whet—very loadable sections—I believe the names of the new whet is Gann and Theurer.

A large new log building comprising two rooms furnished as a convalescent for the children of the well-to-do village and the plain side of the countryside. But I could not put it over there that had attended just such a log building in the backwoods of Ontario fifty years ago and that by dint of the blackwood provision and permission of the schoolmaster I had really mastered the three R's.

On my next visit to your fair little town I shall converse those people that this newspaper has often been quoted by McLean's and the Bulletin frequently for its impartiality, its objectivity and its persistence for stretching the truth and chief source of the bulk for northwestern Alberta.

Carling Rink, Dewberry

Preparations are rapidly progressing toward the building of a curling rink in Dewberry this winter. Plans to finance this building and necessary equipment are now being sold by Albert (Dewberry). Any and all support will be greatly appreciated.

The show "God's Country and the Woman" also the Louis-Fair fight pictures drew a record attendance in the Dewberry theatre on Sat. October 24th.

The local Ladies' Aid meeting was held at the home of Mrs. Johnson Porter on Oct. 7. It was decided to hold a bazaar, sale of some crockery and a chicken supper on November 6.

The Anglican W. A. met at the home of Mrs. W. Ross, Lewinville last Sunday. A quilt was sold ready to be shipped with a hole of clothing also toys made by the ladies members for Social Service work.

The C.W.I. held a quilting bee last week in the church. This quilt is a work of art and is to be raffled off in the near future.

GAME BIRDS SCARCER
We are wondering if the game birds are scarce by mistake have been missed in their flight. Very little shooting has been done in the local district where game birds are usually so plentiful this time of year.

Four barrels of weed seeds for feed purposes have been loaded by O.E. Landers to be shipped to the dist. out parts of Saskatchewan.

The Dewberry car of donated vegetables which was left there was shipped to Saskatchewan last week.

We are sorry to hear that Mrs. W. Porter is patient in lay hospital. Best wishes for a speedy recovery, Mrs. Porter.

Riverton & Greenlaw
I hereby certify, that "The Riverton & Greenlaw Telephone Company, Limited" is this day incorporated under The Companies Act of the Province of Alberta, as a limited company.

The capital of the company is \$1,500, divided into 100 shares of \$15 each, and the registered office of the company is situated at Riverton, in the Province of Alberta.

Given under my hand and seal at Edmonton, this day of October, 1937.

presented him the honorary degree of
Doctor of Laws. Mr. Morrison
said it was a matter of pride in
the members that His Honor, who
so frequently sits in Court here
has been honored by that great
seat of learning, Judge Dubuc
thanked the bar for their kindly
words of congratulations remark-
ing that he appreciated what had
been said very much indeed. The
Judge then requested incidents
connected with the anniversary
ceremony.—Vernilion Standard

Obituary

The death occurred in the city
of 16 or 18 Miss Julia Laffoon of
Vilma, Alta., at the age of 16 years.
She leaves to mourn her loss, her
father, her mother, Mr. and
Mrs. Laffoon, three sisters and
five brothers. The remains were
forwarded Monday by Canby and
McKinley to Vilma where the
funeral was held Tuesday morning
at 10 o'clock. Interment was
made in the local cemetery. Rev.
N. Smethway officiated. Canby and
McKinley, funeral directors.

The local Chinese doctor is a
student of Confucian districts and
has expressed the following opinion
on the Alberta political situation:
Alberta just like a lion, Albert
want us key to open lion: are how
many people he has made.

YOUR
LITTLE SAVINGS...
FINANCE
MORTGAGE LOANS

Thousands of thousands of Canadian farms and
homes benefit from first mortgage loans
made possible by the accumulated savings of
Life Insurance policyholders.

For every borrower, there are the steady
people who supply the necessary funds.

This fact affords a striking illustration of
the "double duty" performed by Life Insurance
dollars. Not only do they ensure financial
security for the man, woman and children of
Canada, but they also help to build and finance
their farms and homes.

Life Insurance companies exercise the
greatest care in the selection of properties
upon which mortgage loans are made. To
safeguard the savings of policyholders, security
of principal and interest is and must always be
the first consideration.

Beaver Crossing Man Breaks Legs

A couple for 25 years, hardly abashed to walk, Harry Eagles, of Beaver Crossing suffered fractures to both legs at Fort Knox when his team of horses, hauled and crashed the sleigh against a gas pump on Monday afternoon.

Construction Awarded

The Pools Construction Co. of Edmonton and Regina have been awarded the construction of the new public building for St. Paul. The price is to be \$13,380. It is anticipated work will commence in early spring. These several years of waiting and speculation the government has been placed in fairly decent of the matter and longer will cause no work. The waiting business men (and women) had nothing to say St. Paul would not be to live in. We will all sit on the bench across from the work earth in March, weather permitting.

Local News Items

If phone to Edmonton, Bonaville or even the next village of any status out of St. Paul, I have to pay 2 cents to the Dominion government. This is an invasion of Alberta's rights.

Miss Cunningham is visiting her brother and Mrs. Cunningham is visiting his folks at Drumheller.

St. Paul Motors have received a carload of new Chevrolats and are now on display, you are invited to see them.

P.R. Galsbury has returned sailing from a three week's absence in Edmonton.

Only five more days to your year's last day. As I told you last week the big paper mills down here have been beating the price of newspaper. They call that "good news" or don't allow "bad news" to appear like the Bonaville "bulletin".

The Business Girls club are holding a "Girls in the Period" ball on Sunday December 13th. You are especially urged to attend as such a worthy enterprise as the library deserves every man and woman's support.

Old Time Dance

I - A Success

When it comes to staging an old time ball Alton Bedard certainly has "it". January 13th proved all and more than was expected. His arrangements of a microphone loud speaker system enabled the dancers to trip the light fantastic in a genuine old fashioned 8 piece band which was also accompanied by this venue of balls and more.

Abolish Cause Of Crime In Nations

Although the world is now thanks to the machine, wealthy beyond the wildest dreams of those who lived in the pre-machine era, it is using only a faulty material system which results in a mass of sin from poverty from products in the land. It does not so it might as well be another planet far off the good of trying to do it. The machine is the cause of the crime that is the crime produced results, must remain poor.

The machine is made up of individuals in the mass. Keep the masses poor and the nation must also be poor, and when a nation is tempted to every sort of crime.

As with individuals so with nations, and when a nation takes to crime, that means war.

Journal Takes Wooden Nickels Says Proprietor
Ladies, of gold, silver, metal, and coins and pigs served the purpose of money in olden times and even down to recent times.
There are adapted wood as a medium of exchange for our paper money. There are still a few who pretend to bring a lead for their subscription and have not done so.
We do not put up with the results put impossible. Thank you, we do not like wooden money.

World Of Wheat
By H. C. L. Mosser
We are fortunate indeed in Canada in having a splendid Dominion Government system for the control of the grain and wheat of the world and commercial grain.
This is what I told myself on my return from a recent visit to several parts of the United States. Each State there is under control of wheat standards, which vary greatly. There is a federal control over wheat, and there is no licensing of wheat, so there is some variation.

Provan Pursued For \$10,600
Mr. Ralph Provan, former Canadian politician, has been followed by a man who is now being pursued by the police for \$10,600 for damages allegedly caused to Philip A. Hargrave, former of St. Paul, owner of the Dominion newspaper, when the accident occurred.
The plaintiff alleges in his claim that he suffered several losses, injury to his lung and severe contusion of the brain.

Breakfast Suggestion
By Mrs. Fisher, Try it!
Mrs. Fisher suggests for breakfast.
Canadian Fish Hake. Chop four to six slices of hake and fry the pieces until crisp. Then add the following: Tomato. Two cups of any Canadian canned (flaked fish, two eggs, two slices of onion, finely minced, and one half cup of fish or meat stock. Heat slowly, stirring mounded, brown and serve. Mashed. Chopped pepper, minced green pepper and other ingredients may be added for a change of flavor.
Canadian fish and shellfish are especially good foods because they are so easily digested and rich in vitamins. A 1/2 pound gives mineral resources.

Catholic Church Will Accept The Hand Communion
Dear Mr. Editor:
In the January 27th issue of the Tribune, A. C. Lafferty, in the Mail, has written an article entitled "One Communion After Another and So On". The question-Pope Pius as saying Catholics would accept the extended hand proffered by the Communion of France. This statement has been much repeated and the Communion has been mentioned as a matter of course.
Allow me to give the true interpretation. Catholics would accept the extended hand of Catholics if Catholics would accept the Communion of France. This statement has been much repeated and the Communion has been mentioned as a matter of course.

World Of Wheat

By H. G. L. Stenage

Great wars are fought—
are won and lost—nations and
nations rise, flourish and
Governments come and go—

A few evenings ago one of a group of boys loitering on the sidewalk in our quiet little hamlet, accidentally fired a 22 rifle across the walk in front of some girls passing. No doubt he thought he had done something remarkably clever. The father of a large family living not far from Glenodon informed me that a month ago, when his 14-

For doctors, hospitals and undertakers unduly increased by someone being badly injured, perhaps taken off in the prime of life is the flower of youth by a stray bullet thrown by some irresponsible booby it is fun. Therefore this indiscriminate use of firearms must cease forthwith and parents should do well to restrain their

children from taking out their rifles on Sundays or any other day for that matter.

A word to the wise is sufficient—also a word to the police if needed. The pranks of these irresponsibles must cease or there may be someone taken before the Juvenile Court. A course of instruction in school of correction, thousands

of those who till the soil.

Jury Trial For the Guilt

"Prisoner stand up. Do you object to be tried by a judge or by a jury?" asked the late Judge Walsh, lieutenant governor. "Will you?" "I don't know," said the prisoner. "I don't know what you would like me to do if you were in my place," Judge Walsh replied that he

John Rawls.

All these students were very good, only most of them had a new disease which we called "exhaustion." We also have to admit that John Rawls was hardly working during lectures. But I was not a doctor and I did not know that we all realize that his illness did not permit him to be up all day. He only took half day studies.

After the course we had a great

Thirteenth Year

Child Lost in Woods
North Of Bonnyville

A posse of 20 men scoured the bush north of Bonnyville searching from noon to midnight for the five-year-old daughter of Mr. and Mrs. Walter Subalsky.

The little girl had been playing hide-and-seek at the neighbor's house with her two older sisters and they became separated, and she became lost.

The little one wandered several miles south on the snow-covered riverbank and it was by this time that the search party was able to track her to where she was found. She was taken to a nearby school where she was found. Her parents testified the child underwent terrible suffering.

Ring Punctures

After an interview with Benoit today your writer learned his story on the coming Queen-Vernon match. With much experience and a true knowledge of the game, Benoit said with emphasis that he thought George should win as he has fought with such skill.

Friends of Mr. P. Drollet will be sorry to hear of his sudden illness and hope for his speedy recovery.

There must be bright eyes in Malting. Henry Spohn and Guy Bourcier spent Sunday 1 in the north-west town.

Mr. and Mrs. J. Tremblay, Mr. and Mrs. Art Pigeon and Mr. and Mrs. A. Tremblay spent Sunday evening in Bonnyville.

Mr. J. H. Bedford was on the sick list this week.

St. Paul Motors have been setting a fast clip in the sale of new cars. This morning they had a big sale of the following recent lots.

Mr. M. Mahabick, superintendent of Prairie Rose Mfg. Co. and Orange Creek was here this week on official business for his firm.

Joe Gavigan, living about seven miles south of Elk Point purchased a 1938 Studebaker from C. J. Mahabick the dealer at Elk Point and paid \$1495 cash therefor.

Mr. and Mrs. Reuk, Loretta, Blanche, Donald and their new baby returned to the Lake from St. Paul Sunday.

The view from the front door of Reuk's cottage is one of nature's unspoiled gifts to Gold Lake—that is, a land of evergreen, evergreen, evergreen. Cottages made from logs have been built and have fallen on the lake.

Mr. M. Dery was taken to an Edmonton hospital, Sunday.

The "peel of the north" as it has been so appropriately christened by our gentlemen, is expected to be one of the oldsmen to break up from somewhere between May 15th and the 15th.

Councillors, Trustees, Nominated

Nominations for town councillors and mayor closed Monday April 25 with Messrs. Fuller, Beaudry, Drouin, Ernest Drouin, Drouin, Haddock, Nord, Beldand having nominated to contest the town election to be held May 15th.

Mr. and Mrs. H. Drouin are the new trustees. P. Gagnon having resigned his position in the town.

Mr. N. G. Gagnon was nominated mayor by acclamation and unless we hear otherwise by a large margin his term of office should be a beneficial one to the town of St. Paul.

All gentlemen selected and nominated are of a worthy and vigorous character to discharge their respective duties. The council will make a choice that will most benefit the town. It is of paramount interest that this council have the best men obtainable for its governors.

Large Attendance At Junior C. of C.

A large attendance marked the initial meeting of St. Paul's First Junior Chamber of Commerce. Upon the reorganization of the club by the temporary secretary and chairman, the election of what is fairly hoped to be, by every member, a wide awake executive.

Mr. M. Mahabick, superintendent of Prairie Rose Mfg. Co. and Orange Creek was here this week on official business for his firm.

Popular Country Couple Married

On April 25th

On Monday April 25th the St. Paul Journal was the witness of a beautiful wedding where, Mrs. Rita Foster, new of Mr. and Mrs. H. Drouin, were joined in the holy bonds of matrimonial ribbon in Loveland, second son of Mr. and Mrs. L. Drouin.

Fresh and lively in the bride of flowers that she carried, the bride was charming in a very clear throat and well led and accompanied to match and was given to marriage by Mr. Drouin. While Clara Landreault sang an appropriate hymn accompanied by Miss M. Gagnon on the violin and Miss P. Drouin at the organ. Rev. Fr. Reuther drew the nuptial strings.

A tasty wedding buffet breakfast was partaken of by about thirty close friends and relatives at the home of Mr. and Mrs. P. Drouin. Dinner, in their first manner, was served in a similar manner, of course at the country home of Mr. and Mrs. H. Drouin, where the bride gave from girlhood.

A dance, at which over three hundred invited guests came to visit them, was given in the Elks hall on the same evening.

Many and useful were the gifts which the happy couple received. Mr. and Mrs. H. Drouin are at home on the corner Dupont St. Paul south.

Journal Moved

On Main Street

The Journal newspaper machinery was moved on Monday to the former Savoy Cafe property on the Main Street and Main Street. The new location of the Journal is at the corner of Main Street and Main Street. The Journal is at the corner of Main Street and Main Street.

Change of Train Service Here

Effective next Monday mixed extra will leave St. Paul for Bonnyville at 7:45 a.m. returning at 1:15 p.m. every Tuesday to Bonnyville. Effective next Saturday the mixed extra from Edmonton to St. Paul and from St. Paul to Edmonton on Saturdays and Sundays will not be a daily passenger. Mixed train to Bonnyville leaves St. Paul on Wednesdays and Saturdays only.

Woman Landed Biggest Trout

All records for lake trout were broken when Miss Louise Hayes pulled a fat cut of lake Atlantic salmon on the Flax Flax in the Canadian National Flats in northern Manitoba. Her catch was 47 1/2 inches long and weighed 60 pounds. The world's record for lake trout up to this time was fish caught in Quebec. It is estimated that about Gold Lake's 56 lb. trout caught two years ago was a 60 lb. whopper about a year ago.

Plans To Float Ties

Planning to float thousands of railway ties down to Cold Lake via the Mattin river, W. O. Clark and Charles Searles, left here recently for their supply base along the river. The ties eventually will be floated across Cold Lake to the Indian Reserve lands and loaded on trucks there. Large crews will participate in the work.

Chronicles Of The City Of Delights

Chandonah Episode I

To the year when good King Ah did unite the mighty leaders and thigh there lived in the fair City of Delights a mighty man of valor named Ro. Ro was of great age and his hands, and many children had he to sit at his feet and learn his wisdom.

And because among the young men of the city there were many who had no understanding, and did have needs at the legs of the chiefest horses and make him fire in the crumery of Pat, the son of Ro, the others took counsel to judge and said, "Behold this ungodly prevail against us. Let us therefore appoint Ro to be our chief that the land may have peace. And it was so.

Now the City of Delights was famous for and wide for the Temple of Learning wherein the priestesses did impart knowledge and insight to the maidens of the country. And some of them were very fair, and greatly beloved by the young men of the city.

And chief among them was a young merchant skilled in the use of word and wits, and he did look with favor upon a maiden named Ka. Also he had a mutt, and the mutt was of the race of kings, and was the light of his eye. And it so befell that the young merchant journeyed into a far country, and he wrote a letter to Ka and did say "Take thou the mutt and guard him with thy life until I come again to thee."

But the son of Ro took the mutt to the house of the chief and they all did eat, drink and be merry for many months. One day the mutt found a way of escape, and ran into the street and caught the skirts of a fair maiden named Je-an who was journeying to the house of the King. Then the children of Ro rent their clothes and put ashes on their heads and mourned, and chattered before Ro and said, "Thou Chief, live forever! The mutt which thou hast warded by thy fire has been kidnapped by Je-an and she hath fled with him to the house of the King."

Then was Ro exceedingly with wrath, and he arose and he arose and buckled on his tin star, and went to the house of the King, and the sound of his going was heard by our being shouted on a siding.

And he came upon the door and cried "Open in the name of the Lord!" but the maidens withstood him saying, "Nay for some of us are in bed, and some are in our study hours." But he prevailed a point them, and began to search in chests and coffers crying "where hast thou hidden my mutt which thou hast warded?" But that maiden, whose hair is

Newspapers Believe To Be De-lending Press

The Journal does not hold itself responsible for the opinions expressed by its correspondents.

Editor, St. Paul Journal,
St. Paul, Alberta

Dear Sir:
The big newspapers and the minor capitalist sheets of the province having been accorded priority for their fight against the Alberta Press, Act, are endeavoring to foster the delusion that they stand for freedom of the press and are defending Democracy.

It might be well for those brave defenders of democracy to meditate upon the words of John Swanton one of America's oldest and most beloved Journalists, which are true now as never before. Endorsed by Lincolnton, he said:

There is no such thing as an independent press, unless it is in the country sense. You know it and I know it. There is not one of you who dare write his honest opinion, and if you did, you know beforehand that it would never appear in print. I am paid \$10,000 a week for keeping my honest opinion out of the paper I am connected with, others of you are paid similar salaries for similar things, and any of you who would be so foolish as to write his honest opinion would be sent to the streets looking for another job. The business of the (New York) Journalist is to destroy the truth, to be straight, to pervert, to vilify, to fawn at the feet of Mammon, and to sell his race and his country for his daily bread. You know this and I know it, and what folly is this to be trusting an "Independent Press."

We are the tools and vessels of rich men behind the scenes. We are the jumping-jacks; they pull the strings and we dance. Our cash boxes, our publications and our lives are the property of other men. We are intellectual prostitutes.

Needless to say he got his just punishment. Before availing what these capitalist controlled, capitalist owned press winning defenders of the freedom of the press have to say, remember that they are the mouthpiece of a class that has destroyed the foundation of freedom, that without which freedom is an empty word. Think it over my friend.

St. Paul
like a flame of fire, went forth, and answered, "Thy warden!" it is not thy mutt, and whither would he hide him amongst the trees?" But the mutt was so afraid and had overruled himself under the bed of the daughter of the Queen.

And the mighty warrior he heard him and did cower after him on his belly like a snake, and the most howled and the bed bowed and shook and the daughter of the Queen called upon her God and cried "stop your tickling Jack." And he took the mutt and departed and a great peace fell upon the city.

And the Game of Ro hath spread through the land, and all evil deeds are fled from before him, for they say, "Great is the power of our Chief! Alone, and with no weapon save his tin star, hath he returned the house of the king, and taken the mutt from the maidens of the temple, and who can withstand his might?"

(The above is from the translation of an ancient manuscript discovered on what is believed to be the site of the Sacred City of Delights, situated midway between the Saskatchewan and Vermilion rivers.)

St. Paul Annual Sports To Be Held June 24-25th Organized Bigger And Better Than Ever

Following the custom set in the past few years, particularly in 1937, St. Paul is again holding its annual sports and games between June 24th and 25th this year. The 24th of June draws special attention as it is St. John Baptiste day and the organization bearing that name is expected to act in some way in the sports. Commencing on Tuesday and Wednesday the first night in the parish hall while the second night an English play will be presented in the same building. Wrestling and boxing will be staged in the gym on the night of June 24th. Wrestlers of the light weight from the capital city have been engaged. Such outstanding performers as Klam Kowch, Bob Boy Cummings and Warren Bay the terrible task will be on hand. The local boys have been backed up so that the bout will be presented that night. The Elks Theatre will feature a special program of outdoor sports and a big dance will be held in the same hall on Friday night. Boys from the Edmonton Junior College, Alberta's crack basketball team, will play a game with a local team. All children 14 years and under will be admitted to the grounds. Those who look older but are not, should have age certificates from their school teachers. A program of sports and games, such as boys and girls races, tennis, games, baseball etc. should be arranged. Anyone wishing to take part in any of the above events, games, etc. should make arrangements to communicate with Alfred L. Lafford, secretary, St. Paul.

Rev. Fr. Routhier, Parish Priest, Promoted To Fr. Provincial

By GEORGE LARUE. The people of St. Paul in general and that of the R.C. faith in particular were respectfully surprised, but nevertheless excited upon hearing of the promotion of Rev. Fr. Routhier, P.P. of this town, to the position of Fr. Provincial of the Oblate Order of priests. Rev. Fr. Routhier is the first native Albertan to hold this position. The territory over which his jurisdiction will prevail includes the archdiocese of Edmonton, the diocese of Calgary, Prince Albert and a part of that of Saskatoon. Within its limits are over one hundred priests, 35 lay brothers, 29 theological students, 12 industrial schools.

A FEW CANDID WORDS ABOUT BANK EARNINGS

Half of one per cent. a year on total assets is not much of a profit margin for any business, corporate or individual. Yet that is all the "value" there is in the business of Canada's chartered banks.

Banks pay interest on personal savings deposits. They charge interest on loans. The difference is not all "value" by any means—for these reasons:

(a) It costs money to operate a bank.
(b) The cash reserves held by the bank earn nothing.
(c) A bank must provide for losses.
(d) Earnings on a great deal of a bank's assets are very low.

More than 11,000 people are employed in Canada's banks. In the last few years Canada's chartered banks have paid out in wages and salaries, more than \$100,000,000—paying more than \$100,000,000 a year.

In the same ten years banks paid in taxes to municipalities \$10,000,000; to provinces \$11,429,320, and to the Dominion, \$21,000,000. A total of \$77,429,320.

Banks have other costs, too: Rent on premises; stationery and printing; light, water and fuel; contributions to pensions and group insurance for employees. Depreciation on buildings takes a large amount each year.

Any money a bank pays—taxes, wages or other costs—can come only from the bank's resources and must be paid in cash. No sugar can produce it.

Banking is not all sunshine. It has its cloudy aspects, too. Banks must stand ready to pay their creditors—the depositors and note-holders—a funded credit on the dollar; but banks unfortunately cannot always collect a hundred cents on the dollar. They have loans, inevitably, and must not add substantial costs to meet them.

A bank must keep itself in such a cash position as to be able to pay you your deposit whenever you see fit to withdraw it.

Chartered banks are required by law to hold up the Bank of Canada, or hold in Bank of Canada notes, five per cent. of their depositors' funds; but, in practice, they always carry twice that value that prevents the Bank of Canada from interest for the chartered banks.

It is necessary also to keep a further amount in short term investments readily convertible into cash. The yield on such investments is low, hardly, because Treasury bills and other short term securities mature at short dates; secondly, because banks having an abundance of money or credit—cash reserves of many industrial concerns compete for this type of investment.

Bank earnings depend very largely upon loans, but a bank can find only when the customer wants to borrow.
(Ordinary bank loans in 1929 averaged \$1,512,000,000; in 1937 only \$751,000,000.)

THE CHARTERED BANKS OF CANADA

Your local branch bank manager will be glad to talk banking with you. He will be glad to answer your questions and the confidence of his own experience. The next article in this series will appear in this newspaper. Watch for it.

Warning To Subscribers Early Springs Recalled By Dewberry Pioneer

Editor, Journal,
Dear Sir:

An impressive scene to prevail in some quarters that the short-lived beginning of spring work upon the land, just before snow storms of March 29 and 30 was the end of the season. This would seem to be a mistaken idea in the writer's mind.

Not keeping any written records, has a vivid recollection of sowing wheat the end of March 1915, 23 yrs. ago here at Dewberry, after steady preparation of the soil for some work or ten days previous. One old timer says he started cultivation on St. Patrick's Day.

The spring of 1905 the year Vermin was founded and the railroad pushed through from Lloydminster to Edmonton was still earlier, Dewberry having had a late in March. Very little in the way of snow or real winter occurred at all.

Forgetting over the Battlefields, Edmonton road was done with snow all winter. Gophers came in February and a Red River some harvesting took place around March 1st.

The latest advent of spring seen by us once coming to this Province in 1901 was 1907—June, and almost no summer that year. 1929 was late too but a fortnight earlier than 1907, but a good summer.

These were the two longest winters in that time.
One thinks of the old saying attributed to our Scandinavian friend Ole Olsen, who pleasantly observed about the Northern Alberta climate, "You know, I'm a Yankee."

W. H. Anderson,
Dewberry.

Five baseball teams were in attendance and two softball teams. In baseball Glendon defeated Beaucon 11 to 4; then Beauconville won from Theriot by 8 to 3; Glendon won from Theriot by 7 to 6 and the final between Beauconville and Glendon was called in the 4th inning of blinding light conditions, the score being 3 all.

Glendon and Beauconville this split first and second money between them. Mr. Gauthier of Beauconville was umpire. In softball Glendon defeated Maloy 11 to 1.

A number of races were run and the evening a dance was held in the Community hall. We must not forget the wheel of fortune that was operated inside the hall. The money taken in on the grounds, at the dance and lunch counters amounted to approximately \$2,000.00. (Note: all expenses of all expenses will practically pay the indebtedness incurred in the purchase of the site and the building of the hall.)

Edmonton's Diamond Jubilee opens July 10th.
Many changes have taken place in Exhibition matters in the past twenty years, and more in more a worthy than the change in the past.

The most noticeable are in cattle and pigs, the two mainstays of mixed farming establishments, and a change marks some material improvement in the content of changing market demands.

The livestock rater who would be modern, should inspect carefully the livestock in Edmonton's shows, July 10th to 22nd.

Heretofore entries close June 25 and farmers are invited to send in free prior list of Edmonton's 2nd Exhibition.

JESUS War Preparation

The Journal does not hold itself responsible for the opinions expressed by its correspondents.

Love your neighbor does not only mean to love only those that must have your creed. Love in that sense is above all creeds. Love is the Socialist, Soviet or Socialist.

New Zealand can produce and show some good examples to the whole world, let them be England, at least, for those good examples.

In those countries the right of labor dominates rightly all other economic rights. The Dean of Canterbury, talking about the Soviet, says, "It is not only the standard of living that rises, the standard of morality too and with it the standard of spiritual aspiration."

If this is so, Christian Communism could not think and act other than for itself. There may be liberty to real initiative in the government of Spain, but while doing so must not forget for one moment the respect that is due to the motives of the valiant phalanx, composed by the Lencu and McKenna-Popescu battalions, that are helping the Spanish government, and also, neither for one moment, must be able to the last battle, the last battle of the cities and towns by France's last battle.

Why are socialistic principles and proposals rejected, condemned in some interested quarters?

There is no shade of a doubt that if Jesus were living today, He would be condemned, as a rank socialist, by many of those who call themselves pure Christians, and who conscientiously or not, are dominated by a money complex. Some of them act, as the money lenders of the temple did, A. C. LaBriere

WHY DOES ANYBODY BORROW FROM A BANK?

Why does anybody borrow money? Here is the answer: Usually to make a profit or to use the money for his advantage.

Be the borrower a farmer, marketing organization, lumberman, miner, fisherman, rancher, manufacturer—none ever borrows from a bank and pays interest except to gain a benefit outweighing the interest charges.

Every Canadian dollar represents tangible wealth already produced, or wages paid for services rendered. Every Canadian dollar loaned can be described accurately as to purpose, as a wealth-producing, wage-paying, profit-seeking dollar.

Occasionally some borrowed dollar becomes temporarily "thoughtless" and wanders off to a place where it is not wanted, but with a few lines of a letter, it is brought back to its proper home.

"I borrow \$1,000 from the bank, paying interest because the bank is lending me a service," one man laments. His reply is that:

"Why do I borrow the \$1,000? To use in a business deal and make a profit."

"My deal concluded successfully, I repay the bank and have a profit of \$100, which I put to my credit in the bank."

"The bank has lent me \$1,000 and interest, and I have \$100 I didn't have before."

"Multiply that borrowing of mine, on one of the money, my repayment and my profit, by many borrowers, day after day, and you see what is happening as a continuous revolving process throughout the year in the business world."

A farmer borrows for seed, cultivation or harvesting; a fisherman borrows for bait, boat or wages; a manufacturer borrows against raw materials before fabricated, to pay wages to finish and market his product—but none of these borrowers except in the hope of profit to himself, in supplying the needs of others.

Banking is not mysterious. A farmer's co-operative marketing organization, now bank credit so that the farmer may get cash for his crop at the elevator without waiting for it to reach Liverpool.

A merchant borrows from the bank and is enabled to pay his bills early, take advantage of discounts, and pass part of his saving on to his customers.

A small farmer with 20 hogs borrowed \$50 for feed. At \$17.50 interest and was enabled to sell his hogs for \$100 more than he would have got on an earlier market. His net profit was \$18.75. That is an excellent case. Here is another:

A buy-seller on a large scale paid \$100 interest on a loan for feed. He writes us that he made a net profit of nearly \$2,000.

These are instances of the kind of service bank credit, re-charged for individual credit.

Edmonton Exhibition Jubilee Flashes

It requires seventy judges to judge the many classes at the Edmonton Exhibition, and all those with the exception of live stock judges, will complete their work before the Exhibition opens on July 18th.

Live stock entries close June 25; all other entries (except flowers and vegetables) close July 2nd. Each year the prize list is revised and this year an entire new schedule was drafted for school work, which is now complete.

Many classes are included for amateur, team, ladies and even in variety, have special sections. When working for free prize lists mention the classes you are interested in.

A Pic Social was sponsored by the Girls Softball Team. The proceeds amounted to \$16.

A young cavalier from Vilas is finding it rather expensive in having a girl friend in this north country. Besides that the poor fellow is worried of having a rival and a school teacher at that. So his chances are rather slim.

Mr. Clifford Canyon has come back from Calgary to spend a happy vacation with her husband. Possibly she will stay here for good.

Mrs. Charles Jensen is intending to visit Edmonton some of these days while her daughter, Miss Violet Jensen, is returning home from Gibsons, where she has been working for the past few months.

A pic social is to be held on May 28th at Mr. and Mrs. Hunkko's home in end of the Greek Orthodox Church.

The above Association, in conjunction with other Imperial Associations, are asking that all Imperial Veterans who came to Canada under the Three Thousand Family Scheme, or other Government Settlement Scheme, who consider they have not had a square deal, and who desire to cooperate with the Association in compiling a list to the British Government, are requested to send for a form upon which to make application.

It may not be generally known but our comrades in Australia who like ourselves here, have experienced drought etc. there, did four years ago ask for an investigation by the British Government, in return for compensation, were met by the British Government, in some cases as high as 2000.00, being due of course, to the extent of the loss sustained by the writer.

The Spedden Board of Trade held a meeting last Saturday night, attending the final preparation for the picnic to be held June 11.

Four baseball teams, Boysen Lake, Ashmont and Spedden are expected to take part in the annual annual day for Spedden. The official Board of Trade baseball team has been organized with Mr. J. Hildrey as captain and Mr. B. C. Strougan as manager. The team has quite great possibilities and the full support of the residents of Spedden will certainly bring their quality to the foreground.

Spedden has been hit with a crane for taking and each evening sees the Spedden young couples taking off to the north but on far each time the young ladies have forgotten their swims.

Mrs. N. Freeman, mother of Mrs. Storn of Spedden, came from Los Angeles to spend a few weeks before continuing her trip to Saskatchewan, where her home is situated.

Mrs. B. Strougan was 82½ last Friday in the Mutual Railway Benefit draw.

The organizations grouping of the Ukrainian National Home have done their utmost in order to have the interior finished and painted. The work is proceeding steadily under Mr. M. Morley's guidance. Mr. H. Strougan arrived home last in time to be present at a most enjoyable party given by his sister on the passing of sweet sister.

Do not come to the St. Paul co-operative to buy things cheaper because we sell the same price as our other. We know we are selling too high but so long as we have not educated the St. Paul population enough we cannot do otherwise. If we start cutting prices the others will cut also and they can afford to do it better than we can through their large reserves amassed at your expense. At the end of the year we will not show any surplus and the consumer will not recognize the fact that we have been giving him dividends every day of the year. After a period of time if the big one who has reserves been depleted he will organize to boycott the co-operative's source of supply. With an enlightened population the fight would be short and swift. Everyone could come and trade at their own store and we could all sleep easy at night.

Spedden News

By Spedden

The local Board of Trade here held an extremely efficient showing last Sunday when they played Saddle Lake and Spedden. They came out as victors with the score being 12 to 10.

Spedden 17, Bayan Lake 12 and Spedden 14, Saddle Lake 6. Two years ago the Spedden team won the championship of the district. The Spedden team was defeated by the Bayan Lake team in the final game.

The students from Spedden of the normal schools in Alberta are coming back and all are expected to be in the line of the new year. Some eight or nine of them are to be in the line of the new year.

"MEN AT WORK!"

The most cheerful sign on the road

"MEN AT WORK" is an encouraging, cheerful sign upon the highway. It is the happiest sign on the business highway too. Business enterprise, making wise use of banking service, is the mainstay of employment.

The contractor responsible for the "Men at Work" sign gets the job of building that stretch of highway by being the lowest responsible tenderer.

Not always does he have the ready money to buy all the materials, pay and back himself for the work he does. He goes to the bank and, having made a good reputation, he negotiates with the bank for the money he needs.

He orders materials, sets men to work. As the job proceeds, engineers, architects, etc., come in to collect from those with whom he contracted, and the work goes on.

The highway finished, the bank is repaid. Such payments enable the bank to supply credit to other responsible borrowers.

A manufacturer gets a large order, with an early time limit for delivery. With only a limited stock, his factory cannot turn out the articles within the time required. With more men he can do it—but he lacks sufficient cash.

Operating his factory, as a prime concern, with a profitable order and having a reputation for integrity, he asks the bank to loan him what he needs to pay wages.

The bank makes him a loan. He takes on more men. They get wages. The goods are turned out, delivered and paid for. The manufacturer repays the bank with the agreed interest.

He has his profit and can spend some money developing new business to keep his men employed.

How does a bank make these advances—where does the money come from?

Banks, having branches throughout Canada, mobilize the surplus funds of millions of depositors, large and small, and, based upon them, make credit available throughout the country as may be required.

Millions of little sums represent the bank's production and lifetime savings of Canadians—your fellow citizens.

Self-savings these deposits are the bank's first care. Deposits of \$1,000 or less—most of them much less—are secured by \$7,770,000 out of Canada's \$1,000,000,000 savings deposits. The total of all bank savings deposits in Canada is nearly \$1,500,000,000; the average savings deposit in a bank is only \$367.

Wells safeguarded by Canada's chartered banks, these deposits furnish credit that keeps men at work—wherever they are in Canadian business and industry—producing new realizable

John Thompson Heinrichs Passes Away At Elk Point

The funeral of Mr. John Thompson of Heinrichs who passed away in Elk Point hospital on Thursday, May 28, aged 79 years, was held Friday May 27 at 4 p.m. in the funeral home of Mr. and Mrs. F. H. Hanel. The interment took place in the Elk Point cemetery. Mr. Thompson was a native of Norway, born in Bergen, Norway on Jan. 31, 1859, he left at the age of 17 years and went to Philadelphia where he met and married his wife (now Anna Bergetta Johnson). After their marriage they moved to Ferguson Falls, Minn., where Mr. Thompson was employed for several years in real estate business, his next move was to the Pacific Coast. Here he left his wife and family and he went to Alaska, where he worked in the fishing business for 7 years. In 1908 he came to Canada and farmed at Cadogan, Alberta for 20 years. He then moved to a farm in the Elk Point district. That was his home for a number of years, and then came into Heinrichs to live with his daughter, Mrs. L. Anderson until his health took him to the hospital. He leaves to mourn 2 daughters and eight grand-children. The funeral was held at the home of Mr. and Mrs. Hanel, with Rev. Mr. Hanel officiating. Burial was in the Elk Point cemetery. The funeral was held at the home of Mr. and Mrs. Hanel, with Rev. Mr. Hanel officiating. Burial was in the Elk Point cemetery.

Pretty Wedding At St. Edouard

A very pretty wedding took place at the R.C. church of St. Edouard on Monday June 16. Daniel Heinrichs the oldest and only daughter of Mr. and Mrs. Hanel was the bride. The bride was very charming in an Alise blue gown and carried a bouquet of white roses. The ceremony was performed by Rev. Fr. St. Arnaud. The couple with relatives and friends journeyed to Mr. Hanel's where a dainty supper was served and all spent the evening dancing and singing till the early hours of the morning.

We wish the happy couple a prosperous married life.

St. Paul Hatchery Places 20,000 Baby Chicks

Carman Seller, proprietor of the St. Paul Hatchery, disposed of several hundred baby chicks at Bonnyville and Cold Lake. This is the second year his hatchery has been operating on a commercial scale. Mr. Seller reports results very good indeed. He will have, by June 30th when his last hatch is off, placed 20,000 baby chicks around St. Paul. About seventy five percent of these are the popular Leghorns, Rhode Island Reds, and Plymouth Rock breeds. The rest is Jersey Giants, Orpingtons and Wyandottes.

The hatchery operates a set thousand egg electric incubator. About a thousand eggs are set at a time and there has been two settings a week since the incubator started. The first lot was taken off on 25th of March and the last is to be ready on the 20th of June.

Mr. Seller states he did not have the incubator capacity to keep all the business and consequently people could not see it. He plans doubling the incubating capacity of his hatchery next year.

He says, however, that 20,000 chicks are a lot of birds and will considerably improve the poultry flocks throughout the district.

The Fight Goes On

Western farmers must persist in their fight for a grant to degree of price security in the marketing of their main produce Wheat.

To continue to fight for just and equitable treatment a strenuous concentration of effort is required

The natural focal point for such an effort is the Wheat Pool movement.

No Senator Named; Convicted For Theft Of Grain

The Old Line Parties

William Greshack was convicted before Magistrate Jackson of Ban-

bury on Friday, August 25th for the theft of 100 bushels of wheat and 130 bushels of oats from the Canadian Pacific Railway Company.

Greshack failed to deliver to the company the one third share of crop which he agreed to deliver under the terms of a lease which he signed with the C. P. R. He claimed he was entitled to deliver the crop to the company.

Mr. Hinton says he is a paid agent of the C. P. R. He says he has been "stealing" the wheat and oats from the company for some time.

World Oil Wheat

By H. G. L. Stange

"Why is it said my friend when I will call John Skipton?"

"That is Mr. Skipton, the grain dealer in Winnipeg who was 73 years old in January 1933, and it was up to the President to let his private secretary know that he was 72 years old."

"A careful examination of the records revealed that when in 1933, the price of wheat was 83 cents, which is the proper price relationship, and that there was available then plenty both in Canada and World wheat; that by January 1933 there was a considerable shortage of wheat in the world."

Dear Sir: Thanks, Mr. T. F. Labrecque for dropping a disheartening note that cuts in the voice crying in the wilderness. Humble and

clerical as our contribution may be, we feel moved to try to enlighten our fellow man in the danger, of not trusting him to pay for the material he is to use.

Tragic as it is, we must admit that several people have been misled by the material they have used.

Mr. Heibel has also adopted a good policy in considering it as a business to encourage the development of the business in the village.

Window Lighting System Is Started In Lloydminster

The merchants of the town of Lloydminster are taking advantage of the new special cheap rate on window lighting and electric signs during the evening hours, have started the system by the Canadian United.

During the past two weeks, Mr. W. J. Terrier, of the Canadian United, has been installing a special circuit in the downtown section to take care of the new lighting system, which is operated by an automatic meter which turns off the current on at dusk and runs it off at 11 p.m. every day in the week.

The added illumination in the evening hours at a small cost will greatly benefit the town, as the business section, with the exception of the window lighting and electric signs, will have a wide advertisement.

Modern Creamery Opened At Redway

Without a doubt the finest rural creamery in Alberta was opened on July 1. This up to the minute installation has a staff of about 15 men. Mr. J. C. Lambert, manager in charge, was trained at Holden and has been in the business for many years.

The creamery serves a wide territory. Redway, Redwater, Egmont, Thorold, Alder and Newburg and much of the town on the line of railroad.

The most modern equipment has been installed. The creamery has its own electric light power. A few of the first products were delivered to the city of Edmonton. The creamery is equipped with Walter's valve tanks of which there are only a few in Alberta and none in the west.

St. Paul, Alberta
November 26, 1938

The Editor,
St. Paul Journal,
St. Paul, Alberta.
Dear Sir,

In last week's issue the writer read with interest and considerable amusement the editorial on the subject of the "New Building For Supreme Court."

Problems were written concerning the building of the new Supreme Court building in St. Paul, Alberta.

Max J. point out to Mr. Gaudin that it is every person's right to be heard in his own defense, and that the building of the new Supreme Court building in St. Paul, Alberta, is a matter of public interest.

It is a fact, which is the subject of the editorial, that the building of the new Supreme Court building in St. Paul, Alberta, is a matter of public interest.

Respectfully yours,
W.D. Gaudin.

New Building For Supreme Court

Cost \$2,500,000

OTTAWA, Plans for a new building for the Supreme Court of Canada were disclosed today. The plan is to build a new building for the Supreme Court of Canada in Ottawa, Ontario.

The building is to be built on a site in Ottawa, Ontario, and is to be built at a cost of \$2,500,000.

Capitalism Is Barring Debt Abolition Now

Debt cannot be abolished under capitalism. It is a fact, which is the subject of the editorial, that the building of the new Supreme Court building in St. Paul, Alberta, is a matter of public interest.

Mr. Lee Ayres, formerly of St. Paul, was visiting Mr. Bonchard during Mr. Curran's absence the past week at Banbury and Cold Lake establishing treasury agencies.

John Malachuk and Fred Melinsky of Edmonton will be here to buy books in January. Fred says he likes the intensive French people of St. Paul.

Local News

A local hunter who showed him with very fast and a hard hitter at the end of March was 20 year old Fred Vasmataz Edmonton traveller who follow along closely and that Fred should be placed in training.

Meers, L. W. Shaw and Nelson of Cold Lake were in town Wednesday. Mr. Nelson brought several orders of delicious strawberries, raspberries and large native plants which retained in his garden in a secluded spot on the Cold Lake.

J.M. Fontaine, agriculturalist, was in the city for several days this week.

J.M. Brown was a business visitor in Calgary and Edmonton last week.

A. Dumais who sold his magnificent 400 acre farm in B. Belsch adjoining north of town is reuniting friends here. His visitors with J.A. Belsch in the garage business at Leduc was disastrous and deplorable to say the least.

Mr. and Mrs. A.J. Woods will spend a month in Edmonton.

St. Paul is going to degenerate into a real dog kennel. There are hundreds of crying, cowardly canines all over town that should be shot. They are quite useless and some of their owners don't support them. These yelping canines prove all over town at night. If these "caneas affines" were tagged with a license we would be rid of many.

J.R. Tomlinson, Laford, returned last week from Edmonton, having attended the Sheep Breeders Association. A resolution was sponsored by Mr. Tomlinson with respect to the granting of wool. At present there is no distinction between any for all wools.

Moses, Pigette and Montpelier of Morielville were in town Wednesday and the guests of Mr. and Mrs. Harvey Bismuth.

The men hawks of Edmonton and other large centers have launched the most appealing, most attractive advertising campaign in history. The radio calls morning, noon and all night. Will most of your dollars leave your district and leave you to pay the taxes?

Adopter Marcoux and Collins have moved their milk can of St. Edward at Moose Hill but Collins will move to Franchère in about a month and Marcoux will move north of the Beaver in about two months.

L. Landreville, who's been employed at the Bank Canadian National branch here for some time is being transferred and will be replaced by Mr. St. Arnaud.

Re-Spanish War

I have read your letter against EDITOR in your issue of December 15th and I protest as a Catholic to such slander against the Church. I believe you are putting the Church and the clergy of Spain in the same class with the criminals and traitors of the present war when you try to make us believe that the Spaniards killed many priests and destroyed many churches. We know that people who do things like that only have received terrible injury. I have belonged to the Church since I was a child and I know that the priests have always treated me pretty fairly and it stands to reason that the priests have not been killed after the churches destroyed in Spain because that would mean that the people were taking revenge from terrible wrongs that could not possibly have been committed by the Church of Christ, the church and saints.

The Spaniards are bitterly fighting those that have kept them from having schools for their children and land to raise food for their living and no people since the world exists have been attacking their religion; so the Spaniards can not have treated the Church as such. A. Goltbach.

Re-Clean Sport

Thank you for sending me a copy of your paper containing the St. Paul boxing rules and three cheers for the good sports of St. Paul that get in work and formed the commission. The men of western Canada as I take it are of a sporting nature, willing to pay to see good sport and they have all had a very hard fight for a living for a number of years. But they have fought a game fight and that's what we want to see. No bought of light—no fights planned for a draw. We want a man that will go into the ring and give a licking or take one like a man. If he can't do this, keep him out.

Any boxing commission can not hood-wink the public long on fake fights. So boys use that the same good clean sport. Make a man for St. Paul and treat your outside fighters good, get them and their friends to come out.

I came to St. Paul in 1907 and there has been a big change since that time. Let's change it more boys with good clean sport. One of your men, Lloyd M. Emery, Haling, Alta.

Greetings To All Our Friends and Customers

In Extending our Greetings and Good Wishes We also express our appreciation of the pleasant relations which have existed over the many years of our business dealings. Since the opening of our new Branch in St. Paul the merchants of the Surrounding districts have responded generously to the Service we have rendered them. We hope our sincere efforts may merit a continuance of these pleasant relations over many more years.

Sincerely,

TO ALL THE Co-operatively Minded People of Elk Point

The Board of directors of your Co-operative association believing the administration of our association has made it a success; they have decided that they have met in your association run as a branch of ours. The future will tell their decision has been wise. We cannot have co-operative in Elk Point unless the people want it. I have accepted the position of manager on the condition that the Board help me and prove to me inside a few months that a co-operative is wanted. It means that at present the people have used the co-operative as a tool to force the merchants of Elk Point to lower their prices had in Elk Point. The new man in Elk Point is an apologist of the manager of the St. Paul co-operative association and under his leadership you are certainly not men in Elk Point that the people know and who know the people, but the best men are already placed and you can not blame a man to leave a good place for an uncertain one. For the present we are turning up the store, putting up new furniture, filling it up with goods and making your patronage. Sometimes in January I would like to meet a large representation of the people of Elk Point and make acquaintance.

I would be the most planned man in the world to see you take interest in your store and you if you are in it six months and successfully. Any shares or loans you give to John Kowalski in Elk Point are as good as if you gave it here in St. Paul.

D. GAMACHE, Manager St. Paul Co-op.

Answer To Geo. Verenka's Letter In This Issue

Geo. Verenka writes that when Crier writes the Journal prints it in large type and that the Journal should be fair and equal with everyone.

In explanation, the editor, as secretary of the losing bout, did not see any of the matches and the one who was given a pass to write it did not do so. The editor had to write something about the mass event at least, as the paper was due to go to press the next morning and he had to write whatever he could from hearsay. With someone would take my place the day the paper is mailed especially around the Xmas holidays.

Horse Strayed

Arthur Vallee sold a bay horse, 16 to 18 lbs. to M. L. O'Connell at 100.00. The horse was found in the yard of Mr. Vallee at St. Paul. Owner desires in return, value of horse and insurance. Mr. Vallee is in paying \$175 to Mr. Vallee and back to Mr. Vallee.

Santa Claus Is Theft Victim As He Gives Gifts

L.N. Douglas, of the Rio hotel, was poorly rewarded Wednesday evening for his work as Santa Claus at a concert in the Presbyterian church at 81 avenue and 10th street. While he was presenting as jolly St. Nick, outfit and all, someone stole his wallet, containing \$70, from the pocket of his trousers, which were left in a dressing room. Some silver money was also taken, the thief leaving only 1c in the garments.

Readers A Great Service To Public

Do you know that the M.D. Lander with office in St. Paul is one of the biggest rural municipalities in Alberta. Before a few villages like Elk, Pinet, etc. were carved out of it, it was the largest. No wonder. However, the matter was not settled until the headquarters at St. Paul had returned between six and seven thousand. The matter was then settled by the director that there was no doubt about the matter. Yousa, H.R. Callier, Viking.

Lowest Temperature Record It Was 69 Degrees Below February 16, 1936

St. Paul, Jan. 6.—A government meteorological station was established at Viking, Alberta, equipped with instruments of highest quality and undoubted accuracy. For 13 years the records have been kept very carefully, disclosing some remarkable features regarding temperatures.

In February 1936, there were 5 days of cold weather, unequalled for severity, establishing records almost unbelievable for this date. The "minimum" thermometer gave the following readings: February 12, 51.4 below; 13th, 51; 14th, 52; 15th, 53; 16th, 69.

A meteorological station at Edmonton announced 51 below as the lowest reading for Feb. 16th, 1936, we had reason to doubt, the Viking thermometer when it said 69. However, the matter was not settled until the headquarters at St. Paul had returned between six and seven thousand. The matter was then settled by the director that there was no doubt about the matter. Yousa, H.R. Callier, Viking.

MALLIAIG NEWS

The holidays are now over and we commence the New Year with optimism.

The roads are badly drifted but men manage to get through with a struggle.

We are proud of our new slating shed and since the weather is not so good unless you tell like fighting. It seems funny that the management cannot control two or three roughnecks who do not come to dance but only to get drunk.

The New Year's dance at P.K. Point Hall was a huge success. We might say that this is one of the halls where order of a high class is kept both inside and out.

We note with pleasure that J. Devlin of M.L.A. Bonaville has been appointed to fight the cause of Literacy in the next Federal Election. He is a man of high character and will get our fullest support. It will be a great day for the cause.

1939 FORD CARS AND NEW MERCURY 8

PICTURED above are the two Ford V-8 cars and the new Mercury 8 sedan by Ford Motor Company of Canada, Limited, for 1939. Top, Ford V-8 Fordor Sedan; center, DeLuxe Ford V-8 Fordor Sedan; bottom, Mercury 8 Town Sedan. All three cars are individually styled. All have brilliant brakes. The Ford V-8 is available in three models. It has a full grille and underbody inners at the rear of the hoodline. Interiors are roomy and well-appointed. The DeLuxe Ford V-8 has stylish new streamlines, a deep hood unbroken by fenders, a low radiator grille in bright metal and wide spaced headlamps. Both Ford cars are powered with the new Ford V-8 engine. The Mercury 8 is entirely new in the Ford-DeLuxe line and fits a place between the Ford and Mercury lines. It is a big car with a 18-horsepower engine. The Ford V-8 engine develops 25 horsepower. The Ford V-8 has a new radiator grille which reflects Lincoln-Zephyr styling. There is a choice of four body types.

The Secrets Of Good Looks

By Barbara Lynn

Women with only skin and bones are not the first to attract attention. But when the skin is so thin that the bones are visible, it is a disadvantage that can be corrected.

The bones are the skeleton of the body. They are the framework upon which the muscles and skin are built. If the bones are too thin, the muscles and skin will be thin also. This is why it is so important to keep the bones strong and healthy.

There are many ways to keep the bones strong. One of the best is to eat a diet rich in calcium. This can be found in milk, cheese, and leafy green vegetables.

Another way is to exercise regularly. This will help to build up the muscles and skin, and will also help to keep the bones strong. Walking, swimming, and dancing are all good exercises.

Finally, it is important to get enough rest. When you are tired, your body is more likely to become thin. So make sure you get enough sleep every night.

By following these simple rules, you can keep your bones strong and healthy. This will help you to look your best and to live a long, happy life.

A dance will be held in the Malting hall on April 21st in aid of the Malting hall fund. The dance is a very nice one, and it is a very good thing.

The hall is a very good thing, and it is well equipped with everything that is needed for a community hall. It has a large hall, a kitchen, and a bathroom. It is also very comfortable and well lit.

Grasshopper Situation In Alberta

The grasshopper forecast for
Alberta this year is for an outbreak
covering a larger area than
in 1938, with an extension of the
infested area westward of north
west, and a light and patchy area
recorded for the first time in the
Peace River district.

The range of severity in infestation
over the Province is termed "light" to "very severe" depending
on a great extent upon the growth
and climate conditions last year
and the spring and early summer
weather. The heaviest infestation
"severe" there is a threat of widespread
damage of great intensity,
which necessitates control measures
at the point of infestation in some
areas. Even in the light infested
areas grasshoppers may be expected
to be present in sufficient numbers
to cause definite harm in the
livestock fields. Therefore, the
hopper condition for 1939 con-
tinues to be extremely serious, and
will require that the Province con-
sider its widespread and well-
established campaign to avoid
pestilential damage of crops in large
open districts.

The Provincial Government is
planning to inspect and supervise
the damage of grasshoppers and
improvement districts in order to
control the expected outbreak.
Farmers within the grasshopper
infested areas are required to comply
with the provisions of the
Insecticide Act, and to use the
pesticides in accordance with the
control of grasshoppers.

Communications and Manpower
division is holding public meetings
to receive information and to
discuss the situation with the
Provincial Government.

The Secrets Of Good Looks

By Barbara Lynn

For readers with too little spare time to extend self-improvement, this article contains a daily routine that even the busiest woman can fit into her schedule.

First must come a few vigorous, upward, carried out briskly.

Then your hair needs vigorous brushing, from the roots to the tips.

Chin exercises, as such your face, neck and hands, gentle palmists' soap.

It must with nothing else oil and really helps cleanse, smooths and youthfully your skin. And if you a dip the "to-morrow make up" using Three-Piece Cream, it will give your make-up problems.

You simply cannot afford to neglect your hands. Rub them all over with lotion and then to help keep them smooth and white.

Here is a point you should not overlook, either: put cream on your face, neck and hands, and then to help keep them smooth and white.

Mr Herbert was one of the solo and instrumental. Mr D. Jones who judged choruses, duets, trios and the ritual speech, Mrs. Dorothy L. handled the Folk Dancing and action songs; Mr. Val Carver the recitations and the dramatization to adjudicate. These four did satisfactory work and deserve most of the credit for the success of the day.

Mention must be made of a very fine way the school choir co-operated. In performance and behaviour they showed talent. Those of Bonnyville

The evening program was overwhelming success, although served much too long. The program was billed to meet more than 200, but Mr. H. W. Taylor, the president, opened the performance with a few appropriate words in both English and French. "He proposed to preside at the first lesson in Bionville," he said. "He thanked all those who had helped, especially the secretary for the amount of hard work he had done."

It is regrettable that so many of the teachers and scholars attended neglected to register, and the result we are unable to give a precise number.

Smoky Lake News

Working celebrations took their first effect on the season on Saturday May 27, when a formal dinner of boys and girls sponsored by Mr. and Mrs. Steve Radomsky, our new mayor, was held at the Smoky Lake Hotel. The guests were honored with many lovely gifts, presented to them by their numerous friends. A happy and lasting effect will be expected to be gained by anyone. All of the boys there might be said to be not you.

Farmers Go Home & Stop Your Hogs

As I listed last week we have a trailer in our hands. He signed an application for a share to throw off suspicion and work more effectively against the Co-operative and the Creamery project. Our action is proving so well and expanding so rapidly that some people are afraid that this education is going to put into the hands of the people of St. Paul a weapon that will ward off exploitation. Those people whose lot our tractor is, wish to keep the farmer from slipping, his hogs and cleaning the barns and will do their utmost to keep them out of business. When Poultry sold for 24c the packers took 4c for handling, now poultry sells for 8c and they still take 4c. When cream sells for 15c they took the same margin to make the butter as when it sold for 35c. This is why instead of just picking eggs and milking the cows the farmer wants to get into the packing and the creamery business.

You will eventually know what the clique in that want to Edmonton to make sure the Government would not grant us this Creamery license.

We will have this month our annual meeting and the same day the election of the officers of the Co-operative Creamery.

Schuch - Schulmeister

After ten years of toil and travail wrestling with books and such on old Edward Belam's homestead from down old dark Kasper Schuch has earned a well merited reward. No more soggy bread half baked stew and pea gushes but nice meaty potatoes light white sauce, loved and eaten and given to the King George made by a queen Elizabeth this will be Kasper's bill of fare for the rest of his life.

From extensive enquiry the editor was unable to find out how Kasper ever found time to go on his trip. The ceremony was performed at the R. C. Church three miles distant to town and wed a girl. We charged that he get married because Roman Zellerger his neighbor and fellow countryman had got married last year but Kasper denied this. When Kasper Schulmeister residing 11 miles northwest of St. Paul, because

Mrs. Crook Passes Away At Heinsburg

The funeral of Mrs. Wm. Crook who died suddenly on June 12th following a brief illness, was held in Heinsburg on Thursday June 15. The late Mrs. Crook was born in St. Paul on Nov. 20th, 1879. Married in Washington county, Kansas in January 1898. She, with her husband and small children, emigrated to Poncha, Alberta in 1902 and lived there until 1905, when they took up land in what was then the Buffalo Lake district, now known as Morrow. Again they moved in a town near Lundberg in 1912 and after a short time there moved to their present home in Heinsburg.

The funeral service proceeded from Heinsburg to Frog Lake cemetery. The service was conducted by Rev. Mr. Runde of Morrow, who is a minister at Morrow in the early days knew the deceased and spoke of his acquaintance with her. He gave a beautiful eulogy of her, as we also in this community know her, as an ideal wife and mother who strenuously endeavored to bring up her children with high ideals and left nothing undone for actively advice and example that could further the peace and happiness of her home, and of her extremely kind and sympathetic nature, always glad to lend a helping hand to anyone who might need any assistance.

The pallbearers were six sons of the deceased, Ralph, Billy, Tom, Jerry, George and Max. She is also survived in her loving husband and two daughters, Mrs. C. Kinkor of Las Park, and Mrs. N. Vang of Newry Valley, and their two grand children.

The numerous floral tributes and messages of sympathy were greatly appreciated and showed the high esteem in which the deceased was held also sincere sympathy was extended to the bereaved family in grand children, and from Messrs. Max, Wayne and family, John and Violet, Lee and Leone, George and Zella, Bunt and Oydla, Karl and Helma, Harry, Mervin, Berne and Maxine. The deep love of Morrow, from Heinsburg Mr. and Mrs. Merklyn and family Mr. and Mrs. J. V. Stanley, Mr. and Mrs. Bowtell Mr. and Mrs. F. Steghe, Mr. and Mrs. G. Lawrence Mr. and Mrs. Ineson, Mr. and Mrs. W. C. Robinson, Mr. and Mrs. A. Segal, Mr. and Mrs. B. Kates, Mr. and Mrs. G. Haver, Mr. and Mrs. J. McMillan, Mr. and Mrs. E. F. Olsen, Mr. and Mrs. N. Matheson, Mr. and Mrs. R. Grogan, Mr. and Mrs. T. W. Dufferin, Mr. and Mrs. R. G. Galt, Mrs. Reinbois, Mrs. N. Russell Mr. and Mrs. J. G. Koverth, Mr. G. Olsen, Mr. and Mrs. A. Freeman, Mr. and Mrs. A. Emery, Mr. and Mrs. Dell Ensey and Andy, Mrs. Alice Ingersoll, Mr. J. W. Tomlin, Mr. G. M. McMillan, Mr. and Mrs. D. Ramsey, Mr. and Mrs. G. Ranges, Mr. and Mrs. Van Brown, Mr. and Mrs. G. Frost, Mr. and Mrs. A. Peterson, Mr. and Mrs. J. Nielson, Mr. and Mrs. J. L. Gery, the Troner family, Mr. and Mrs. A. Brown, Mr. and Mrs. F. Fisher, Mr. G. Jones, Mr. and Mrs. Ford Madden.

On the day of the wedding, the ceremony was performed by Rev. F. Regusnik's assistant priest at the R. C. Church three miles west of St. Paul. The wedding celebration, very held at the home of the bride's parents. The happy couple will reside on the farm six miles northwest of St. Paul.

Boys And Girls Charged With Breaking And Entering

A boy of boys and girls charged with breaking and entering in a police court on Tuesday on charges brought by Chief Wm. Rodgers of "breaking and entering" the residence of the river house on the town house. The Chief had the goods on the boys and girls, who admitted that they had entered the house and destroyed certain of the room's other persons. They had reported some damage of goods and helped themselves to whatever they thought they wanted. Very considerable loss was recovered by their destruction.

Magistrate Jackson gave the boys and girls a real good scolding, and told them to be good and not to break and enter any more. They all went to their homes and were very well attended. The boys and girls were very well attended. The boys and girls were very well attended.

A motion was passed endorsing the action of all the boys and girls. It was a step in the right direction. It is up to all the boys and girls to be good and not to break and enter any more. They all went to their homes and were very well attended.

Ninety Metis Families Establish Near Frog Lake

Metis Nation Educated To Be Self Sustaining: Not A Relief Project

Mr. J. F. Dine, veteran Indian leader and educator, earnest from Edmonton, was interviewed by a Journal reporter and made valuable, timely and apposite information was obtained for the St. Paul press, pertaining to settlement of lands, history of Indian Frog Lake and relations set aside by the Provincial Government in other parts of the province.

Mr. Dine has been working the Indians of Keshwin Reserve for years, is highly educated, a voracious reader and speaks English fluently and intelligibly.

His travels between Frog Lake and Lethbridge have been made for the Metis, "and when interviewed, and 100 families are in course of establishing themselves in this area. Taking Lake as a Frog Lake to the north, as also the Edmonton Lake. A school is under construction at Frog Lake, for the education of Metis children.

There are some 30 families at Frog Lake, which is about 50 miles north of St. Paul. We have a growing settlement of Keshwin, at Fort Vermilion," said Mr. Dine. "The planned settlement of the Metis is not a relief project but a self sustaining undertaking and we are trying to educate the natives to depend on themselves for support. Mr. Dine concluded.

Two Great Pairs Amalgamated To Form Best Weekly In The Province

Northern Endeavor To Be Independent Of Politics Says Editor

The Grande Prairie Herald and Tribune have amalgamated and each paper was a credit to Alberta weeklies. The two papers merged into one is now one of the best and most informative weeklies in the West.

The Peace River Record and Northern Gazette will form an excellent weekly newspaper and it is a relief to have the new editor say that the new endeavor will be independent in politics. The new venture has rid itself of the long, boring, uninteresting and unedifying indulged in only by two or three weeklies.

Why do some newspapers make wild and abusive statements? Most of Alberta weeklies still feel the government and its officials deal members and have been trying to hold them up in hatred, contempt and ridicule the past four years. Will these vile sheets, without their venomous propaganda, anti spring, again, in anticipation of an election? We congratulate the new Peace River Record in that it will not require regular copy or newspaper editors of the lower west.

Beauty for YOU
 The Secrets of Good Looks by Barbara Lynn

Do you feel well dressed? Do you feel that you do not look like you? Do you feel that they don't do you justice? The art of dressing is in the hands of the woman who knows how to use her type and how to make it most attractive. Instead of buying clothes because you like them, make sure that they really suit your figure. Here are a few useful hints to help you.

If you are short in the neck avoid elaborate shruglers, high necks, low necks.

If you are short and not as tall as you think you are, avoid long, thin dresses, three-quarter length skirts, short tight skirts, full and trimmings, flared skirts.

Are you large all over? Then avoid tight clothes, full or elaborate trimmings, materials with large designs, flared skirts.

If you are too long in the body avoid short, tight skirts, long skirts, long and broad shoulders, skirts on the short side.

Too long in the neck? Wear elaborate shruglers and high collars.

Add if you are too long round the hips avoid flared skirts. Wear straight cut skirts with a plain center line. Shoulders should be as wide as possible to balance up.

Be in mind that dark colors are always more slimming than light ones. To have confidence in your clothes is the foundation of all smartness. And how and figure money will be largely offset by confidence or clothes that are better if unsuitable.

Remember always welcome to write for confidential beauty advice. Send four one cent stamps for my reply and copy of interesting new booklet on Beauty Care which deals with most beauty problems. Address: Miss Barbara Lynn, Box 17, St. Paul, Minn.

Winnipeg Heats Off Profiteering

Chief Constable George Smith said Wednesday night police are investigating "voluntary reports" of Winnipeg merchants had sold 100 pounds each of sugar at 88 cents.

"We will make the criminal out of the War Measures act when the sugar is arrested," Chief Smith said. "The price is punishable by \$5,000, and imprisonment, or both."

Reports and the merchant sold 100 pound each of sugar at 88. The price quoted by a large department store here Tuesday was 10 to 15.

Canadian Corps Assn. Recommend

Conservation of Men
 Conservation of men power, or establishment of a price stabilization board to control prices and regulate the distribution of goods, is the only way to prevent profiteering from war and post-war conditions, and equalization of service in wartime, were recommended at the first meeting of the Canadian Corps Association in the Manitoba Temple Tuesday night. About 700 members were present.

Resolutions emphasizing suggestions of the association in the crisis, as well as an affirmation of the loyalty of members to the crown and in Canada, were adopted by the meeting.

Ceechs, Slovaks Will Be Loyal To Canada

The National Alliance of Slovaks, Canada and Carpathians, also issued a declaration on Thursday over the signatures of Chairman Steve Radich and Secretary Clerk Doherty, that they have forwarded to Premier King, and read as follows:

HELP IN STRUGGLE
"All Ceech-Slovak people organized in the National Alliance of Slovaks, Canada and Carpathians in Canada, declare that they are loyal to their Canadian homeland and will support Canada with all their power in her present struggle for self-determination."

FOR THE FUTURE
"We want to build our future in Canada, and we feel that while fighting for the Canadian liberty and democracy we fight also for the liberation of our own nation and for the re-establishment of the Ceech-Slovak republic."

Radio Censorship In Canada Now Effective

Ottawa, September 27th.—The following statement was made today by W. S. Thompson, Director of the Department of Justice.

Action was taken to wire microphones from platforms of political meetings throughout the Dominion of Canada, during the period of the war, prior to the enactment of a provincial election campaign in the Province of Quebec, and the Commission authorities had indicated no knowledge that such a situation was possible.

Mr. Atwell is looking for his sister and a brother in law from Manitoba to arrive any day now. They will visit here a few weeks.

The government nurse is glad to see the Deeks' home will have her for a long time.

Derwent Holds School Fair

Annual Derwent school fair was held at Derwent recently with the following schools represented in the big entry list: Angla Lake, Berthel, Derwent, Dean Lake, King Henry, Mary Lake, Mary's, Ryley, Slave, Stanley, Yankin Lake.

Short term scholarship for high school students was awarded to Blanche Sargant of Mary Lake.

Spent some time at the event and noticed some interesting school portraits were on display.

The people who walked in dark coats were a great sight. The military robes of the Derwent may be heard only occasionally by our own citizens. It may take for the track and the school with all the power of God's universe in the face of the truth, so that we may see the truth and know that it is true.

Grave Warning Issued To School Pupils

Teachers Doing Their Duty

U.C.G. Agent Gets Xmas Box

On a mission to the rear zone, the day's school carried away with it the first of the season's U.C.G. and public contributions.

to the fact that the bride and groom are not the only ones who are getting married. People have many wedding dinners in and out of their lives, no time to go to

The principal reason is parents' reluctance that their children take a full, 300- to 400-mile round-trip to be bound to the same small group of people for the next 10 days, even if it is a family reunion.

 When your Christmas baking is for flour be sure to use "Pur it's the flour you can trust—breads, biscuits, cakes, puddings, pastry. Here's my favorite recipe Christmas cake; you'll like it.

CHRISTMAS CAKE

1 lb. almonds	1/2 tsp. pop-o-soda
1 cup mixed peel	1 cup raisins

**ROYAL GEORGE
HOTEL**

The driver told motor mechanics in the garage, when told of the accident run-out with such exclamation: "Aw shucks, LaRue, why didn't you have a real upset, a good distance away, so that one of us could have come out 30 miles

St. Paul Is Third Highest Honey Producing Area In Alberta

10,000 lbs. Produced In Past Season

Inspector L. Maitre of the Department of Agriculture, Edmonton, held a meeting of those interested in the honey industry in St. Paul. About thirty apiculturists attended and showed a keen interest in the address given by Mr. L. Maitre and asked many questions.

Mr. L. Maitre disclosed that St. Paul area had third highest average in the province for the quantity of honey produced and it was excellent quality. Mr. L. Maitre stated that the district had produced 10,000 pounds of honey in the past season, almost twice the average.

Not more than three years ago a meeting was called here for the purpose of having the people take a greater interest in honey. Many thought that the person or persons responsible for leading such a meeting should have been head examined by an alienist.

Assinine Talk Again

"Political discussions have always been spiced in Alberta. Perhaps they take their lead from the leadership of spuds, the absolute kind whose rule in Alberta has been mounted from 1911 to 1931 and 1932 to 1939 on P.W.P."

None one of our exchanges and the above is faithfully copied 13 one of the large papers.

There is no month as regarded by the greater purchasing power and the greater number of people in Alberta since 1931 and the increase in liquor prices. It seems to be a pleasant minor pastime that the some newspapers in take a day at the government. These columns are still devoted against the administration. Our respected exchange talks of "spuds, the absolute kind" and persuades wishes to maintain that the people of Alberta drink more now than they did, and we are led to demand when political discussions are held. Nothing can be further from the truth.

Such a worthy contribution can find something of greater interest than the life insurance of the government's administration of the liquor department. It is then to be political discussion and a political cartoon in next spring or summer. I have asked that we be treated with the same courtesy in the press of Alberta. I carry on my own discussions with a minimum of last play so that the newspapers will not be held up by their readers in hatred, contempt and ridicule. The people are entitled to the truth. Shall we again next summer the fierce and vindictive press attacks we had several years ago against the government?

Wives Who Work Keep Girls Out

So it was planned to see some women taken to task on the above subject. It is very discouraging for a single girl to get work. The firms are not always in want as a big percentage of the women work on for four million men and women on wedding rings. What a lot of people here in the number of married women working. It is in the past good and bad. Some men on the part of these women to want two salaries, and in some cases, good ones, while single girls have no work.

A Mother of Girls.

Assault Lady Two Soldiers Sentenced

Given Seven Years And Six Months of Whip

Convicted of assaulting a woman, J. B. B. and J. C. B. were sentenced to seven years in Kingston penitentiary and each to receive two whippings.

Each whipping, the court decreed, is to consist of six strokes of the lash and sentence.

The crime for which they have been convicted is the common one, in my opinion, of soldiers.

One of the soldiers, J. B. B., was sentenced to seven years in Kingston penitentiary and each to receive two whippings.

OLIVER SUPERIOR DOUBLE-DISC DRILL
and what it will do in your fields—Defies
the fine dust of the Spring Wheat Country

working into square bearings and causing binding has been a problem. Oliver, however, has developed a combination of an effective dust seal and pressure lubrication that keeps dirt out before it reaches the bearing. The bearings are held in continuous alignment to form a perfect joint to cut the furrow at the soil line. Oliver does this in three methods, providing disc levels that exactly match. The curved parts that always hold the discs in proper alignment result in that this Oliver Drill plants your crop as you want stands hard conditions and improves your yields.

Municipal Clerks Important

The clerk is a great majority of cases is the man who really keeps the machinery of a municipality in operation. Every year or so new men are elected to positions in the council. They must receive instruction from the clerk, from someone, and this person is usually the clerk. A councillor or alderman is moved up to the revealing of the mayor's chair and he is a good council.

MODERN STORE For St. Paul

Co-operative Forges Ahead

The usual postponement of our audit to suit the schedule of our auditor has delayed our statement to the usual date. But our figures show already a very large improvement for the year 1939 as much that for the first time we have achieved a pretty full cash fully paid. We have not as yet any cash reserves lying in the bank but we will have at the end of the present year, figures progressing as they are.

But our members feel crowded and it has been decided to build. The plans are ready for inspection at the store and the plan for the financing of these are for discussion and improvement.

We wish to start doing the business in March and carrying on in April with the digging and the cutting of the cement floor for the farmers' pit on the lot. Every farmer and consumer wishing to do so will be allowed to work at 35¢ an hour, 50¢ with a team, 85¢ with two teams. sand and rock at 10¢ per yard. The amount earned will bear interest at 5 per cent and will be repaid within two years. After the roads are gone for clearing and the land is left for work, this co-operative effort will not make anyone less valuable than it will build a structure that will be a credit to the co-operators of St. Paul. Next week we will outline the divisions of the buildings.

Register now at the store the time you may furnish, the lumber or the gravel or the cash you may loan to the enterprise.

You do not want to go back to the Liberals. You do not want the Conservatives surely you do not want either of them under a new name: Independents.

You do not want the meaningless Social Credit Promises \$25.00 per month, Interest Free Loans, Fast Price, Reduced, Cultural Heritage and many other hair-brained policies that everyone knows are unworkable before they are tried, that Federal Gov. always hinders-try say. So you should work the workable plan of the C.C.F. Run the oil wells, packing plants, cement plants, power plants, salt factories etc. under the ownership of the Province and reduce or cancel our taxes by the profits realized on the operation of these profitable industries. The present scheme of Alberta made goods is just to make the farmer raise more boots etc. below the cost of production and thereby increase the revenue of the "fifty big shots".

Large Crowd Attends Liberal, Independent Meet.

J. M. Dechene, Senator Blain and Others Address St. Paul Audience

A large gathering assembled at the Parish Hall, Monday evening, to hear the Senator Dr. Blain, J. O. Binette, independent candidate for St. Paul and Joe Dechene, federal liberal candidate for Athabasca.

Mr. T. C. Ashworth was chairman and opened the meeting promptly, calling first on Mr. Tingle, rising young attorney of this town, who urged the people to support men of the integrity and calibre of Mr. Binette, the independent candidate for St. Paul constituency. Mr. Binette urged some constructive measures of debt reform and an all weather highway from St. Paul to Cold Lake and into.

Mr. Binette stated he had been selected by a convention represented by liberals, conservatives, social crediters, independents.

"I accepted, said Mr. Binette, as to try and help to place the province on a better footing."

Municipal District Enlarged School Unit And St. Paul Co-op.

We made a minor error in last week's advertisement. The price for a man and 4 horses will be 70¢ per foot. Also the price of rock and sand will be the ordinary rate according to distance where such is available.

We have good news. The Municipal District and the enlarged school unit have decided to build co-operatively with us and so save on construction and be through central heating. The building will then be 100 feet by 50 feet deep. The basement will house the Restaurant, the Bakery, the heating plant and the Hall for our meetings. The ground floor will have the store proper. The old building will house the commodious and rich with a special room where the farmers will show the rag out of each of delicate meat. We intend having a complete water system and water holes for the public.

Our co-operative business shop on the ground floor and the strong of customers to be the cold storage plant will indeed appeal to many and will be a start in the service a community should provide for itself.

Give your names for work and material and share in this enterprise.

St. Paul Co-op.

Bella News

Beila, March 3. Special to St. Paul Journal.—A large number of people here today, H. H. Houthill and C. J. Stimpel, both candidates for federal and provincial riding, spoke for about three hours explaining the platform of C. C. F. John Low-which was the chairman. The people, especially the farmers went home very satisfied with the program of the C. C. F.

Mr. Houthill was the former organizer for a few years, working for producers class C 2; Stimpel, an old horse, of late, D. F. Kellner supporter on the Farmers' Movement for 20 years.

Hon. L. Maynard, spoke at Beila School, north, with Anthony Hynka, federal candidate of S. C. P. Hynka map not get the support of many, for reason that he was against the farm organization, especially tied to their people, times and conditions. Their creed rivals that of any present government. Their motto was "Ride well, short straight and speak the truth."

For the Good of All

Blackheads and coarse pores seem most prevalent, so some hints on their treatment will be of wide interest. These complexion are usually caused by: impurities caused by the use of an acid conditioned the blood and external, causing closed skin pores; too much of the diet, and the accumulation of grime of modern life. Prevention being better than cure, watch these points:

Equine Encephalomyelitis
(Sleeping Sickness)

An outbreak of the disease may occur in Alberta this season.

VACCINATION
with Chick Vaccine is the only preventative.
PROCEDURE:

1. Vaccinate before weeding.
2. Two doses are required, given seven to fourteen days apart.
3. The Vaccine is available at Drug Stores, or may be obtained from Veterinarians, and some Municipal Districts may handle it.
4. If a qualified Veterinarian is not available, the Vaccine should be administered by some other person trained by a Veterinarian. Farmers wishing to do so may obtain a syringe and learn how to vaccinate their own horses.

Vaccine is effective only when administered prior to the outbreak of the disease.

Vaccinate Early!
The Department of Agriculture recommends vaccination as an insurance against loss.

Change Is Due

Mr. C. G. Milne of Cold Lake, the C.C.F. candidate for the Provincial Constituency of St. Paul, was in town Monday night, March 12, to discuss his nomination papers. Mr. Milne is optimistic about the result of the election as he feels that the people realize that change is due and that the C.C.F. has a platform that will improve conditions for the people.

Mr. Milne is a young married farmer, now residing at Cold Lake. He knows the conditions of the people in general and particularly the needs of this constituency. He is well known in base-ball circles as a pitcher and is a sports enthusiast.

Lake Eliza

Lake Eliza Junior U.F.A. makes plans to send delegates to the Young Farm People's Week, University of Alberta, June.

The monthly meeting of the Jr. U.F.A. Branch of Lake Eliza took place on Saturday, March 2, in Lake Eliza School. The meeting was attended by about 10 members who took a number of important steps to improve the social, educational and organizational life in the community. Two important purposes of a junior branch is to train the youth for good citizenship and leadership. To fulfill these tasks, Alice Johnson, Bert Chamberlain, Edward Seiko and Mary Zalesky delivered short but interesting talks on various youth problems.

The meeting also favored the Junior Branch meeting together with the U.F.A. Local purchase a projector. It is felt that in the future at such meetings, an educational picture be shown.

Another highlight of the meeting was the decision to send a number of delegates to the Young Farm People's Week, University of Alberta, June 5 to 12. The next monthly meeting the Branch expects a speaking engagement. The best speakers shall be recommended to attend delegates to University Week. Be sure to attend our next meeting.

War Costs and How Are We Going to Repay Them

Sir: I would not be true to the cause of Social Credit if I failed to reply to your editorial of March 1. I should like to point out that taxation and borrowing have not succeeded in settling the debt which the last war has left us. We have paid off more than we borrowed and we still owe more than we borrowed, both here and in Great Britain. How can we pay off the debt which will be created by the present war, which was increased yesterday in Britain by \$1,355,000,000,000, if, after paying for 22 years, we have not reduced the indebtedness by a single dollar? The real cost of any war, of course, is the energy, blood and tears that are involved during the duration of the war. When the war is over, the costs have been paid, in full. Any debt that remains is caused by financial manipulation and would not be allowed under a Social Credit system. Yours, H. E. Nichols, Clyde.

Manion's Greater War Effort Meets A Crushing Defeat

King Government Obtains Nearly 200 Liberal Members

The proposed National Government of Dr. Manion will get more than 45 members in the 245 Dominion Constituencies.

Not given much time to collect his wits and his party followers, the Conservative leader expected to launch a coup de grace to the supposedly tattering and weak adversary. And W. D. Herridge had already killed all opposition to the King government in his all too famous kindly speech. The voters cannot be inflamed by impassioned speeches any more as they have been fooled too often. It is regrettable that the federal Social Credit members allied themselves with the Herridge one-man group. They would have done far better off their own bat.

Thus Sir King's so-called political strategy got the pulse and feeling of the vast majority of the people of this democratic Canada.

The opposition was ill-prepared and presumably ill-adviced. Dr. Manion changed his name from Conservative to Athabasca, who was elected Union and then National government. Incidentally the same by nearly 100 majority over position to the Aberhart government here made the same. Percy Ross C.C.F. and Wm. Ross of things political by adopting the name of Independent-Hayhurst, New Democracy, etc.

Lucky Soldier Receives St. Paul Journal

To the Editor: The other day the Canadian mail came in our boys from the home town. One of the lucky fellows got a bundle of St. Paul Journals. In one we read that a certain young lady gave a party for the safe landing of her dear husband. We were wondering if the people at home wouldn't enjoy reading about the parties we have here and the grand times we have. It was only the other day that

this corporal, (the lady's husband) was seen with a gorgeous blonde. This led to going around most of the time talking to himself, though, because the blonde is too expensive here and is harder to get than our dear French girls at home and nearly as good company, either.

Owlseye

Ashmont Presented A Three-Act Comedy

The Dramatic Society of the United Church of Ashmont presented the three-act comedy "Aunt Tilly Goes to Town" in the Owlseye Community Hall, on Friday evening, under the sponsorship of the Owlseye United Church Ladies' Aid. The hall was filled to capacity with a most representative gathering of the community when the curtain rose at 8 p.m., and throughout the play the repeated applause of the audience testified to the great enjoyment everyone was deriving from the performance. The various parts taken by the players were presented in a fashion which would have done credit to professional actors. The Rev. Collett, U. Church Minister, was the director and also took part in the play. At the close of the evening, before the last curtain, Norman Slater, chairman, thanked the friends from Ashmont for the most excellent entertainment which they had given that evening. He also, on behalf of Mrs. Hvedsten, President of the Owlseye Ladies' Aid, thanked the community for its splendid support. The evening was then brought to a close with the singing of the National Anthem. The Ashmont visitors were afterwards entertained to lunch by the Ladies' Aid at the home of Mr. and Mrs. T. Riklund where a company of over thirty enjoyed a brief visit before finally returning home.

Napoleon and Hitler

I would rather have been a French peasant and worn wooden shoes. I would rather have lived in a cabaret with a vine growing over the door and its grapes growing purple by the kisses of the autumn sun. I would rather have been that poor peasant, with my wife by my side knitting as the day died out of

the sky, with my children up on my knee and their arms about me. I would rather have been that peasant and gone down to the tongueless silence of the dreamless dusk than to have been that imperial impersonation of force and murder known as Napoleon the Great at the tomb of Napoleon.

Is Appointed

OTTAWA—Harry Albert Scott, formerly Canadian trade commissioner in Liverpool, Buenos Aires, Shanghai has been appointed secretary to the supervisory board of the British Commonwealth air training plan. This board includes representatives of Great Britain, Australia, New Zealand as well as Canadian officials.

Committee Appointed

The committee appointed at the largely attended meeting of Co-op shareholders last Saturday was Victor Tester, Louis Lefebvre, J. Jos. Turcotte, Mr. Fontaine, agriculturist, headed the list. It is due entirely to the grain cleaner (as Mr. Wood's Chop Mill, St. Paul, sent, before seedling are advised to bring it to the chop mill.

Drop Us A Line On Your Activities

Your joys and sorrows, your "comings" and "goings" are of interest to others. If you have returned from a holiday, entertained visitors, suffered a loss or experienced good fortune, please write. The St. Paul Journal is anxious to get this wholesome news.

List Revised

We plead justification for having clipped a number off our list. We hope their hearts will not palpitate so as to cause some fatalities, so that we shall have to send Mr. Spruhan and the bearer. It is due entirely to the grain cleaner (as Mr. Wood's Chop Mill, St. Paul, sent, before seedling are advised to bring it to the chop mill.

Beauty for YOU
The Secrets of Good Looks by Barbara Lynn
Few women give their hair sufficient brushing, yet vigorous brushing is the answer to most hair problems. Use a brush with strong bristles. Don't worry if you lose a few strands, for every head sheds a few strands every day. Brush away from the parting right down to the ends. A good thing for a greasy head is a permanent wave. This tends to dry the surplus oil and generally effect much improvement.
If you have dry hair, massage it gently with warm olive oil. Dress it with brilliant time to impart a gloss. Dandruff is obnoxious and embarrassing. With constant care it can be cured. Get a good hair tonic and massage the scalp two or three times a week. How many women fail to keep their hair clean? The hair should be shampooed at least once a week. There is a healthy new shampoo, that is equally good for normal, oily or dry-looking hair, and it makes the hair radiantly clean, leaving no dull film. Halo shampoo is simple to use, too. There is no excuse now, for any woman to have dull, greasy-looking hair. Don't forget to give your hair an extra hand brushing before washing. Don't ever dry your hair close to an open fire or a stove; the heat is likely to weaken and break the hair. My booklet on Beauty Care tells you about this and many other luxury problems. Large Votes For Alberta Roads

With around \$20,000,000 voted by the provincial government for roads and bridges, other maintenance or new construction, during the present year, there is confidence in motor club circles that the program will be extensive. Provincial authorities, it is reported, intend to press Ottawa to augment the provincial grants for road purposes. The plan is to develop the highway, east of Edmonton, and the Trans-Canada highway, east of Calgary, should see some major improvements this year. While road work may be delayed somewhat owing to

Romance Of A Little Orphan

To the Editor: The little principality of Montenegro is of small area but of great value and integrity. King Nicholas was the last of the great princely monarchs to whom the humble peasant had access. The cry of the resistance of destiny-productive of example stories and sorrowful memories.

The foundations of civilization are being slowly destroyed by forces which know neither law nor justice, neither truth nor honor. The weak must succumb to the strong, and there is little justice for the smaller nations. Their appeals for justice are met with sympathy, or the silence of a selfish world.

It was the first winter of the Great War that a little girl, age 12, was walking along a road near Plevlje in the Sanjak of Novi Pazar. She wore wooden sandals and was poorly clad for the bitter cold. Her habituation was a last whose only furnishings were two pieces of sack. How the little one survived was a mystery. It was a great day in the life of the little orphan when Sava, the interpreter, brought her into the Military Hospital where she was offered a temporary home.

It was a busy year at Plevlje with its steady stream of sick and wounded from the battle fronts. The little orphan, always busy with her work, was a model of the deportment, dignity and reserve which characterize the women of Montenegro.

December came again with frost and snow. Like a bolt from the blue came the news that the enemy had snatched through the defence of the Drina, and the place was to be evacuated in 12 hours.

Few things are more terrifying than the suffering of a winter retreat with death and destruction on all sides. The great Serbian retreat was on. Little Jelavna begged not to be left behind. So she went out. Jelavna and I. There was not much to eat and we slept in funny places, about your own problems too. Address: Miss Barbara Lynn, Box 75, Station B, Montreal, Quebec.

THE WHOLE WORLD
SPINS
ALMOST every country the world over carries on its own
spinning and weaving. So there is nothing surprising in
the fact that textile manufacturing is one of Canada's largest
sources of employment, providing jobs for 21% of our industrial
workers.
But it is worth mentioning that the International Labour
Office at Geneva classifies our own textile industry with that of
the United States as paying the highest wages in the world's
textile operations. Japan is at the bottom of the list.
Dominion Textile Co. pays its thousands of workers 22.7%
more than in 1929, while sales prices are 16.2% lower.

Canadian Legion is doing
about the alien enemies in
our midst.

You will have noticed in the

Parent-Teacher Association
Honored By Lecture Of
Watson Thompson,
Noted Educator

An opportunity to learn
liberty of the British Em-
pire was afforded the pa-
rent-teacher association meet-
ing in the parish hall, Friday,
May 17th. Mr. A. T. Brown-
man was the capable chair-
man of the gathering, while
Mr. A. Gourdin filled the
secretary's chair.

Introduced by Mr. H. Bo-
bert, Watson Thompson
with his cool, collected and
interesting manner of speech
told us the history of the
evening. Mr. Thompson told
of being a veteran of the 1st
World War.

When co-operation and
good fellowship came to ex-
tend in communities or among
nations, then trouble-
quelling starts in the com-
munities and a state of war
prevails between nations.

Mr. Thompson urged a good
neighbor spirit among the
people of the communities
first, then among nations,
saying that he had a
strong feeling that the first
must exist before the second
could be gained. He con-
cluded by saying it seems that
Mr. Thompson spoke of war-
fare; what do the people
want?

It is not fair to say that
we are entirely right and the
Germans all wrong, said he.

Boy Wonder
Moulted - Completing about
10 musical compositions in
the past four years, 10 year
old Andre Matthews has been
described as a miracle of piano
technique. The prodigy
began composing at the age
of two. "For rhythm, intona-

young Matthews is compar-
able to any of the renowned
virtuosos of the world today,"
said Wilfred Charvat, con-
ductor of the LaSalle sym-

Gasoline Economy

For several days British Columbia motorists were unable to purchase adequate supplies of gasoline and that commodity had to be carried fully hounded. Car drivers soon learned that the most economical rate of speed for a motor car is from 25 to 30 miles an hour. It is conceivable that the lesson will be main with many drivers in that province and will result in moderate driving.

The majority of motor car accidents are caused by an excessive rate of speed. The modern car is so perfected that it can maintain a speed of better than a mile a minute while the occupants are not subjected to rough jolting. But there is a continual menace of life and property in such speeds. If motorists would cut the speed of their cars down to an economical level not only would they find that a considerable saving in gas would result but there would be a decided decline in the number of motor accidents. It is much better to go a little slower and save an enormous amount of grief. *Brooks Bulletin.*

Wedding

A very pretty wedding was solemnized on May 19th, when Alice Emma, daughter of Mr. and Mrs. Ennis Bromley, was married to the son of the late Melvin Lotberg. The bride was attended by her sister, Miss Daisy Bromley, while Albert Lotberg supported the bride. The marriage was performed by the Rev. L. M. Hanson. The bride was dressed in lace over white satin with golden slippers and wore no veil. She wore a bouquet of white carnations. The bridesmaid was dressed in white satin with pink sash and bolero and wore a bouquet of pink anemones. Mr. R. M. Sherk sang "I Love You Truly." After the ceremony there was a luncheon in the community hall attended by over 100 guests. The young people received many beautiful and useful gifts. Vocal selections were rendered by Mrs. Esther Smith, the Misses Margaret, Ellen and Mildred Knight and Messrs. Miano and Sherk. Mrs. Sherk acting as accompanist. The young couple will reside at Glendon.

Fiords Of Norway

Norway, land of the Vikings whose exploits are recorded in Norse sagas, including that of Eric the Red who described the discovery of America in 1000 A.D., was until 1814 a province of Denmark and from then up to the signing of the present century a protesting partner of Sweden, when her inherent spirit of independence gained its long sought freedom which she now fights to preserve against vandalism.

Lake Eliza News

The St. Paul Farm Youth council are planning for a big dance in Lake Eliza hall, on Friday, May 31. J. B. B. orchestra will be in attendance. The proceeds will go towards the youth congress delegate.

Lake Eliza girls have formed a softball team. Mike Hawick is coach, and he hopes that the girls will make a big hit this summer.

"Sweet Adair"

By Rene Bruneau
Sweet Adair, say dearest one you'll be there,
Waiting for me, under the starry skies;
For the night was made for our love to share;
A tender love that never dies.
Sweet Adair, tell me sweet-heart, you'll be there,
Night and day yearning for my returning.
My darling if you care,
Sweet Adair, I'm hoping that you'll be there.

Tribune Urges U.S.A. To Enter Into The War

NEW YORK.—The New York Herald-Tribune said yesterday that "it is quite possible" the least costly solution for the United States against the inevitability of a Hitler victory "would be to declare war on Germany at once."

In a lengthy editorial entitled "What Real Preparedness Means," the newspaper said the invasion of the low countries "has blasted two tremendous facts into the American consciousness with a vividness and immediacy not achieved by the last months and years."

The first fact, the editorial said, "is that Germany may win this war," and the second is that "the German war machine is a thing as powerful as it is hidden." After outlining German methods of warfare, use of treachery, espionage and "Trojan Horse" tactics, the Herald-Tribune said the only opposition to the Nazis is the young people of the United States. "Force having every sense of national energy, unity and resourcefulness."

Warning against the United States shutting its eyes to these facts the Herald-Tribune went on:

"We have initiated every error of the European democracies too slavishly already. We must face the future and prepare for it now."

New Doctor For St. Paul

Owing to the enormous duties imposed on Dr. Deuster by the removal of Dr. Nykiforok to Edmonton, a new doctor intends to start practicing on June 1st and may have his office in the Elsie Theatre block formerly occupied by the town clerk to declare war on Germany at once."

Communism Illegal

Mr. Justice Chevier of the Ontario supreme court declared the Communist party of Canada to be "an illegal organization."

The judge's decision came after he had sentenced three Ottawa youths, convicted of publishing and circulating anti-war pamphlets to prison terms.

Baby Burnt To Death

Parents Absent
COLD LAKE. Sleeping baby, Isabelle Louise, daughter of Mr. and Mrs. R. Grandmaison, was burned to death when fire destroyed the family's home.

Mr. Grandmaison was away at the time and Mrs. Grandmaison was a short distance from the house when she noticed the flames. By the time she reached the dwelling it was a mass of flames and she was unable to reach her baby.

The Red Cross Branch will help to re-instate the family, which lost all their belongings in the fire.

Elk Point Pupils Present Recital

On Saturday afternoon recently Miss Ida Markstad presented her pupils at a recital attended by parents and friends. Those who played in the recital were, Nora Wolfe, Deana Casky, Evelyn McQuillan, Gwen Wolfe, Jean Ross, Elita Cromwell, Bob McQuillan, Richard Miller and Doris Markstad. The audience was impressed with the ability shown by the young people. A dainty luncheon was served by the hostess.

Small COUNTRIES SOMETIMES DISAPPEAR!!!

HITLER AND STALIN are teaching us that it is dangerous to be a small country. No one Canadian province might long be able to stand alone. Together we are Canada, a name of pride and some security in world affairs.

Much of our economic strength lies in our wide variety of industries. A powerful agricultural country, we are also strong in our manufactures, forest products and metal.

Textile manufacturing is part of this variety of effort. It employs 21% of all Canadian industrial workers and provides 13% of the country's net industrial production.

Polish-Canadians Said Ready Fight

Thousands of Polish-Canadians will be ready to offer themselves for active war service overseas if opportunity is given, declared John Lis of Sault Ste. Marie, an address in English presented to Hon. J.C. Bowen, lieutenant-governor of Alberta, at the celebration Sunday of Polish constitution day.

Declaring many young men of Polish descent already have responded to the call in the present war, Mr. Lis expressed the hope that such an opportunity was given in the first great war might be extended again.

Tent Caterpillars Are A Menace

This year of all years the Canadian people will have to be on the lookout for the destruction of insect pests. Our forests will have to be preserved as never before.

One of the most destructive pests is the tent caterpillar. An epidemic of tent caterpillars is a spectacular event. The trunks of trees become covered with hairy masses of caterpillars, eating up and down or climbing motionless, apparently to take a rest between feeding periods. After defoliation the trees in one area, the caterpillars descend to the ground and crawl in enormous numbers, often for long distances, in search of new sources of food, leaving behind them a forest as leafless as it would be in winter. In their migrations, the larvae may cause considerable inconveniences to travellers, campers and woodmen.

French Press For Britain

In a leading article entitled "La Grande-Bretagne" "Le Temps" (April 15) states: "The remarkable exploit of the British fleet have put an end to the legend of the German invincibility. They have quickly destroyed other legends that the enemy propaganda has been trying to build up in order, vainly, to shake the Anglo-French entente and shake the confidence of all free peoples in the resolution and determination of Great Britain. The lie of irreconcilable British decadence and that lie, that England was making French people fight the egoistic British interests, will no longer serve, not even in the eyes of the most ignorant among the masses."

"The British people are still the same as they have been in the greatest hours of their history; they are fighting like the French for the ideal of liberty and justice."

War Of Extermination

VATICAN CITY.—Vatican newspaper, L'Osservatore Romano, recently charged Germany with waging a war of extermination against innocent civilians and dropping spies from the skies in contravention of all international law.

"No ultimatum and no declaration of war was presented to Holland, Belgium and Luxembourg," the newspaper said. "At dawn of May 10 open cities and civilian population of these neutral countries were bombed and hundreds of victims taken."

The Vatican newspaper accused Nazi parachutists of "wearing uniforms forbidden by the Hague convention," and justified the Allied order for the death penalty against German soldiers in uniform other than those of their own armed forces.

Protection On Canadian Shipping

OTTAWA, May 17.—An appropriation of \$1,700,000 under the War Measures Act for the acquisition of vessels for the protection of Canadian shipping has been made by the Dominion government, according to an order-in-council tabled in the House of Commons.

Alberta Fourth Silver Bullets

Grange values of commodities produced on Canadian farms during 1939, was estimated at \$17,794,945.00 by Dominion Bureau of Statistics. This represents an increase of 104,000 tons or 102 per cent over the 1938 value of \$16,139,000, following Ontario, Saskatchewan, and Quebec in that order.

Small Amount

Alberta has received only \$75,476 in war orders out of a \$160,000,000 granted to it. It was revealed that the information was supplied in the Ottawa House of Commons by a question by E. J. Hanson, (N.D.) MacLeod. It is understood that the major part of the war orders in Alberta have been for food supplies. Some blankets have been bought.

Careless Children

OTTAWA—Arrangements for fullest co-operation in relieving and placing thousands of refugees and children have been reached by the Dominion, the Provincial, Child Welfare and other organizations. Arrangements to this effect was made recently by Hon. T. A. Crerar, the British and French governments have yet to agree to the immigration.

What Net By Way of Taxes?

QUEBEC—Sweeping powers of taxation will be granted Montreal if a bill giving first reading in the legislative assembly becomes law. New taxes under the bill include a \$2.00 annual income tax on radio receiving sets; a monthly impost of 25 cents on telephone sets; and a war tax of \$3.00 per year on automobiles. A Cheerful Letter

June 5th, 1940.
Mr. LaRue,
St. Paul Journal.
Dear Mr. LaRue:
My husband and myself are so kindly to please forward us your copies of your Journal. You have no idea how the home paper is a thing one loves, especially when far from home. We'll renew our subscription and please don't forget to send the paper.
Fill up my local to bring me and my kids to the staff and people of St. Paul for us all.
I am lonely and hope I can get used to the noise, clutter and here, there's a constant flow of people and I often wonder where they are all heading for. Well, Au revoir, Sincerely,
Irene C. Deane,
8259 Rue St. Denis,
Montreal, Que.

1938-39 Hog Comparison

Mr. M. Fontaine, Dist. Agriculturist,
St. Paul, Alberta.
Dear Sir, In reply to your letter re grade comparison between 1938 and 1939 swine receipts. Comparing crop district 15 to October 31, 1939.
1938 Total Sels. Inc. Hys. Lts. \$'s Sows & Live G. 3896 1222 1878 522 88 - 18
Live G. 3896 1222 1878 522 88 - 18
Percent: 32.2 sel., 32.4 B., 24.4 B., 34.4 B., 10.4 C.
1939
Live G. 3428 1101 1555 785 81 88 9 22
Live G. 3428 1101 1555 785 81 88 9 22
Percent: 32.2 sel., 32.4 B., 24.4 B., 34.4 B., 10.4 C.
You will notice that there were approximately 1 per cent more sows in 1939 and approximately 1 per cent less grade: 8.2 per cent more bacon 5 per cent more P's and 7.3 per cent less butchers.
The people are certainly misinformed if they consider grades are not as high as in 1938.
I would advise you to warn the farmers not to over-finish hogs and market as near 200 lbs. and not over 220 lbs. home weight.
Yours faithfully,
S. W. Sheppard, St. Markets Supervisor.

Old-Timer Passes Away

Mr. Joseph Marsh, 76
Joseph Marsh of Foley passed away at his home on June 2nd, at the age of 76 years. He is survived by his wife, four sons Henry, Albert, Edward and Ben, all of Foley, and three daughters, Mrs. J. D. Foley, Mrs. Tomkins of Vancouver, and Mrs. D. D. Duverson. He is also survived by eight grand-children and two great grand-children.
The late Mr. Marsh was born in Great Britain, in 1864. He moved to Glencoe some years later and from there he came to Edmonton in 1888. He was one of the many old settlers who helped transform Edmonton to the city it is today.
The deceased was a man who had a wide acquaintance among the older people in this part of the country. Funeral services were held at the home at 2:30 p.m., at which Rev. Collett of St. Paul officiated. Many friends and neighbors joined the relatives at the last rites.

Condoms Are Better

Although Western Canada was not fully recovered from the disastrous years of 1930 and 1931, it has shown a much encouraging recuperative power, the Canadian Manufacturers' Association reported. It was pointed out that the outbreak of war brought a widened field of activity. The excellent crop last year brought a better tone to business conditions and prospects for business and industrial activity look better now than for many years.

Glendon

Rev. Karp Hryciuk with Mrs. Hryciuk and family left on Tuesday morning for his new pastorate in Toronto.
Mr. and Mrs. R. M. Sherk took in the bargain rate excursion to the city on the 14th. While in Edmonton they attended the final basketball game and play by the Edmonton Commercial Grade on a Wednesday night.
Mr. and Mrs. Stewart spent last week in Edmonton.
Eva Sadowski is spending a holiday with her parents at Derwent.
The Women's Institute met at the home of Mrs. Ed. Duffy on Saturday afternoon, June 8th.

Lapointe Names

Announcing to the common Wednesday the following of various organizations, under Defence of Canada regulations, Justice Minister Lapointe said those affected included:
Austrian organization of the National Socialistische Deutsche Arbeiterpartei, Deutsche Arbeiterpartei, Canadian Social for German Culture (Deutscher Bund für Kanada); National Union Party; Canadian Union of Fascists; Communist Party of Canada; Young Communist League of Canada; Canadian Labor Defence League; League for Peace & Democracy; Ukrainian Labor - Farmer Temple association; Finnish Organization of Canada; Russian Workers' and Farmers' club; Hungarian Workers' club; Croatian Cultural association; Polish People's association; Canadian Ukrainian Youth Federation.
The new regulation also provides that if it is proved an accused person attended meetings of an illegal organization, spoke publicly in aid of the cause, or distributed literature, he shall be presumed to be a member, in the absence of evidence to the contrary.
Another amendment to the regulations designed to strengthen the hands of the R.C.M.P. provides that all communication officers of the R.C.M.P. shall be justified of the peace for the purpose of issuing search warrants.

At South River, Ontario, two men have been arrested for having been members of a mob which attacked and beat a German-born shoemaker and his wife, wrecked their home and stole their savings. It is to be hoped the rest of the gang will be gathered in, and all punished as they deserve. There is no excuse for introducing Nazi methods into Canada.
The shoemaker and his wife are both naturalized Canadian citizens of nine years standing. Incidentally, the man is a cripple. Being Canadian citizens, they were as fully subject to common law as anyone else. If the neighbors knew of any reason why the couple should be prosecuted they should have told the police, or entered action against them. The inference is they acted on suspicion.
Albertans should be thankful the incident happened in another province. Ontario, which claims to give full rights to all other provinces, has been put on trial, and will be judged by the public as it merits out of these lawbreakers.

Oldtimer Passes

Mr. and Mrs. H.A. Traxler returned on a Monday from Vancouver after attending the funeral of Mrs. Traxler's father, W.J. Plant. Mrs. Traxler had just returned from visiting her father who had been in ill health for a month, but was thought to be out of immediate danger. Mr. Plant was one of the few remaining pioneers of the early settlement. He came to the N. W. T. in 1880 and settled near where the town of Kinistota, Sask. now stands. One year later he brought his wife and three children out from the Hamilton, Ont. and settled on the land where six other children were born. They lived there through the Red Rebellion and he took much delight in recounting the interesting events of those days. He hauled all the provisions from Winnipeg with oxen and on these trips met and made the acquaintance of many of the old timers, among them were Frank Oliver and D.R. Fraser. Twenty-five years ago he retired from the farm and after living a year in Kinistota, moved to Vancouver where he lived and enjoyed good health until the beginning of 1940.

He died Sunday morning, May 28th, at the age of 89 years. Mr. Plant is survived by his wife, Mrs. Traxler of St. Paul, his widow who is 88 years old, two other daughters Mrs. Dr. Frank Anderson of Vancouver, Mrs. Captain A. Deacon of South Edmonton also four sons.

Epidemic Of Wild Rumors

In Great Britain, good officials are complaining of the seriousness of individuals in starting false and foolish stories, and the same complaint can well be applied to Canada. There has been an epidemic of these wild rumors lately and some of them have not been accidental. We heard one day that the war had no go to speak and that Canada was to have a general shake up in the cabinet. Other stories are to the effect that the country is over run by 'Fifth Columns'. All these alarms are false and are being spread by cheap politicians for the purpose of making political gain at the expense of the war effort. Conspiration is as senseless and senseless as it was at the time of the elections, and the government, premier or cabinet ministers are no more likely to resign than the day they were elected. A d. nobody wants to resign except the few 'Fifth Column' politicians who want the jobs and salary for themselves and don't care how they get it, even by sabotaging the country's war effort. The people of this country are the overwhelmingly loyal and the R.C.M.P. have Hitler's paid agents well in hand. Fascist dreamers would get poor reception in Canada.

Mobism Doesn't Help

Milk cannot be sold for less than 11c a quart in Edmonton according to law. How many babies are deprived? Here in St. Paul milk sells for 12c a quart. Healthier and more robust babies here as a matter of course. A man was haled in court for selling milk for 10c a quart in the city.

Rain water is soft and fresh and will help you to a fresher skin beauty. So put a bowl on your window-sill to catch the rain, and wash yourself with it regularly. How few face washings with water beauty treatments. For normal skins, here's a good teaching treatment. Tie up a handful of good quality linen in a small bag and leave to soak in about a pint of rain water for an hour. Squeeze out well when you remove it. Pour a little of this liquid into a saucer and add two drops of tincture of benzoin. Smooth this in a creamy lotion into your face and neck at bedtime, leaving it to dry.

Alvin Bedard Has Car Stolen

Alvin Bedard's Ford was stolen from in front of the Auto Wreckage (old Bank of Commerce block) and was stolen from the City of St. Paul early Tuesday morning.

The thief is alleged to be Edward Peters of Bonnyville, Alberta's car does not look and it was easy to get into it and vanish to Edmonton.

Bedard was away from a motorcycle police saw a car ahead of him plough into the ditch and a man got out and ran.

The police called a hawk and took the eighteen year old boy into custody.

St. Paul plates are H-5. So it was easy to phone H.C.M.P. here and find the owner.

The car is badly damaged to the extent of over \$250.

The Weather

The heavy rains of last week for want of food, but Tuesday and the heavy local lack they devour one another of Saturday were other. Definitely, there have been no hardy sunshines of June yet. There are grasshoppers here, Monday and Tuesday here that the oldest settlers have dried up the roads again can recall. There were a few and the crops are shooting up, tent caterpillars in 1935. The crop is a little late here, have that stripped some popovers. I don't like to bark but they never come back to two or three years back, the periodic warlike guys when weather-wise, of bug-professors notwithstanding, but by gum we read in the Atlantic paper dry desert and that, caterpillars are stripping caterpillars would crawl there. We hope it and hoppers would hop all won't be serious.

Democracy or Despotism - Which?

The War Savings Commission for the Alberta has adopted a slogan: Democracy or Despotism - Which?
The seventy-third birthday of our Dominion is with us and we begin to realize that after a brief national life we are faced with the alternative of such a thought. Democracy or despotism? Even yet they sound to us more like words than realities. Only in recent days have we been faced with the question: Which is to be our destiny?
Democracy is a system of life which we are trying to build up. Man has not yet made his house perfect and democracy is a succession of experiments in liberty of thought and of action. It is for this faulty but noble conception that we have to fight. Despotism is that which has cast its black shadow over Europe, and seeks to en-

Singing Cowboy Flies Lake Rodeo

Girts, you should've been at Flat Lake stamper and heard charming Bill Halsey of Clonadon sing. Valentine for whom the women of Toronto made such a scramble to see a few years ago, had nothing on that fine looking fellow. He's certainly better than Clark Gable.
"He's too feminine for us," said two Flat Lake females to the editor. Their opinion is not every girl's opinion. Halsey will certainly be at Stoney Lake Stampede July 18. I have to go and get him with the car.

Ben Verena Brothers

"I am sorry for responsibility for the opinions expressed by my letter writers and contributors. The same is on them."

The Editor, St. Paul Journal.

Dear Sir:

I have seen none of your papers sometime ago where my old friend George Verena is displaying one of his pictures with the heading that Verena is still looking for fights. In a way I was rather surprised that he still wants to fight and on the other hand I admire his spirit as an old-timer of the ring.

I have also been advised recently that Mr. Verena is trying to contact Mr. Nikola or Dick Johnson for a return match at St. Paul. This young man was on his way to St. Paul to enlist when he was thrown from his bicycle, suffering serious injuries which caused his untimely death.

The funeral took place from the United Church B. Paul, and the service was conducted by Rev. W. J. Collier and Rev. Slater of St. Brigid's. A large cabinet attended the service and interment was in the United Church Cemetery. There were many beautiful floral tributes.

The pall bearers were close family friends: Messrs W. S. Parkinson, N. Slater, J. Hodgkinson, S. Mury, G. Piller, and C. M. Selter. The deepest sympathy goes out to the surviving family.

Obituary News

Mr. and Mrs. V. Wolfe were entertained recently by a group of friends who gave them a surprise party. Mrs. Wolfe formerly Miss Sylvia Blair received a three-piece evening dress. The guests brought lunch and a pleasant evening was enjoyed. Mr. Slater made the presentation on behalf of members of the Ladies Aid of the United Church.

If the Verena brothers are not yellow they will take Harry and me up to this. To their encouragement I will say it is in case that either one of them would lick either one of us I'll shake their hands. And in case Harry and I do meet the notorious brother this summer I hope it will not be so difficult to collect our pay as I had in my last two fights at St. Paul. Verena is getting nervous?

Yours truly,

Andrew, Alta.

Lake Eliza Youth Drowned at Stony Lake on Sunday

While 600 pleasure seekers looked on this Sunday afternoon from the shore of beautiful Stony Lake, Bert 30 year old and only son of Mr. and Mrs. Guy Chamberlain called for help while clinging for life to a pole. The boys thought Bert was fooling and did not go to his aid. He was a good swimmer and most have been the victim of a prank.
A feverish search followed at the bottom of the lake but the unfortunate boy was not found until over an hour.
Mr. Miller of Elk Point and Dr. Kay of Myram were called but nothing could be done.
A largely advertised picnic in aid of war defence had been advertised and the crowd was estimated at 600. The sympathy of the whole community goes to the Striven family as it was their only son.
The funeral services were held at Elk Point, Tuesday.

Obituary

Walter Allen, Jr.

It is with deep regret that we chronicle the passing of Walter Allen, Jr., son of Mr. Walter Allen well-known old-timer of St. Paul north. This young man was on his way to St. Paul to enlist when he was thrown from his bicycle, suffering serious injuries which caused his untimely death.

Geo. Verena Scores K.O.

Nikola No Match This Time

Although greatly advertised the Verena Nikola match at Bella last Friday did not draw a large crowd, due maybe to their sports that were to be held next day.
There were only two preliminaries. Little Billy Ugarian and Pete Stefak which was called a draw; J. Kolody of Wastah and Jack Ugarian of Bella where the latter was declared winner by referee Eupha.
The main bout resulted in a K.O. in the fourth round for Frank Nikola after a series of hard punches by Geo. Verena of St. Paul. The referee was Geo. J. Verena of Bella (no relation to Geo.) who is a boxer of recognized merit. The judges were Geo. Behan of St. Paul and Andrew Petrak of Decie Bush, nine miles south of Bella.
Both men appeared in fine form and Nikola looked, and is much heavier than Verena.
The judges evaded the first round but the second went to

Wants Government To Take Over All Economic Resources

Appeal to the government to "take over the entire economic resources of this country and organize them under public enterprise" was made in the house of commons by J. M. Coddwell.
"I submit this is the way to end unemployment, profiteering and what is equally important, this is the way to help win the war," Mr. Coddwell said.
Speaking on the government's unemployment, profiteering and what is equally important, this is the way to help win the war," Mr. Coddwell said.
Speaking on the government's unemployment, profiteering and what is equally important, this is the way to help win the war," Mr. Coddwell said.

Mr. Coddwell said it was evident the old country was in dire need of equipment and in the resolution stage, Mr. Coddwell said, "these things can be done if we have the courage to do them and, in doing these things, we can meet the very problem we are discussing."
"I scarcely dare think of the alternative. It is the duty of victory in any event or perhaps even the risk of defeat and the continued distress which provides a fertile field for fifth column activities."
Mr. Coddwell declared if the present parliamentary institutions did not meet present day problems "there will arise in our midst, even as there have arisen in other countries, organizations of the labor."

Henry Ford Explains

Henry Ford issued a statement in which he declared that his decision not to build airplanes engines for other than the defense of the United States in no way affects the policies of Ford companies in Canada, England and other Empire countries.
"The Ford Motor Company of Canada and other Ford plants located in the British Empire are using their facilities to the utmost for the production of military equipment for the defense of the British Empire. They are serving their people as they should and as I would do if permitted and if occasion required. I have no animosity against any people of any race or nation whatsoever. I shall be glad when all wars will cease all over the world."

Notes and Notices
A pretty farewell was tendered Mr. and Mrs. Andrew Petrak last week when the school children of Decie Bush south of Bella on Thursday afternoon.
A nice picnic was held near by which was largely attended by pupils and parents at the picnic presented Mr. Petrak with a tall and artistically decorated ashtray and his charming wife with a beautiful silver candlestick. Petrak then publicly expressed his deep regret at leaving the district.

Fast Baseball To Feature Local Softball - Baseball Tournament July 25th

A chat with president Hon. and secretary Wilson of the Junior Chamber of Commerce revealed that such outstanding ball clubs as the Waskatenau, Two Hills, St. Paul, Riverview, Bonnyville, Elk Point, Brack Hill and others have already sent in their entries to the Junior Chamber's h. g. a. baseball tournament to be held July 25th.

We don't know the record of all the above teams but we know that the Point has a club second to none in these parts and Bonnyville's nine is not to be sneezed at. It is several years since I played against the Brack Hill boys but, judging from their performance then, they should be very high indeed. Both the Waskatenau and Two Hills squads have been here before and their ability to

perform on the diamond was only demonstrated in former years. Ladies and gentle softball teams from the immediate district will compete for substantial prizes offered.

So, fans of St. Paul and around look forward to some very fast baseball and softball July 25th.

Admission charges are very moderate and part of the revenue will go to the Red Cross.

A special feature of the programme is the St. Paul Boys' Band under the direction of Mr. Frank McMillan. It will be in attendance throughout the day.

A Sparkling Crystal-Ball dance at night with special music and an excellent floor should keep the girls on tip-toe and their ability to

Would Annex Can. Says Judge

Hon. Judge of Moscow, Idaho, 90 miles south of Spokane is spending a few weeks at Cold Lake. The Judge was stalled in St. Paul Tuesday to Thursday due to the heavy rain.

"I believe we shall have to come to your assistance as our people and yours enjoy such warm relations towards one another" said the judge.

"I have no doubt that the United States will come to your aid if the time comes or if you are at any time in danger of invasion. In that event the Monroe Doctrine of 'hands off America' will be invoked."

"You have a splendid country and it is regrettable that Cold Lake does not have an all-weather highway. Tens of thousands would fish in that great island of soft water," he stated.

Judge Hodge has been at Cold Lake for several summers.

Sister Marie Joseph from Val Marie, Sask. and Sister Catherine of Bathford both daughters of Mr. and Mrs. Phyllis-July are here.

Born to Mr. and Mrs. Geo. Cyra, a boy, at the hospital, Thursday July 18th.

Wedding Night, St. Paul

Last Saturday night was a real Saturday night as it was matrimonial night.

All afternoon the boys were running around the tailor and great furnishing shops and emerging shed with a new suit, a new hat and a new hat "fully equipped". The girls were all beaming. They always do when even a wedding is on the tapis, always ready to melt in arms as it were. Wedding bells were ringing and cars filled with young people ran up and down the streets. Really there was more fare than on any market day.

Indiana Give \$2,000

Mr. W. G. Gullion stated when interviewed that the Saddle Lake Indians voted \$2000 for the purchase of War Savings Certificates.

The Cost

During the course of the first World War birth of the United States was estimated by 500,000 in Great Britain, 535,000 in France, 2,600,000 in Germany and Austria-Hungary. The total falling off of births in countries in any way affected by the war was 20,000,000. Counting losses in combatants, civil deaths and the reduction of the birth rate, Europe lost in four years over 85,000,000 human lives.

—Oswald Faile in "La Nation," Buenos Aires.

Correction

In Traster's article of June 28, "Canada's war effort belongs to the Dominion government." "Blatting in by this and that group the past few weeks has hindered the war effort and hindering the war effort is fifth columnism just as much as blowing bridges" was what was intended to mean. We are glad to correct the misstatement.

Coming Events

St. Lina Stampede August 1st.

Church Picnic at Flat Lake Sunday, July 21.

There will be a roasting ball tournament in St. Paul on July 25th and a roasting dance in the evening.

St. Paul Exhibition on August 5th.

Canada to Supply Army with Universal Carriers

UNIVERSAL machine gun carriers will be added to the list of army vehicles made in Canada for the first time. These are equipped with external frame supports for the machine gun. They are also equipped with a special device to carry three Bren guns, or can be used for carrying ammunition, wire, etc. and other necessary equipment. They will be produced in the Windsor plant of Ford Motor Company of Canada, Limited, which has been selected as the most suitable for the production of this vehicle. In the photograph, Mr. Wallace, general manager of the Canadian Ford Motor Company, is pointing out the features of the machine gun carrier to a group of military visitors who are touring the plant. The machine gun carrier is a new type of vehicle, which is being produced in large numbers for the Canadian army and other allied forces.

European Wheat Crop Low

A reduction of 35 percent, or 340 million bushels, in European wheat production from last year's level is forecast by the United States Department of Agriculture. The 1940 crop is placed at 1,560 million bushels as against 1,700 million in 1939. Average European production is about 1,500 million bushels. A number of factors combined to reduce European prospects among which are included: (1) a reduced acreage for harvest in a number of countries, due partly to smaller acreages seeded and partly to the severe winter which resulted in above normal winter kill; (2) the unusually late spring, which prevented larger seedings of spring wheat; (3) unfavorable growing conditions during much of the season and especially flood conditions in parts of the Danube Basin; (4) military operations, notably in western Europe, which resulted in considerable damage to many fields; and (5) sudden and extended mobilization of manpower, particularly in many smaller countries where it was not possible to give special consideration to farm needs.

Mike Stangach of Redway was in town Tuesday and visiting his father at Laford.

J. A. Laplant, St. Lina and Joe Rosen were in town on Tuesday on business.

Bob Ploffe has gone to work on road gang near Lac la Biche.

The Harper boys, St. Paul north who purchased the farm they rented for years past have just returned.

The Christensen of St. Vincent cast get up early very early at this time of the year.

On Mon. morning it being registration morning and the day of cutting with the (or one can imagine the still about the farmstead).

A grand send off was given the Alvin family on Sunday evening at Mr. and Mrs. S. Hoberg's residence.

Mr. and Mrs. Gallant were visiting his sister Mrs. Ed. Bernier and her brother Mr. George Bergeron.

A. J. Talbott is building a house in the south end and we extend a welcome to him and his family who will reside there this fall.

Mr. A. M. Reed district engineer and family are occupying the lovely Desroche cottage at Rifle until late September.

Angus A. MacDonald, principal of the school at Belcher, was a guest at Mr. and Mrs. L. Frenkel's home Tuesday.

Mr. and Mrs. Walter Lambert will shortly move to the house, located on 2nd street west, which has just been vacated by the Alvin family.

Mr. and Mrs. Weder and Mr. and Mrs. Eddie were in town Saturday night. Mrs. Spruhan returned from visiting her father at Strathmore who was recently ill.

Evangelist and Mrs. W. L. Nunnes and the Tolman family were entertained by Miss Pearl Bidlock at the beautiful home of Mr. and Mrs. J. L. Gibault Thursday.

Albert Desaulnier, who for the past three weeks has been driving Jack McEwen's racing horse, Malcolm Guy, of Vermilion, took 2nd, 3rd and 4th at Didbury, Hans and Stettler. He was accompanied by his son Marcel, who returned home Saturday.

The St. Paul girls' football team motored to Lac la Biche, Sunday August 18th, to play a double header. In the afternoon game the locals won from the lake team by a 12-0 score, while the evening encounter resulted in a narrow victory for St. Paul with a 15-5 score over the Colinton team.

Would Ban Every Jew From Europe

A European continent without Jews—who would be banished to some remote part of the globe—will be one of the prerequisites for a "German peace," said Adolf Hitler's SS Elite Guard today.

The paper, warned that Jews everywhere in Europe would be driven from their "hide-outs," despite the present observance of "canned-restraint."

Norway, Denmark, Holland and Belgium and both occupied and unoccupied France were among nations singled out for mention.

"Jews in these countries," said the paper, "have readily disappeared from public life and withdrawn from civil life and editorial rooms."

A similar trend is noticeable in all neutral Europe, the paper said.

The article implied that anti-Semitic measures in various European states are too weak to suit the Germans.

"The European Jewish question is not to be solved through homeopathic remedies and not by administrative and humane directions," it said.

Germany will solve her own Jewish question herself. As soon as the last Jew delivers out of Germany, the rest of Europe, which is awaiting a German peace, may know this peace must be one without Jews.

The paper in scornful language charged that the Jews, together with Britons, tried to ruin Germany.

The sympathy of the people goes to the Knapp family at the sudden passing of their father at Leslie's home last Wednesday, August 14th.

The late George Knapp was for 15 years a resident tenant miller north east of St. Paul on one of the Jim Fraser farms and four years ago secured a cultivation lease of a section at Iron River. Mr. Knapp was well known in St. Paul and the sympathy of the friends of the family is extended to their loss.

Owleyse News

Mr. and Mrs. J. F. Berlingo-
re-entertained at a dance re-
cently for their eldest son
and his bride Mr. and Mrs.
Joe Berlingo-ore at their re-
sidence at Saskatchewan
where their wedding took
place. The dance was held in
Owleyse hall and was a large
company attended. The bride
was lovely in a white sheer
robe, wedding gown and wore
a white flower wreath in her
hair. Many beautiful gifts
were received by this popular
young couple.
Mr. and Mrs. Sandy Macdonald,
Mrs. Leconte's brother, had been
visiting the family this past
week.
Mr. Ted Eklund has been
appointed a commissioner for
taxes. He will be a con-
venience to farmers sur-
rounding Owleyse who re-
quire affidavits signed.

Mr. and Mrs. Craigie and
family, and Mrs. Pauline
returned their vacation at Cold
Lake.
Mrs. George Hart, Cal-
gary Highlanders, Owleyse's
first soldier to return home
on leave was entertained by
a number of Owleyse friends
at the farm home of Mr. and
Mrs. Norman Smith on Sat-
urday evening.

Comments On St. Paul Fair Held Aug. 5

(Continued from Page 2)
lar, instead of only 15 entries
in horses out of 65, 25 of cal-
culation out of 75, 5 of sheep out
of 38; and 6 of ewes out of
16. Keep your prize list for
next year, as it will be about
the same and will help you to
prepare your exhibits. Start
now, especially the ladies
with their preserves and
canning. Where are all the
good French cooks around St.
Paul?—only two exhibits. I
am sure they can do better
than this from the remarks
made in the parish hall, which
was nearly empty, why?
All the above remarks, I
hope, will be taken with the
same spirit as I am making
them in; with a constructive
idea, let us have your plans,
and any changes in the dif-
ferent classes, now is the
time and not after next year's
fair. Let us unite our ef-
forts to make a bigger and
better fair for 1941.

Yours for educational
improvement,
Bob Tomlinson,
Director St. Paul Fair.

Mr. Young man eager to enlist
may still do so although en-
listment in the non-perma-
nent Active Militia is sus-
pended following the registra-
tion.

Owing to our correspond-
ent having been appointed one
of the registrars at Glen-
don he was unable to send in
the news for that week.
There were 178 registrants
with 62 delegates for the
three days registration.

We wish to thank those who
rendered voluntary aid.
At a meeting of the Glen-
don skating rink committee
on Saturday evening, August
24th, the following officers
were elected for the ensuing
year: Pres. Max Wintrobe,
Vice-Pres. Walter Lukian,
Sec-Treas. Mrs. L. H. Leach,
Executive Committee: Mrs.
Messrs. A. D. Munro, Walter
Dubas and Mrs. M. G. Nei-
muis.

Lila Kirkland suffered a
painful accident on Saturday
evening in Glenodon. It
was supposed that he had
fallen into his wagon to drive
home when seeing that one of
the bridges needed adjustment.
The team bolted striking him
under the wagon. Dr. W. Stewart
administered first aid. Mr.
F. Ayleworth drove him to
Elk Point hospital where he
was discovered that he had
sustained two rib fractures
and the side of his head was
badly bruised and skinned.
The team was caught about
a mile out of town on its way
home, none the worse.

Junior Grain Club Plots Show Marked Improvement

Judging of all plots grown
by Junior Grain Club mem-
bers of the St. Paul district
has been completed some
time ago by the local district
agriculturalist.

All four clubs have obtained
a higher score this year
than last. The judges re-
mark that the plots in the
marks are of every plot vis-
ible and true to type. In no
field has he found more than
a low variety per 2000.

Any farmer living in the
neighborhood of Junior Grain
Club members and wishing to
improve his seed would be
advised to buy from these pure
seed growers. Already they
have been a highly re-
sponsible for improving the
quality of grain in their re-
spective areas.

Following are the names of
the two boys standing high
in the field competition
in each club:
St. Paul 1st Geo. Chamberlain
2nd R. Chamberlain
Lake Eliza 1st Miss Solis
2nd Miss Solis
Odny and Victor of Redwater
and two nieces, Lucy & Vi-
vian Podal of Camrose, Miss
Lucy is still in Glenodon.

Journal Enters
16th Year

Sixteen years of sustained paper. Notwithstanding its many mistakes and errors, the people here seem to like and distrust take a letter to the paper. They rarely grumble at its short-comings and for all each other better. That has been the ambition of the St. Paul Journal.

On September 5th, 1925, the first issue of the St. Paul Journal was mailed to a few hundred subscribers, who thought it a risky venture. At least one other newspaper had started in St. Paul some five years before, but it was not due to lack of support of the townspeople that it failed. Of course the Journal is an institution that is here to stay no matter who would issue it.

It's Not Easy

Sp Black is building a 20x 20 foot kitchen addition to his home. There are three kids now and they need a kitchen. "It's not easy," said of bus, of golden wheat," said Kravinsky, a good farmer and co-operation and co-operation of community effort, leader of the St. Paul Journal. It is the story of the enthusiasm of a man who went to town with a few sacks of last year's wheat to the elevator, but could not de-livered to touch almost sell a kernel and there wasn't even a point of flour in the house. "It's wonderful what a good crop we have and what a wonderful country we live in. We trust that we shall continue to merit the confidence the people of north eastern the country I came from." Alberta have in this news, said he.

Beauty for You
Good Looks
by
Pauline Lynn

It is now to get sun-tanned and it certainly adds immensely to our appearance in the summer, but when Fall arrives, too, is rather a drawback. It is also wise to remember that, even if you have been very discreet in sun-tanning, the dry weather has taken its toll. Dry weather tends to extract some of the natural oil from the skin and it is this natural oil that helps to take wrinkles away. An occasional bleach will help to take away some of the tan. Try this one: Mix some lemon juice with four times as much glycerine, and stir in enough powdered starch to form a paste. Cover your face and neck with this paste, using a soft cloth, and allow to remain on until dry. Wash off gently with a solution of lemon juice in hot water, rinse with cold water, and finally dry with a soft face cloth.

Your daily care should be based on the following ten rules: First, wash yourself regularly with soothing plain, olive soap, which gets its goodness from olive and palm oils. Secondly, help to nourish your skin by exfoliating often. Use lots of Three Purpose cream, and at night massage it well in. Third, use a good face cream. Fourth, use a good face cream. Fifth, use a good face cream. Sixth, use a good face cream. Seventh, use a good face cream. Eighth, use a good face cream. Ninth, use a good face cream. Tenth, use a good face cream.

THESE THINGS ARE WORTH WHILE

- 1 The Wheat Pool introduced wheat price stabilization on an immediate basis in Western Canada. It is now a reality.
- 2 It cost the Pool \$25 million to launch Canada that wheat producers must have price protection.
- 3 The Pool was the first to introduce wheat price stabilization in Canada. It is now a reality.
- 4 The Wheat Pool introduced wheat price stabilization on an immediate basis in Western Canada. It is now a reality.
- 5 Farmers could get "100" in wheat for their wheat today but for the Wheat Pool.
- 6 Pool elevators have had down 500 million and protected grain producers in many ways. The trade now adults there are no large profits in the grain business as in years gone by.
- 7 Prior to the creation of Pool elevators, grain was sold in one year's production in grain elevators. It is now a reality.
- 8 When grain producers petitioned Pool elevators they all in strengthening a farmer-owned co-operative which is constantly battling for their welfare. Also they build up an equity for themselves in a world of grain.
- 9 Ten years ago the opposition charged that Pool elevators were a monopoly and would be a danger to the farmer. Today Pool elevators are in business and have a monopoly. They are a danger to the farmer.
- 10 If all possible grain producers should see that their grain goes to a Pool elevator. The unadvised owner of a grain elevator who does not see that their grain goes to a Pool elevator is a danger to the farmer.

Cash Advance On Farmers Grain Is Proposed Plan

The Alberta government is presenting the Dominion government for an immediate announcement that an adequate advance will be made to farmers against grain stored on farms. We contend that the Dominion government could meet the situation by undertaking to issue negotiable grain tickets at grain storage grain. This proposal would eliminate interest charges and enable the farmers to finance harvest operations.
Hon. D. B. Malen, minister of agriculture, who is attending the wheat conference in Winnipeg, will advance this proposal as a practical solution to the present crisis. The Government of Alberta considers that the situation is so serious and the need for action so urgent that a definite announcement from Ottawa assuring farmers of an adequate advance on stored grain should be forthcoming immediately. Any proposals involving the calling of special sessions of the provincial legislature would result in inevitable delay which would be disastrous at this time. Meanwhile harvesting operations and, in fact, virtually all business would be at a standstill. It would be impossible to overstate the urgency and peril of the situation which has developed in regard to the 1940 crop. If farmers are permitted to deliver only five bushels per seeded acre at 70 cents per bushel basis No. 1 Northern at Port William, and if they are compelled to store the remainder on their farms without an adequate advance, the effects on agriculture and the entire business will be catastrophic.

The Sisters of the Holy Cross have been teaching at Laford for a year assisted by Miss Morris. The nuns, interviewed by the *Journal Thursday* freely gave information with respect to their work. "We have 61 pupils enrolled and we take a great interest in the welfare and strive to make this school one of the best in north western Alberta."

The Sisters of the Holy Cross are a teaching order of nuns. Their sister school is in Quebec, Ontario, and Father, Donnelly, Grosvenor, Village, Grande Prairie and Peace River and at St. Lawrence and Fort Kent in this district. "We have, more missionaries than any other order in the world, India than we have in Canada" said the kind priest, jocularly.

Rile-Flat Lake Boys
"Ketch Prairie Chicken"

The beauty and wild country country about Wryn-yehka, McCormick, Krawchuk and Harbaronko arrests the attention of motorists as the pastoral and peaceful scenery develop itself to the view. In the spring Yelling Creek tumbles riotously into the lake beyond, but in the spring a young man's fancy does not turn to thoughts of love as he is too busy planting the crop. The grandeur of the scene is enhanced in the autumn setting. Here charm and "prairie chickens" are easily tamed during summer and later season.

Boys in this idyllically charming country do not have to chase around and gallivant to St. Paul and large cities to purchase for themselves the lovely "chickens" in this surprisingly beautiful valley.

I append the weddings and engagements for the next four or five weeks: Geo. Kalyon and T. Metro Wrynchuk & Annie Harbaronko; P. Tschuk and Natsaka Krawchuk; John Wrynchuk and Rosie Tschuk; P. Krawchuk and Maschuk; Urban Poley & Mary Stecho; John Stechko & Andy Severin and Andy Rogers.

His First Sermon
In St. Paul

Everybody who attended church Sunday was delighted to hear one of St. Paul's native sons give his first sermon in clear and convincing language.

Rev. Abbe Delisle speaking in aid of the Jesuit College, delivered an eloquent appeal on national and religious grounds for his alma mater, asking the congregation to co-operate with the French and English Catholics of the province to give financial support to the drive begun Sunday afternoon. This drive is in aid of the Jesuit fathers, who, for 400 years, have consecrated themselves to higher education all over the world.

"Nous devons aider notre college, nous avons besoin des jeunes hommes de caractère s'il est dit, 'Notre langue devrait augmenter ou diminuer mais nos forces vont diminuer si nous nous imposons des sacrifices nécessaires pour conserver notre langue et notre foi qui est la source de notre vie nationale et catholique.'"

Hitler's Fall Foretold
By Ancient Prophet

Even if Czechoslovakia, Poland, Denmark, Norway, Holland, Belgium and France are no longer with us, the stars and prophets are. Comforting to those who believe are the famous prophecies of Michel de Nodredone (Nostredamus) a monkish astronomer of the 16th century, who became famous for predicting the Great Plague of Europe.

He invented an antidote for it, called Nostredum, which saved everyone to whom it was administered except his own wife and children. Stricken by sorrow, he returned to a monastery and compiled "The Centuries".

Writing in obscure rhyme, in eleven different tongues, he foretold many events which have unaccountably come to pass. Among them was the date of his own death. He said he would return from receiving a gift from a king, and would be found dead near the bed and bench, all swollen. After receiving 200 crowns from Charles IX he was discovered dead of dropsy on the bench near his bed.

He predicted persecution of the Church and the revolution of the century (the French) in 1792.

Of Napoleon he said "From a common soldier will be an empire. From a short coat he will go to a long mantle. Valiant in arms, he will be as a thorn in the side of church and priests." He was.

Concerning the Franco-Prussian War, Nostredamus advised Napoleon III through his interpreter, they would betray him, that a German army would occupy France. It all happened.

Nostredamus also foretold the outbreak of the first world war in 1914, the Abdication of Edward VIII and the Spanish Civil War. Mentioning by name, it is predicted for 1940, Nostredamus said that Germany would first feign friendship for France and they invade it. Much destruction would be caused, and Paris would fall. Switzerland would be invaded also.

But in the end-1944-"Hitler" will be put in an iron cage, his empire destroyed by a King who will have his capital at Avignon, and will fight the last battle near Poitiers. Before everything is settled, the Pope must leave Rome, with the Vatican and Quirinal in flames.

This last part is borne out by a poem supposed to have been written by a monk in a monastery near Brandenburg in the 12th century. It tells of the Kaiser's rise to power, of Great War, and the German monarch's flight.

Then, after a period of peace the

No Couchback
A well known editor resided at the following hotel for a not so well known writer. "In the future I shall have no more for you or your publisher. The manuscript I submitted you recently was sent as a test. Pages 8 and 9 were fastened together. In the edges, my story was returned with these pages unopened, which proves that you didn't take the trouble to read the story through."

black point or black spot is usually common in this year's crop. The term kernel smudge has been adopted by plant pathologists for this disease to avoid confusion with a less common and less common disease which they call black point. Kernel smudges: a fungus disease and may be caused by at least two different fungi. One of them *Helminthosporium sativum* is a dangerous para-

There is, at present, no way of controlling or preventing kernel smoulder. Diseased seed may produce a crop free from kernel smoulder and

the crop rod-free from disease-free seed may contain many discoloured kernels. Since, however, one of the main involved may cause seedling blight, if "unseeded" grain is used or seed it should be treated with an organic mercury dust.

Dr. F. J. Gurnsey, Associate Plant Pathologist at the Dominion Rust Research Laboratory has consented to prepare a more complete discussion of this problem for publication in the next issue of the *canadian journal of plant disease*.

Speech From
The Throne

London, Text of the speech from the throne, read by His Majesty the King, at the opening of Parliament Thursday.

My lords and members of the house of commons: My people and my allies are united in their resolve to continue the fight against the aggressive actions until freedom is made secure. There are no nations, released from oppression and violence. Now we must work together on the basis of ordered liberty and social justice.

I am confident that victory is assured, not only for the prowess of the armed forces of my empire and those of my allies, but also by the devotion of the civil defense forces and the tenacity and industry of my people. These are not ending, where they live and labor, the perils as well as the hardships of war.

Praises Speech The staunchness of the men of the merchant and shipping fleets has added lustre to the ancient traditions of the sea. The resistance of my people has won the admiration of our friendly powers. Relations of my government with that of the United States could not be more cordial, and I learn, with utmost satisfaction, of the ever-increasing volume of munitions of war which are arriving from that country.

It is good to know that in these fearful times how wide is shown the ideal of shared freedom, of justice and security.

Measures will be submitted to you for compensating those whose home or business property has, at any time, been destroyed or damaged by enemy attack, and for extending insurance against risk or damage to all forms of movable property which are not at present protected.

Bracken Perpetual
Premier Province

The Manitoba opposition to Premier Bracken has been reduced to three; General Ketchen, Miss Halderson and St. George Stabile. Parliamentary action against a system of government by cabinet control and an opposition Mr. Stabile said, and he classed the new Coalition Government set up by the most reactionary in Manitoba's political history. Bracken laid fair to be the perpetual Premier of the Province of Manitoba.

Tell Them Now
Before Christmas

A retail store regards itself as being a public servant. Therefore, it is wholly fitting that it should try to be the best and most agreeable possible. A retail store which hides itself from those whom it wants to employ it becomes under-employed, and so its sales decline. The public inclines in large numbers toward those stores which seek its attention and custom. It takes the advertising store at its own valuation. It likes to do business with those who manifest eagerness to serve it. It likes to buy at those stores which have to renew their stocks frequently. Reserve space now in the St. Paul Journal.

To Manage Co-op.
Store At Atmos

Mr. Albert Desile, popular young clerk in the St. Paul Co-operative for several months and with the Co-op here where he served his apprenticeship (three years), after completing Grade XII left Tuesday for Lake Charon, Atmos P.O., about 50 miles west of Lac la Pêche. Mr. Desile will take charge of the new Co-operative Store in the northern hamlet. A large number of sturdy settlers of Lac Charon banded themselves together a year ago to start a store in the settlement and after many obstacles and vicissitudes have established their store on a sound basis and they hardly could have chosen a more capable manager.

Her friends are congratulating Miss Helen Broussard, who was advised by the Premier that she has been awarded the Governor General's medal for highest marks in Grade IX.

Miss Broussard is the second daughter of Mr. and Mrs. A.T. Broussard and a pupil of St. Paul High School.

Mr. Abernethy's letter was complimentary and as minister of education, shows the interest he takes in matters pertaining to education, in that as well as other departments of government.

Wm. Schmittler, south of St. Paul, was similarly awarded with the bronze medal in 1939.

Owlsey News

Mr. and Mrs. J. F. Berlingo are in Edmonton where Mrs. Berlingo is in hospital undergoing an operation.

German
Brutality

A Polish newspaper, Narod Polska in Chicago writes of a Polish lady living near Pittsburgh whose sister lived in Poland. Every Christmas they exchanged gifts, and when the one in Poland asked her sister in America what she wanted as a gift, she replied "Hitler's eyes." The Gestapo took over the letter and sent her the human eye in a box which contained the full name of her sister. This lady gave this item to the newspaper to prove to what limits the German brutality goes.

The St. Paul
Journal

The St. Paul Journal is always the best. You'll find out if you subscribe like the rest; After all you'll like to read something new. And enjoy some jokes like other folks do. It's surely the best bargain you can get. The only one that you'll never regret. If you marry you'll want with that of the United States that that happiness has come and perhaps may go.

The Journal publishes things that are true. No use to argue if they're not paid. Its worth is gold, it's worth is gold, it's worth is gold, it's worth is gold.

You subscription, then you'll be satisfied. Remember that printing is an art. You must co-operate right from the start; If you plan some day to be paid.

They'll publish it except a broken heart. Think of the day you'll have to die. When you're making your way towards the sky. The Journal will let your friends know That you'll be thinking of them as you go. Long live the Editor, and the St. Paul Journal.

The Journal publishes things that are true. No use to argue if they're not paid. Its worth is gold, it's worth is gold, it's worth is gold, it's worth is gold.

You subscription, then you'll be satisfied. Remember that printing is an art. You must co-operate right from the start; If you plan some day to be paid.

They'll publish it except a broken heart. Think of the day you'll have to die. When you're making your way towards the sky. The Journal will let your friends know That you'll be thinking of them as you go. Long live the Editor, and the St. Paul Journal.

To Help Greek War

Vancouver—Spore Pappas, 70, showed the way to follow Greek-Canadian, Thursday, by donating his life savings—\$85—to the Greek war relief fund.

"All I want is to see my country win," Pappas said at a meeting of the Greek community Wednesday night.

"I was saving the money for my funeral but that's not important now."

A party was held at Joe Gould's on Nov. 18 at which a goodly number of visitors were present, among them Mr. and Mrs. W. C. Clark, Mr. Beck and Miss Florence Gould.

The St. Paul
Journal

The St. Paul Journal is always the best. You'll find out if you subscribe like the rest; After all you'll like to read something new. And enjoy some jokes like other folks do. It's surely the best bargain you can get. The only one that you'll never regret. If you marry you'll want with that of the United States that that happiness has come and perhaps may go.

The Journal publishes things that are true. No use to argue if they're not paid. Its worth is gold, it's worth is gold, it's worth is gold, it's worth is gold.

The ST. PAUL JOURNAL

Published every Friday on the afternoon of the St. Paul Journal. Call or write to the office, or any name of interest to our readers. There is a charge for wedding announcements and obituary notices. Always for space. There is no charge for the funeral.

Bracken Perpetual
Premier Province

The Manitoba opposition to Premier Bracken has been reduced to three; General Ketchen, Miss Halderson and St. George Stabile. Parliamentary action against a system of government by cabinet control and an opposition Mr. Stabile said, and he classed the new Coalition Government set up by the most reactionary in Manitoba's political history. Bracken laid fair to be the perpetual Premier of the Province of Manitoba.

St. Paul Main Street In Glittering Splendor Church Cross Seen 20 Miles

Adding to the beauty of St. Paul's main street at night is the brilliantly lighted street intersections installed every year by the Canadian Utilities, under the direction of its very efficient manager here, Paul Drole.

Miniature ice castles were erected under the direction of Paul Drole, Const. Brunelle and Alfred Doret. In the interior of these little castles at five street intersections, are vari-colored electric lights which lend a gay appearance.

The glittering splendor can be seen for miles as the wayfarer approaches it in the town. Indeed, it is said the brilliantly illuminated cross on the R. C. Church can be seen at a distance of 20 miles. This dangerous work was done by Paul Drole and when he realizes that the height is 140 ft., one can appreciate that it is a precarious and few in St. Paul, if any, would undertake the lighting of the church steeple.

Birth Of Christ

When we write again Christ will be past. We appreciate the kindly remarks by the people who have read our efforts during the past year. Since we have lived there, some have not, but we wish you all a merry Christmas.

Nineteen hundred and forty years ago, when Christ was born, the world was in turmoil, paganism had over-run

the known world, and religion was threatened by many to be in the verge of collapse. Poverty, crime and neglect held

by the church of the day. He was insulted, abused and, finally, traitor and murdered but his church was established and began and never ceased to grow.

The 25th of December was chosen as the day on which Christians through the centuries would celebrate His birth, and so, once more in a time of turmoil, we turn our eyes toward Bethlehem.

Compassion and themes may see

Angels descend and wave the Church of Peace. Christ will remain

Four Sects Ask For Exemption From Army

Representatives of four religious sects active in Alberta appeared before the board at the court house Monday to ask that young men of their denominations be exempted from bearing arms.

Group representatives were the Seventh Day Adventists, Pentecostal Assemblies of Canada, Moravian church, Christian Convention. Speakers men for all declared their members would not object to serving in non-combatant posts, but could not serve in the regular army, 8,000 young men, members of the sect, have done non-combatant army duties. "We would be delighted to do any job to bear arms for the purpose of killing," he added.

Major D. Rogers said in Canadian country in the Seventh Day Adventists church stands a 1,000 and 8,000 persons. There are about 800 Albertans.

Speaking for the Seventh Day Adventists, W. D. Rogers said that the sect is a peace-loving people with roots at Thorsen.

The secting risk is now dead. The boys get together and in one day build it back of water from the lake which is about one mile from town.

Tuesday, December 31st, an other grand reading was celebrated, when Bernadette Vial, eldest daughter of Mr. and Mrs. Joe Vial of St. Paul was united in marriage to Belle Desrochers of Thorsen.

It is reported that the married couple will reside at Thorsen.

Adoption Sirois Plan Seen \$1,714,000 Loss To Alberta

Would Give \$60,000,000 to Dom.

Mr. H. B. Law, Alberta's provincial treasurer, says Edmonton, Monday night in his statement would be "highly detrimental to the province and to the federal government" as against property, as everyone knows that property taxes are far too high in the province.

Mr. Law said the tax would be removed unless replaced by some more equitable and widely distributed system of taxation, and added that the commission's report indicates no direction in which the province might turn for each revenue.

He said retention of Alberta's present and potential federal subsidies, which he said are expected to total \$20,000,000 in 1941 would be "the finding order to the federal government approximately \$60,000,000 of capital." He based this declaration on the assumption that a steady state of 1940 would be the basis for the capital that came at three per cent a year, capital amounting to \$1,714,000,000, invested in a gift edge proposition, where no fluctuations would take place to the return.

Signs Evident of a Favorable and Prosperous Year In 1941

Buy 100 Million Bushels Wheat

President Roosevelt's decision that the United States should buy 100 million bushels of wheat for the year 1941, has been announced by the War Relocation Authority. The wheat is to be used for the relief of the Japanese-Americans who are being interned in the United States. Severe Taxation For Canada

Canada's net war costs two months ago reached the level of a billion dollars a year, and careful computations show that the combined war and non-war expenditures in the fiscal year which ends on March 31st next will be at least \$1,250,000,000. This means more than \$1,000 each for every man, woman and child in the Dominion, and that is a lot of dollars. Moreover, the only good news that Finance Minister J. L. Flaherty could give the people in his important report to the House last month was that their obligation to economize and save and pay taxes and buy bonds would increase as the war went on.

Comparisons For Alberta

Provincial expenditures for services and wages last year were \$1,000,000,000, more than \$1,000 each for every man, woman and child in the Dominion, and that is a lot of dollars. Grateful For Valuable Assistance

In these days of strife and anxiety for Canada and the Empire, it is a comfort and inspiration to know that we are so widely united in the defense of our great principles of freedom of thought and the glorious traditions of our British Empire. It is a source of much satisfaction to us to have the splendid support of our good neighbors to the south to whom we are grateful for the valuable assistance they have afforded us in our war effort.

Bells Of Ottawa

Ring out, oh bells of Ottawa, with message with rhythm and music blending: The coming year proclaim today: Adieu to the year just ending. May the tuneful greeting greet after: And, ushered on thru ether's magic wave, Reach out to all; attentive and a-tuned to hear Good-will from our land of the maple leaf.

Bells Of Ottawa

Ring out, oh bells of Canada, No longer child among the nations; With sister Dominions today allied, At Britain's side is noble stance. By force of arms, in purpose true and known, The Christian way of life shall be defended; And aggressive use of force ended.

Bells Of Ottawa

Resound again, the hope that triumph soon will come To force in the cause of right arrayed; Deeds of valor are by heroes only done And the triumph shall be ours to save.

Bells Of Ottawa

British arms and her way too: Uphold her mastery of land and sea; Her winged arms shall soon transcend the seas. Our Empire then shall also rule the world's way.

Bells Of Ottawa

And ere the chimas have ended, Sound a ringing note of cheer For old England, nobly braving Hell inspired venom from the air. At last! when, right victors in the end, The democratic nations stand again!

Bells Of Ottawa

And, releases of Aelia's vanguard band, Ushered: have been from their erstwhile evil reign. Goodness fully back again! . . . Then, in the peace that comes, God speed the way of men.

Bells Of Ottawa

I Pledge

"I realize that Canada now calls on me... to join in a great National Service Plan... necessary to win the war and vital to my own safety."

—that the gallant men of the Army, Navy and Air Force... now on the fighting front... need me on the financial front. They need munitions, material and equipment... and only by my money which represents the production of war materials can this support be secured. They are my protectors. They call on me to be their provider.

—that this will require hard work and many dollars.

—that only by hard work and frugal living... by LENDING all I can to Canada... can I do my part to help to win the war and establish our future security.

I Pledge—that I will forego the purchase of unnecessary articles... however small the cost... no matter how well I am able to pay for them... which take labour and materials away from the great task of providing goods needed to win the war.

—that NOW... starting this month... I will put a definite part of my income aside in War Savings Certificates. I will have it deducted regularly... each week... each month... either from my pay envelope or from my savings account, by arrangement with my employer or my bank manager."

Bellis Wants Highway

Wanted Highway

The village council and farmers as a delegation addressed the assembly last week to demand that the Government build a highway from W. 4 Falls to the village. The assembly decided to support the demand for public works, to have a highway built from the village to the falls. The assembly also decided to have a highway built from the village to the falls. Plant **CANADIAN
CERTIFIED SEED**

GOOD seed is the first requirement for an excellent crop... because only good seed will grow vigorous!

and productive plants.
Canadian Certified Seed Potatoes are good seed potatoes. By planting them, higher-quality, clearer, smoother, more uniform potatoes than those grown from ordinary seed stock will be produced.
So, this season, to harvest *fewer* potatoes — and more of them, plant Canadian Certified Seed.
Be sure to select the variety most suitable for your locality. Ask the District Government Inspector, Plant Protection Division, for full information and list of nearest distributors.

Ward were visitors to Bonnyville last Wednesday. The three latter were delegates interested in getting a school for their district.

At a community club meeting at the home of Olaf Johnson, Sunday, ten new members were enrolled. The officers for this year are: Olaf Johnson, president; Vice-

Sec.-treas. H. Gustafson, re-elected. Directors for 2 year term: Mrs. G. D. Brickett, Mrs. Tommy Tiller, Martin Moxness and Wes Moxness.

Auditors, Mrs. H. Gustafson and Mrs. W. Mayers. The new social committee are Miss G. Brickett, Ed Brickett and Frank Strobel, all being in the vanguard. The Press & The Churches

One of the most easily misconstrued relationships in the publishing field is that between the newspaper and the churches in the community it serves. The newspaper man asks himself the question: "What should be my attitude toward the churches?" He endeavors to answer that question so that he will be fair both to the churches and to himself.

Churches sometimes assume the attitude that as they are supported solely by voluntary donations, and as they are a spiritual and moral force in the community, they publicly desired should be given without charge by the newspaper. Strangely enough the churches do not expect the same privilege from any other business or profession. It should be remembered at the outset that most publishers are church members, and that as individuals they are decidedly interested in the welfare of the church with which they are affiliated. They give regularly and as generously as their circumstances permit. They attend the various functions designed to raise funds for the continuance of the church's work. As such they are considered as any other church member who is conscientiously striving to support the church and what it stands for.

While newspapers are more generous with space to churches than other institutions, this is simply a recognition by the press of the premier place held by the church in the spiritual and moral sphere in the community. However the church has no legal right to expect the press to give more generously than any individual church member. It is not expected of the man who sells the church fuel, or the public utilities which serve the church. In larger centres it is considered as the organist should give his services free, or that the caretaker should work without remuneration.

The press, we believe, will always recognize the position and value of the church in the community. It will realize that the community without the church would be like a rudderless ship, not knowing whence the tide of events and fortune might lead. The press will continue to give service to the church as one important institution to another, but the church must also realize that to continue its service, not only to the church but to the community, the newspaper must have an income, and that income can only come from the space it sells in its columns.

LAC LA BICHE TRAGEDY
A most remarkable tragedy of a young life occurred with the death of a young man, aged 21, who was killed in action while serving with the 1st Canadian Trench Mortar Battalion, 1st Canadian Division, during the attack on the town of Lac La Biche, Alberta, on June 10, 1941. The young man, whose name is being withheld for the time being, was a native of the town of Lac La Biche, Alberta, and was a member of the local youth organization. He was killed while performing his duty as a trench mortar gunner. His death is a great loss to his family and the community. The funeral will be held at a later date.

Get into the battle against
Hitlerism—Enlist Now!

This is Canada's fight—and YOU are Canada. Everything for which you have worked and planned—your life, your home—was threatened by the fanatical attacks of the Hun and through we fell in the factories to produce weapons with which to crush them, those weapons are useless without MEN.

The Canadian Active Army requires men for Artillery, Engineers, Signals, Armoured Cars, Tanks, Infantry, Transport and Supply, Medical, Ordnance and other branches of the Service. The Army is prepared to teach many trades, and to train you to efficiently handle Canada's weapons of war.

Go to your nearest District Recruiting Office. Find out about those Units how they work, what they do. See just where you'll fit in. See where your particular skill you possess can best be utilized. Then join up for ACTON.

Cow Comes To Life

Mrs. Pruska's cow at Belle Isle too much grain last week, stopped breathing and lay down in the yard to die. Mrs. Pruska got scared and ran for the bugle. He said the cow had choked herself. However, he cut a broomstick about three feet down her throat and broke the handle short. The "doctor" was not to be fooled, so he went to the blacksmith and got a two-foot rail of piers or tenes and pulled out the stick and dam. The cow started to breathe after a couple of hours and Mrs. Pruska actually kissed her cow many times in the presence of the doctor and nearly all the village soldiers. A banquet should be in order for Bugak. Mrs. Pruska will never be able to pay the doctor.

Great Crowds "Gone With the Wind"

Hundreds came to St. Paul to see the much advertised show held on Thursday, Friday, Saturday, and Sunday. "Gone With the Wind" is almost a replica of the "Birth of a Nation," of the silent screen of 20 or 22 years ago. Indeed it is not so good a picture. The grapes of Wrath or "Native Son" would create a greater sensation. They would have to be stripped of their unsavory paragraphs, however. But readers of today appear to relish salacious stuff. It won't be long that the public desire will be satisfied however. There is nothing of the sordid in "Gone With the Wind," but the moral lesson leaves to be desired with its several divorces and clandestine rendezvous of the leading lady with an ex-soldier friend. Vivienne Leigh and Clark Gable are stars in their respective roles.

Do not tell us anymore that there is not much money in and around St. Paul, when hundreds pay 45 and 65 cents admissions after seeing, at the very worst time of the year when money is scarce.

The Guarantee Of Freedom

This is the closing editorial of a series which was designed to provide our readers with a better understanding of the functions of the press which serves their community. An attempt has been made to deal briefly, simply and adequately with the history, phases and relationships between newspaper and the territory it serves. It is not without purpose that this editorial has been left until the last, because in a sense it sums up what has been said in the previous editorials about the aims, objects, ideals and problems of the community weekly newspaper.

The purpose of this series has been to give a glimpse of the intangible things about a newspaper—the soul if you will. For the newspaper has a soul, and that is what makes it such an important asset in the district it serves. We borrow these words from another writer to explain just why we believe that your newspaper is your guarantee of freedom.

"I am the guarantee of the Canadian way of life—the way of liberty—the way of equal opportunity—the way of free enterprise—the divine way and the true way for national well-being and upward advancement."

Weekly I go into your home—in winter and summer—in spring and fall. I chronicle your birth, your marriage, your death, and the intervening years which mean for sorrow or joy, depression or exaltation, health or pestilence, poverty or wealth, weakness or strength.

Freedom am I true to my heritage. I am not the subservient carrier of propaganda which enabled a Hitler to become the master of Germany, nor am I the complacent press that contributed to the down fall of France. I am a friendly visitor. You'll find I have character, and even when I hurt you, I know you would not have me spineless.

I provide you with special civic service, I support to the last drop of my ink your charities, your Red Cross drives, your school, your church, and your service organizations. Yes, I assist in the building of community character.

Through advertising I promote your trade, move your commodities, advance your living standards. I am bashful about mentioning these things, but I want you to rest assured that I am your friend.

I am the Canadian home town newspaper, and without me your liberties would vanish."

These editorials were written by B. H. Norbeck, Associate Editor of The Conservative, Brampton, as a result of, and in answer to, the numerous questions which have been asked of him during his weekly newspaper career.

Lend a Hand to Defend our way of life!

DOWN THROUGH THE AGES
Brave men fought and suffered and died in order that their children and their children's children might be free. Today the forces of darkness threaten to engulf us once more. Shall we give up those rights which our forefathers won?

Today our country must arm. No time can be lost. We must build the greatest war machine the world has ever known. We must accomplish in two years more than the enemy has accomplished in seven.

That is why Canada needs your savings—now as a gift, but only as a loan. Canada's army must be maintained and equipped with the most modern fighting machines. Scores of warships and merchant vessels must be built. Thousands of planes, thousands of pilots must be rushed to the scene of conflict.

So Canada needs the use of your money now. Later on, Canada will repay you in full. In the meantime, you will receive regular interest on your loan.

When you buy Victory Bonds, all Canada is your security. These Bonds are more readily turned into cash than any other.

HOW TO BUY—Give your order to the cashier who sells on you. Or place it in the hands of any branch of any bank, or give it to any trust company. Or send it to your local Victory Loan Office. Or send it to your local Victory Loan Office. Or send it to your local Victory Loan Office. Or send it to your local Victory Loan Office.

Unemployment Insurance

H. A. Threlk

When Mr. Threlk told the people of Alberta that the strike of his pen and without taking anything from anybody he could give you twenty-five dollars a month, I said, he was the most colossal liar the world had encountered since Dr. Cook declared he had found the North Pole. I am not unsay- ing it now, but the man who invented the scheme called un- employment insurance, is Mr. Threlk. He is a part of the Lie.

Mr. Threlk declared he had found the North Pole. I am not unsay- ing it now, but the man who invented the scheme called un- employment insurance, is Mr. Threlk. He is a part of the Lie.

AUCTION SALE

Farm stock, machinery and furniture of Mrs. Hayman, near Ashmont on July 10th. J. C. Hayman, auctioneer, license No. 108-41-42.

Part of an address delivered at Kingston, Ont., by Wilfrid Laurier, before the Canadian Political Science Association, on May 24th, 1941.

Conspiracy in wartime tends to withhold military information from the enemy, and to safeguard public morale from the corruption of enemy propaganda.

To achieve this, the press censorship is co-ordinated with censorship of radio, mail, telephone, telegraph and cable lines, and with appropriate safeguards against public access to prohibited areas.

The principles of military censorship are simple. The success of successful warfare is secrecy.

"Let us learn what we can from the enemy; let us teach him only what we must have the rule laid down by Lord Balfour in the last war. Surprise is still the most valuable secret weapon of war; and the state of affairs from the narrow viewpoint of military operations is a complete black-out on all information regarding such matters as the strength of military units, the disposition of units, the nature of defenses, the stocks of war supplies, the rate of growth of the armed forces, the rate of production of war weapons, and so on.

In modern wars, these desirable military secrets must be extended to facts concerning the economic, financial and psychological strength of the nation at war.

Swam With A Queen

Mr. H. S. Hanson received a letter from Honolulu recently from his son who is in the U.S. Navy. The boy finds the parade of the Pacific the most wonderful in all the world of course. His father's reply followed immediately and cost \$100 in air mail.

When I was at Okavaka, California, my brother related having been to Hawaii forty years ago as a young man then with two or three white boys who swam with Queen Liliuokalani. The boys swam out and drifted innocently to where Her Royal Highness with her ladies-in-waiting were bathing. Suddenly a swift canoe shot from the shore manned by tall dark guards and the boys retired, but the Queen commanded the order and actually beckoned them to approach nearer. In these days there were very few white boys if any who visited these distant islands. The boys were all very fair and graceful swimmers but the idea never dawned on the young fellows that dark Queens could not rest the charm of apple white swimmers. All swam naked except possibly Liliuokalani and the court ladies. As I think of it I may as well tell you another true story: Some forty years ago my brother spent three years on an island some 1200 miles from Indo China and "somewhere" three acres of land. He cut down timber and started to build a house. After a few days travel two comely dark maidens came. They are not the negroid type in those islands, but are pretty and perfectly built Amazons. The women do all the labor.

My brother related the two belles courted long and smiled intently then came closer speaking their language mixed with some French which my brother understood but now has long forgotten. They bowed low and went away. Read on. Low and behold! When brother went to the beach early one morning, there sat one of the very girls smiling but entirely nude! He knew the laws and customs and had accepted this proffered invitation to marry the beautiful south sea islander, he would have been bound to remain there a veritable captive the rest of his life.

A Judge Forty Years Ago

We have such a judge that comes to St. Paul. Years ago when at high school, I used to write news for the papers and now I call from one of my commentators on the judiciary at that time. "His Honor Judge _____" made his second appearance to this town after his appointment. His decisions furnished further evidence of his fitness for the important position. Her demerit on the bench, his good nature, his marked endeavor to do out justice in a kindly quiet and exceedingly agreeable way in small or large cases, for the poor or rich dispassionate word for him the confidence and the respect of the bar and the public."

Would that I could still write in that tempo today, but alas, I have met some who could not measure up to the high regard I had formed of them in former years.

BATH NO ECONOMIC
Low water prices, high taxation, and accumulations of public and private debt were declared by R. E. Atwood, M.L.A., father and member of the Social Credit board; to be in accordance with the will of the people.

CHARGE DISMISSED
Adj. Marcoux, county resident, was dismissed by Magistrate Hume on a charge of dangerous driving as a result of several weeks ago. Rev. Father Wallraves of Edmonton was the prosecutor in the accident. He has since been released from hospital.

Successful Farmers
Mr. and Mrs. Ryh Vischer and son who settled first at Corvallis when they came to Canada from Holland, eleven years ago, arrived, retired and later purchased the distant 400 acres on the east shore of Lake St. Vincent four years ago. They had to clear, break up many acres and build up the latter end buildings to make a possibly habitable house. A new barn was constructed three years ago and summer they built a small cottage on the hill. The Vischers have 85 pigs and milk 17 cows, but I observed that the two boys and the father milked all there is a mother and 17-year old daughter who have lots to do as carpenter work is completely transforming the interior of this God's chosen country to make it more habitable again.

We noticed a motherless one-month-old pig contentedly suckling the doe along with three piglets and this little piglet was not with the piglets with the kittens. Several young strange things sometimes in this God's chosen country.

OWLSEYE NEWS WHITE RAT

For the May meeting of the Social Club, Mrs. Steele and Mrs. Hugelshaus were joint hosts at the largest attended meeting. The roll call was answered by wit and wisdom. Mrs. Steele and Mrs. Hugelshaus were the hosts of the evening. The Social Club was held at the home of Mrs. Steele. The Social Club was held at the home of Mrs. Steele.

The best news that has swept this part of the country has undoubtedly caused a serious reduction in yield. With the bonus of the reduction and the increasing rising to raised farming the marketing of grain will be light. Mr. and Mrs. Brodwin have had their daughters and sons-in-law. Mr. and Mrs. Alton and Mr. and Mrs. Wilson with their families for a week's visit. There were very few shelled men of military age left in the district. As volunteers they have the privilege of selecting the branch of service they prefer.

The Livestock Co-operative credit certificate of a pig from June 1st, 1940 has added greatly to the enthusiasm of co-operative shippers. Councilor Sloane is busy fixing up the roads which carry the most traffic. Last week the road west of the hall towards Achenbach was being graded.

AN EASY DECISION

Motor car drivers in Canada are now free to face with the fact that the armies of the Empire need the gasoline which Canada is used for pleasure. For several months past every loyal Canadian has been nursing the fervent wish that the young flyers from Canada with their breakable bodies which that airlines have unloaded in the British Isles. Now finally the wings of hundreds of Empire planes come when we have the opportunity to shake the morale of Hitler's millions.

And as such new flight of aeroplanes struck into battle, and as the Empire increases its raiding groups from a handful of attackers to waves of machines which are counted by the hundreds, fuel for these fighting ships stands out as the stark necessity of the hour. From London comes the urgent cry, "Give us all the gasoline you can spare."

Canada cannot turn over all her gasoline. That product is vital in our huge production of war material. We need large quantities for the hundreds of air training ships across the country for the navy and the convoys which touch our shores, for the transportation of war goods. But there is one way in which we can supply more gasoline for the fighters—by refusing to use up private motor cars in private motor cars. Millions upon millions of gallons of gasoline are spent every year in private motor cars for purposes which may be considered unnecessary in the light of the drastic need across the Atlantic.

If our fighting forces are to get any help at all from Canada in so far as gasoline is concerned, fuel experts declare that of gasoline by at least fifty per cent. And with this knowledge, the one who is going to refuse to co-operate is the decision in an easy one.

WEDDING
Several cars were racing up main street last Thursday afternoon when the marriage of one of St. Paul's fine young fellows was celebrated. The happy ceremony was a surprise to all the young set when Jimmy Dabert led Mary Marie, daughter of Mr. S. B. Dabert and the late Mrs. Dabert, of St. Brider to the altar of the R.C. church at St. Brider. A shower Monday night was held by Mr. and Mrs. William of St. Paul. After the ceremony the bride couple and friends gathered at Mrs. Dabert's home for dinner and then motored back to her home where the wedding supper and dance continued all night long. On Tuesday evening an open platform 40x14 had been constructed where hundreds enjoyed themselves immensely. The happy couple were married by Rev. Father Katie Boychuk of Viska, Charles Boychuk and Hector G. Gies. The music was furnished by the Mayor Lena Olink and the organist, Wm. S. Gies. The bride and groom were married by Rev. Father Katie Boychuk of Viska, Charles Boychuk and Hector G. Gies. The music was furnished by the Mayor Lena Olink and the organist, Wm. S. Gies.

WEDDING
Several cars were racing up main street last Thursday afternoon when the marriage of one of St. Paul's fine young fellows was celebrated. The happy ceremony was a surprise to all the young set when Jimmy Dabert led Mary Marie, daughter of Mr. S. B. Dabert and the late Mrs. Dabert, of St. Brider to the altar of the R.C. church at St. Brider. A shower Monday night was held by Mr. and Mrs. William of St. Paul. After the ceremony the bride couple and friends gathered at Mrs. Dabert's home for dinner and then motored back to her home where the wedding supper and dance continued all night long. On Tuesday evening an open platform 40x14 had been constructed where hundreds enjoyed themselves immensely. The happy couple were married by Rev. Father Katie Boychuk of Viska, Charles Boychuk and Hector G. Gies. The music was furnished by the Mayor Lena Olink and the organist, Wm. S. Gies.

Our Own Johnny

Little Betty, returning from school one afternoon, said: "Johnny Wilson's examination papers were so good that teacher kept them on her desk to show visitors."

Asked about her own, she had to confess that they were not so good.

"Why aren't yours as good as Johnny's?" her mother asked. "You have the same opportunities."

"I know, mother," said Betty. "But Johnny Wilson comes from a very bright family."

This splendid son of old France and his charming French wife, the late Mrs. Wilson, died last night at the age of 70, after a long illness.

There are four or five of these Carls and I must say that they all have a few bones as Philibert and I know are similarly prepared. I may be able to furnish our picture on this lively lake. Last week the water-levels were high with rain and snow.

RAY KILLS
SAD TO FATALITY
A 13 year old boy was accidentally shot and killed by his 9 year old brother, Saturday night. The cause was the boy's gun and the fatality occurred about 2 1/2 miles south west of Stuart.

Radio & Police

When a policeman is received at the station, the operator knows which squad car is nearest to his microphone and turns to the squad car, reports to him the call which he has received by telephone. As soon as the squad car picks up the message, the two policemen nearest to the place where the trouble is reported, many times rush to the spot where the trouble is reported.

FRANCHISE NEWS

Things have been looking very blue around the franchise business lately. The fact is, however, that there has been growing discontent, often found in the form of a "blue" or "blue" as a result of the common blue. The blue is a result of the fact that the franchisee is not getting the full benefit of the franchise. The franchisee is not getting the full benefit of the franchise. The franchisee is not getting the full benefit of the franchise.

Killing Weeds in the Fall

A little time taken in the fall will kill many weeds that are now coming up. A light hoeing or cultivating of land in the fall just before freezing will kill many weeds that are now coming up. Carload of Furs

Very many of the Indians, some 25 miles west of St. Paul, had fair to become better farmers than some of our much vaunted Canadians.

After calling on Col. Smith, J.P. Bob Tomlinson, Wm. MacIsaac, Nick Jaure, John MacIsaac, and Silver Oshakay, I called out of my curiosity on an Indian habitation as a diversion.

Imagine my utter surprise at being greeted at the door by none other than Mr. Ralph G. Steinhauser and his equally charming young wife and three really lovely well-dressed little children save from the crude die to ten or eleven.

With the utmost cordiality and friendliness, Mrs. Steinhauser invited me to dinner.

Mr. Steinhauser is particularly proud of his farming operations this year inasmuch as the neighbors had said that furs was not a very successful crop in this part of Alberta. He gave us a fine sample of that which he threshed nearly 100 bushels on breaking that was well worked down last summer.

Born—to Mr. and Mrs. Harold Gratton, a boy, on Sept. 29th.

Mrs. A. Chapdelaine, Malaga, was a patient.

A. Isen, born in 1908. These two then young men used to cross the Saskatchewan river on floating ice to seek work on the farms from the older farmers there.

Col. Smith is a veteran of the South African Boer war of 1900 and came to Canada joined the Northwest Mounted Police and was one of those famous plainclothesmen for five years. He and Mr. Yellaw married sisters and they have shared with their husbands the soil, travel and rude vicissitudes of pioneering in this country.

By dint of hard work they have cleared of bush, brush and stones, each a half section. Both are nearly 70 and they would like to retire. Why retire on more vicissitudes of a month to be tucked onto your head and bone and hypochondria is so that the wife will be eventually left penniless! said Mr. Smith when interviewed.

An Englishman no matter how long away from home can't live without a duckpond on his farm. Will Smith has this and it may be one of the reasons he has his lake holdings so long. There are hundreds of wild ducks consorting with his on the lake close to the barn. "Sometimes the lake is black with them," said Mrs. Smith. "She too can shoot straight." Any policeman has killed as many as a half dozen or more with one shot. Yes, Mr. Smith's name has appeared in "The Star and Gold," the R.C.M.P. magazine many times and such brave plumes of name should be engraved in letters of gold on tablets of stone for posterity to read so that they may have a glimpse of the heavy settlers position in the early days of this country.

Monetary Reform

get that he comes clear and tell us who he is and who is paying for his pamphlet. Everybody has confidence that the banks won't go broke and if the government itself don't money to blacksmith in the same manner as it does, the banks they would never go broke either. Belgium, Holland, France, Denmark and Norway all had kept clear of monetary reform and Russia had not only failed, but had reformed its money system and after so doing built a military system that has held Adolf Hitler up with his sound money machine and will eventually defeat the Nazis. Monetary reform means the elimination of interest from public debt and if the Canadian government had reformed its system after the last war, we would now be saving two million dollars every day that is going into the bondholders and do not recommend them, but we have not noticed that the wealth of our youth was being jeopardized by reading Hitler. The trend of things is that the end and already interest on bonds has been reduced since the last war to 1% per cent and if interest can be cut down to that point it can be eliminated altogether. Poor your money we refuse Mr. Willis' claim and declare in these days are more for themselves or their employees rather than they do about winning the war.

BRITISH R.A.F. BLAZE A TRAIL THROUGH GERMAN CITIES

A vast and continuous British offensive has been carried out in the air against Germany. German shipping and German commerce have felt the full force of our air power, but the heaviest attack was made on the industrial district of Münster, capital of Westphalia. This picture was taken at a bomber station where Whitley bombers were preparing to take part in this lately raid on Germany, and shows heavy bombs being loaded.

Letter Telling Of Red Cross Work in England

The following is an extract from a letter received by Mr. F. Stone, Dog Pound, Alberta, from his brother Mr. 41464 N.B. Vandusen, Sir Royal Canadian Engineers, Fourth Field Co. Somewhere in England. Mr. Stone has been kind enough to give us permission to publish same. May we hope that you will find it convenient to give this publicity through the medium of your paper as we think that the people would be interested in reading this story. Thanking you for past favors.

You asked me what the Red Cross was doing for us. They don't do anything for the boys until they take sick. Then they give all they can in comfort and it is quite a lot. But they do better than that. In the places that are badly bombed they help with clothing, foodstuffs, hot drinks in the night and things like that. I just give you one little incident that happened and believe me I am for the Red Cross from now on. If it will help to raise your rate.

"I was up to London some time ago. Of course I was up for some time but had it. Here they take in the sidewalk about ten o'clock. I came in to bed about eleven and before I got undressed the alarm went. Of course like the rest I dove into a shelter, curled up in a corner and went to sleep. A girl hid my sweater and overcoat on it, it wasn't too bad. Then about six bells, I crawled out and rubbed the sleep out of my eyes, caused a little at having to miss sleeping in a soft bed and started to hunt something to eat. I walked about the blocks when I saw a young woman on the street with a child about three and another about a year old. They were in the night clothes and nearly frozen. They had left their beds in a made for a backyard shelter when a bomb hit their house. It was no more. What money she had was in the house and she had lost that. I wrapped one kid in my sweater, the other in my blanket, put my coat on her and got them into a cafe for breakfast and to warm them up. We then rounded up a taxi headed for the Red Cross which was the only place open, and had them fitted out with clothes and they stayed there in a warm place until the authorities fixed them up. The Red Cross had hundreds like that every day. When I left she said, 'God bless you, Canadians and the Red Cross.'

"They need help far more than we do go up at it although we don't get any help until we are sick. That happens every time there is a raid. The Government helps them all but like all Government things they had so much red tape to go through that they never got it. I just give you one little incident that would suffer a lot more if it wasn't for the Red Cross."

MALLOY NEWS Farmers and City Dwellers Have
—V—
Wrong Impressions of Each Other
PROCEEDS FOR SOCIAL AND
CHRISTMAS CHEER FUND
—V—
They Are Both Wrong

City people who have never lived on farms, and farm people who have never lived in cities, have queer ideas about each other. Town people are more fortunate. They know farm people and farm people know them. They understand each other. They attend the same churches, belong to the same lodges and societies and work together in the Red Cross and other patriotic organizations.

There would be no farm problem such as we have today if town and country people had been left to solve it. But Canada has grown some big hungry cities and the people in these cities have a lot more to say about national policies than they ought to have. They have organizations for everything and are very busy promoting their own interests.

Mr. and Mrs. Olsen were in town on Saturday.

—V—

WHY WASN'T ST. CYR DANCE A SUCCESS?

These organizations are all very progressive with governments that they carry a great deal more weight than their size and importance warrants. Town and farm people are just waking up to the fact that they need to be heard at Ottawa, too, if everyone is to get a square deal.

"The squeaking wheel gets the more grease" is an old farm adage that seems to have been adopted by some of those who are heard above the din of war in the offices of the government.

The most dramatic scene we ever saw took place at St. Cyr school dance.

A bunch of expert dancers decided they absolutely could not dance to the tune of a musical.

Organizations have changed the business of democratic government until the civil service seem to be divided between the takers-in and the givers-out. The duty of the takers-in appears to be to take from those who protest the least and the duty of the givers-out to give to those who yell the loudest.

In the past city people have asked too much from governments and have received too much. Rural people have asked too little, protested too little, and have lost out to the cities.

They have both been wrong. All have harmed. Today farmers are organized across Canada and town people are giving them sympathetic support to the Canadian Federation of Agriculture, in the sure knowledge that whatever is done to restore the balance between farm and urban earnings will benefit everyone in Canada—every person in Canada.

Even in personal impressions, which make or mar good will etc. and, I fear, people who do not know each other's problems.

**PASTOR THANKS GOD
RUSSIA IS AN ALLY**

—V—

Lt.-Col. G. A. Wells, principal Protestant chaplain for

Canada's armed forces told a church meeting "we may thank God that Russia is fighting on our side."

"There is no reason why we should not wish the Russians good luck—and good luck in raid."

It is a mistake to look for war prosperity. There will be shortages of civilian goods, particularly luxuries. There are already shortages of some foods, but we can produce our needs in munitions and foods if a proper balance is struck between urban and farm earnings.

There have been found 100 pounds of opium casing and young men from Haiti Charbon and his uncle, David Charbon, charged with the same crime.

FOUNTAIN OF LOVE

This should appeal to all young couples. Rev. F. Meunier said at the wedding he officiated that "Marriage is one of the greatest joys of the church. Love is the glue that binds each other with truly Christian love. I wish you happiness."

In his conversation with President Roosevelt at Hyde Park the Canadian Prime Minister could very appropriately, and doubtless did, say before the President impressive details of the war effort. He said that "the war effort has been no mere accomplishment. In fact, looked at

debt that may never be repaid. As for this, Canada needs no loans. It has the money and all requests made of her will even ask, from time to time, for more."

The war industries and the armed forces have almost dried up the available sources of Canadian manpower, yet those now

Why Bears Leave Home

Three weeks ago Alpha La-
fleur of St. Paul started making
his annual J. H. McLeod
and went from west to St. Paul.
out at work there. On one
of the very dark nights after
Mr. Lafleur and the boys had
fallen in quite late after their
day's work, Mr. Lafleur heard
a growling noise near the camp.
He thought it was Michael's
dog and in the morning he said
of the boys where their dog
was. They said they had not
trouble with the dog from home.
Now, Mr. Lafleur rarely says
"you" unless he can see them.
he was at the door, but he
a bear at night. The boys swear
that all the animals were
and anyway it's too far from
Christmas yet.

When they opened the camp
door they saw that the bear
had scratched the door vigor-
ously and so much that there
was a hole of several feet in
the door.

The boys slept soundly and
Mr. Lafleur rolled over and he
slept more soundly than before
after being so rudely disturbed
but was aware when he discovered
that a bear had come so close
to his trusty rifle that he could
have and as easily.

If Mr. Lafleur comes close again
he will receive a bullet between
the eyes. Mr. Lafleur says it
was a bear that was so close
to his trusty rifle that he could
have and as easily.

Ice Was Dangerous

—V—

Mr. and Mrs. Phil Roberts,
after their late left to visit
relatives at Herbert and Gou-
Lafleur, last, before going to
B.C. to make their home.

When they got on the other
side of the river at Elk Point,
just north of the town, the ice
was so bad that they had to
wait and to wait and wait.
and Mrs. Roberts made a wide
detour with their car and got
across. Phil Roberts, like his
brother here knows how to ex-
pect the worst.

Mr. Roberts is a man of
out of his or out of his, and
entertained getting the truck
out. There were two men and a
woman in the cab and it was
hard to open the door, but they
were paid open and the
people's lives were saved. The
door then the plan was to sit
there till it got out from the
two or three inches or from the
front by cutting the ice a dis-
tance and leaving down limbs
from the front wheels to the
ice. The plan was to sit there
and wait for the ice to melt.

A GERMAN FOREST GIVES UP ITS SECRETS

Gold Is Absolutely Useless In Helping To Win The War

There is labor trouble among the gold miners of Northern Ontario. Some 1,000 men are on a strike in the Kirkland Lake district. We have no intention here of going into the merits of the dispute. For one thing, we don't know enough about it.

We do know, however, everyone who gives the matter serious consideration knows that mining for gold at this time is as good an example of pure waste of man-power and resources as it would be possible to conceive. In Canada about 60,000 men, some of them highly experienced and highly skilled, are employed in the industry. The industry is a very small one in as far as any contribution to the winning of the war is concerned. For what do they dig the precious metal out of the deep earth for? They dig it to sell it to a few speculators, who then reconvert it into gold bars and sell it to the government at a low price. These gold bars are then used to purchase war materials from the United States. This is a very expensive guarded thing, either here or in the U.S. Not a bullet, not a gun, not a shell—nothing does it contribute. As an instrument of war it is worthless. Nickel, copper, steel—indeed any other metal would be of infinitely greater value. Even uranium, which some believe that gold after the war may have some place in the

Quebec Does Its Share; More Enlist Than Ontario

Up to the present 33,857 young men enlisted from Quebec and 32,714 from Ontario. The above are statistics that cannot be denied, minimized or twisted. In addition to the 40,000 French in Ontario, particularly in the northern Ontario there is a very large French contingent everywhere. It does not forget North Bay, Sudbury or Collingwood where the Diemans turn out quinquilles every so often. Of course Orangemen do not need Catholics conspired they are predominantly French.

Why Chicago Is Bombed Or Burned England

I have been asked hundreds of questions about the bombing of England. Perhaps other readers would like to know a few of the answers.

It is true, for instance, that the damage done by the bombers is not as great as it seems. The damage is not as great as it seems because the bombs are not as accurate as they are. The bombs are not as accurate as they are because the bombers are not as accurate as they are.

A Plan of Cooperative Farming in Canada

LECTURE PRESENTED BY G. GAMMAGE AT UNIVERSITY OF ALBERTA

by ROBERT OWEN CHEN, THUNDER BAY, ONT.

The following is a summary of a lecture presented by G. Gammage and broadcast over CMAU under the name of Co-operative Farming.

There is much in co-operative farming and has found as many as five of it that I am going out to the farms for further study and investigation of the possible application of the same to Canada.

First, let us consider the equipment as it stands today on fifty small farms. Many farmers will have 50 horses, 40 cows, 40 pigs, 40 chickens, and 40 sheep. This is a very small scale of farming, but I wish to say that in reality and even then the picture is wrong.

1942 No. 20

Mr. John Rawlins of Lake Elsin has recently returned from attending the National Council meeting on the rights, held in the Chateau Laurier, Ottawa, Feb. 23 and 24. He was elected as a member of the Lake Elsin Co-op. Mr. Rawlins hopes to continue to induce the people of the U.S.A. to support a stronger Canadian economy. He is a director of Alberta Farming Union and will visit every local community as a representative of the U.F.A. as well as report on the U.S.A. to the local U.F.A. A distinct step towards establishing an Air Cdn. Co-op was made on Tuesday, March 28, when Flight Flight 1000 was conducted. The flight was conducted on an organizing meeting in the Parish hall. A direct flight was made from Lake Elsin to Bromma, chairman, P. G. D. Watt, secretary-treasurer, J. A. Watt, and P. G. D. Watt and Phil German were appointed for this year. Enlistment in the U.F.A. is 10 (10 years) and senior cards (10 years) and senior cards (10 years).

the activities of the conference. Among resolutions passed at the meeting was one urging the people to persevere to a greater extent.

and if we don't wake up to save ourselves we are not worth saving. It is your duty for profection and it is your duty to produce more. This war to defeat Fascism is your war, the people's war, and it is just common sense to be fully mobilized to assure victory. A second front in Europe against Hitler must be opened, and Fascism must be crushed in 1941. The farmers must ask the government to co-operate
